Reinventing Legitimacy:

The Unraveling of Representative Democracy in Venezuela Jennifer L. McCoy, David J. Myers, 2006-03-01 For four decades Venezuela prided itself for having one of the most stable representative democracies in Latin America. Then in 1992 Hugo Chávez attempted an unsuccessful military coup. Six years later he was elected president. Once in power, Chávez redrafted the 1961 constitution, dissolved the Congress, dismissed judges, and marginalized rival political parties. In a bid to create direct democracy, other Latin American democracies watched with mixed reactions if representative democracy could break down so quickly in Venezuela, it could easily happen in countries with less established traditions. On the other hand, would Chávez create a new form of democracy to redress the plight of the marginalized poor? In this volume of essays, leading scholars from Venezuela and the United States ask why representative democracy in Venezuela unraveled so swiftly and whether it can be restored. Its thirteen chapters examine the crisis in three periods: the unraveling of Punto Fijo democracy, Chávez's Bolivarian Revolution, and the course of participatory democracy under Chávez. The contributors analyze such factors as the vulnerability of Venezuelan democracy before Chávez, the role of political parties, organized labor, the urban poor, the military, and businessmen, and the impact of public and economic policy. This timely volume offers important lessons for comparative regime change within hybrid democracies. Contributors: Damaris Canache, Florida State University; Rafael de la Cruz, Inter American Development Bank; Jos Antonio Gil Yepes, Datanalisis; Richard S. Hillman, St. John Fisher College; Janet Kelly, Graduate Institute of Business, Caracas; Jos E. Molina, University of Zulia; Moshe Na'aman, Foreign Policy; Nelson Ortiz, Caracas Stock Exchange; Pedro A. Palma, Graduate Institute of Business, Caracas; Carlos A. Romero and Luis Salamanca, Central University of Venezuela; Harold Trinkunas, Naval Postgraduate School.

Gender and Populism in Latin America Karen Kampwirth, 2010 Analyzes populist movements in Argentina, Bolivia, Brazil, Ecuador, Mexico, Nicaragua, Peru, and Venezuela from a gender perspective. Considers the role of masculinity and femininity in populist leadership, the impact of populism on democracy and feminism, and women's critical roles as followers of these leaders. [Cultivating Socialism](#) Rowan Lubbock, 2024-05-15 Launched in 2004, the Latin American regional institution of ALBA (Alianza Bolivariana para los Pueblos de Nuestra América Bolivarian Alliance for the Peoples of Our America) sought to overcome the historical legacies of neocolonial domination by consecrating the values of cooperation, inclusive development, and popular power. As part of a region-wide effort among states and social movements to break out of the destructive effects of capitalist agriculture, the elevation of food sovereignty based on the protection of rural livelihoods, land redistribution, and sustainable agricultural production, agroecology became a cornerstone of ALBA's development policy. And yet these regional aspirations barely saw the light of day while Venezuela, the beating heart of ALBA, experienced the worst food crisis in its history. How did this come to pass? Based on extensive fieldwork in Venezuela, where the majority of ALBA's food policies reside, *Cultivating Socialism* provides the first in-depth study of the ways in which peasants, workers, and states working through ALBA

attempted to redress the inequities of commercial agriculture and the limits and contradictions encountered on the road to a regional food sovereignty regime With his analysis of the politics of food sovereignty within ALBA Rowan Lubbock offers important lessons about how we might think about emancipatory politics today and in the future **Civil Society and**

Mares,2022-10-04 It is widely thought that state ownership of natural resources oil and natural gas in particular causes countries to fall under the sway of the resource curse In such cases governments allegedly display resource nationalism which destabilizes the economy society and politics In this book David R Mares dispels these beliefs and develops a powerful new account of the relationship between state resource ownership and energy policy Mares examines variations in energy policy across a wide range of countries underscoring the fact that in most of the world outside the United States subsoil natural resources are owned by

the state He considers the history of Latin American oil and gas policies and provides an in depth analysis of Venezuela from 1989 to 2016 before during and after the presidency of Hugo Chavez Mares demonstrates that the key factors that influence energy policy are the inclusiveness of the political system the level of competitiveness within policy making and the characteristics of individual leaders Domestic politics not state ownership determines the effectiveness and efficiency of energy policies the resource curse is avoidable Drawing on these findings Mares reconceptualizes resource nationalism arguing that government intervention into resource extraction is legitimate as long as the benefits are shared through the provision of public goods Featuring a sophisticated grasp of both Latin American politics and energy policy this book sheds new light on why some governments are responsible stewards of natural resources while others appropriate national wealth for partisan or private benefit *Military Politics and Democratization in Indonesia* Jun Honna,2013-01-11 The military have had a key role to play in Indonesia s recent history and may well have a decisive role to play in her future This book looks at the role of the military in the downfall of Suharto and their ongoing influence on the succeeding governments of B J Habibie and Abdurrahman Wahid The author also examines such key features as human rights reconciliation civic military discourse and ongoing security dilemmas The book is unique in providing the best overview of the role of the military in the world s fourth most populous nation **Party Brands in Crisis** Noam Lupu,2016-01-15 Party Brands in Crisis offers a new way of thinking about how the behavior of political parties affects voters attachments **We Are the State!** Cristobal Valencia,2015-05-28 Chavistas are the local leaders and activists in Venezuela s Bolivarian Revolution working to establish democracy through government sponsored social missions community self governance and popular collectives We Are the State tells the story of their grassroots activism In perspectives gleaned from participant observation with barrio residents in workplaces communal kitchens city wide forums and grassroots meetings and assemblies as well as family and recreational events anthropologist Cristobal Valencia vividly recounts tensions between activists local officials and the wealthy opposition The author offers an anthropological analysis of the state social movements and democracy as lived experiences of the poor gendered and racialized residents of two parishes in Caracas Venezuela and Afro Venezuelan communities nearby Ethnographic research reveals the shift in relationships of power and the evolving political practices among the Chavistas the Chavez government and the opposition Examining the subjective experiences of barrio residents in everyday processes of state formation this book provides a new perspective on the Chavistas arguing that they are a broad based social movement and driving force behind a revolution struggling to transfer state power to organized civil society Through his intense engagement with the constantly changing social political and economic dynamics Valencia dramatically challenges top down understandings of the state and power in Venezuela He shows the unequal relationships between sectors of civil society and he shows state formation as a process enmeshed in the struggles for social justice demonstrating that the state is a sociopolitical entity that acts through civil society rather than above it *Latin America 2012* Robert T. Mixed-Member Electoral Systems Matthew Shugart, Martin P. Wattenberg, 2001-02-01 Mixed member electoral systems may well be the electoral reform of the 21st century much as proportional representation PR was in the 20th century In the view of many electoral reformers mixed member systems offer the best of both the traditional British single seat district system and PR systems This book seeks to evaluate why mixed member systems have recently appealed to many countries with diverse electoral histories and how well expectations for these systems have been met Each major country which has adopted a mixed system thus has two chapters in this book one on origins and one on consequences These countries are Germany New Zealand Italy Israel Japan Venezuela Bolivia Mexico Hungary and Russia In addition there are also chapters on the prospects for a mixed member system being adopted in Britain and Canada respectively The material presented suggests that mixed member systems have been largely successful thus far They appear to be more likely than most other electoral systems to generate two bloc party systems without in the process reducing minor parties to insignificance In addition they are more likely than any other class of electoral system to simultaneously generate local accountability as well as a nationally oriented party system Mixed member electoral systems have now joined majoritarian and proportional systems as basic options which must be considered whenever electoral systems are designed or redesigned Such a development represents a fundamental change in thinking about electoral systems around the world
