Sikes,2024-04-04 Towards the end of the twentieth century books proclaiming the closing of America s mind the collapse of her communities and the end of her art literature education and more began appearing with regularity The underlying theme in all such works is the loss of those experiences that give our lives meaning In The End of Meaning Cultural Change in America Since 1945 readers learn to recognize these experiences realize how prominent they were in the postwar period c 1945 65 understand the forces that have brought about their extraordinary decline in our families and communities universities and religious institutions films and popular music fine arts labor and more and realize the implications of this loss for our society and our humanity In doing so the book provides a way of thinking about a vital subject one which despite its enormous importance has never been examined in a broad and systematic way capable of generating real understanding discussion and debate     Suicide of the West Jonah Goldberg,2020-01-14 NEW YORK TIMES BESTSELLER An urgent argument that America and other democracies are in peril because they have lost the will to defend the values and institutions that sustain freedom and prosperity Now updated with a new preface Epic and debate shifting David Brooks New York Times Only once in the last 250 000 years have humans stumbled upon a way to lift ourselves out of the endless cycle of poverty hunger and war that defines most of history If democracy individualism and the free market were humankind s destiny they should have appeared and taken hold a bit earlier in the evolutionary record The emergence of freedom and prosperity was nothing short of a miracle As Americans we are doubly blessed because the radical ideas that made the miracle possible were written not just into the Constitution but in our hearts laying the groundwork for our uniquely prosperous society Those ideas are Our rights come from God not from the government The government belongs to us we do not belong to it The individual is sovereign We are all captains of our own souls not bound by the circumstances of our birth The fruits of our labors belong to us In the last few decades these political virtues have been turned into vices As we are increasingly taught to view our traditions as a system of oppression exploitation and privilege the principles of liberty and the rule of law are under attack from left and right For the West to survive we must renew our sense of gratitude for what our civilization has given us and rediscover the ideals and habits of the heart that led us out of the bloody muck of the past or back to the muck we will go     *Who are We?* Samuel P. Huntington,2004 Blockade is the story of a long running trade battle at sea between Britain and Germany during the First World War Each country fought for survival but this book focuses on the story of the Northern Patrol and the 10th Cruiser Squadron The Royal Navy s role during World War I denying Germany access to the sea trade and vital resources was crucial to helping Britain win the war on the Western Front The Northern Blockade located across the inhospitable waters between Iceland and Scotland was to bring the German economy to its knees

and destroy her home front morale Likewise the Royal Navy's success in negating Germany's attacks on British commerce prevented much suffering in Britain Steve Dunn vividly describes the final destruction of German surface vessel commerce warfare He examines the American reaction to the British naval blockade and to Germany's war on trade as well as Germany's treatment of American sailors taken prisoner Dunn also considers changes in strategy employed by both sides Blockade brings to life the experiences of those who manned the blockade and creates a vivid picture of the dangers of duty in this highly significant but overlooked aspect of World War I

on the philosophy of race in the past century in the United States the concept of ethnicity has only recently awoken the interest of American philosophers and the relations between race and ethnicity remain largely unexamined The discussion is divided into two parts dealing on the one hand with the nature and the relation between race and ethnicity and on the other with the social consequences of the complex relations between them Part I explores in particular the debated topic of racial and ethnic identities Does it make sense to speak of racial and ethnic identities and especially of black and Latino identities And if it does make sense how should these identities be conceptualized and how are they related to gender Part II examines how race and ethnicity have influenced the lot of some social groups in significant ways How do racially defined institutions deal with racial assimilation How do different conceptions of race and ethnicity influence public policy and various forms of racism How can exploited racial and ethnic groups be effectively recognized And what is the role of affect in social justice as dispensed by the courts

Strangers in This Land E. Allen Richardson, 2014-01-10 This updated revised version of the important 1988 first edition must reading for anyone seriously probing religious pluralism in our society Theology Today examines the complex relationship between American ideals and increasing religious diversity In the past two decades American religion has become more pluralistic and the central dynamic of welcoming versus rejecting religious diversity is even more prominent and nuanced Explored here are two competing visions of the American Dream as it relates to religion America as a pluralistic society shaped by its diversity and America as an assimilative society in which people of all backgrounds become American

The Challenge of Diversity David M. Rhoads, The Challenge of Diversity argues that the present diversity in the church reflects a rich variety that was integral to the early Christian movement from its very beginnings Rhoads shows how Galatians Mark Matthew Luke and John each present a fundamentally different understanding of the human condition a different vision for life under God and a different portrayal of our transformation

A Free Church, a Holy Nation John Bolt, 2001 In addition to considering such key issues as poverty wealth and power theocracy and pluralism civil religion the culture wars and political cooperation between evangelicals and Roman Catholics Bolt also draws extended comparisons between Kuyper's views and the thought of Alexis de Tocqueville Lord John Acton Pope Leo XIII Walter Rauschenbusch and Jonathan Edwards A distinctive feature of this study is its focus on the rhetorical poetic character of Kuyper's public theology and practice as a political leader Bolt shows how focusing on Kuyper's rhetorical and mythopoetic perspective rather than on his theological and philosophical ideas provides contemporary evangelicals with a more credible and effective theology for the public square

Jacket Reinventing World War II Barbara A. Biesecker, 2024-08-09 By the 1970s World War II had all but disappeared from US popular culture But beginning in the mid eighties it reemerged with a vengeance and for nearly fifteen years World War II was ubiquitous across US popular and political culture In this book Barbara A Biesecker explores the prestige and rhetorical power of the Good War revealing how it was retooled to restore a new kind of social equilibrium to the United States Biesecker analyzes prominent cases of World

War II remembrance including the canceled exhibit of the Enola Gay at the National Air and Space Museum in 1995 and its replacement Steven Spielberg's *Saving Private Ryan* Tom Brokaw's *The Greatest Generation* and the United States Holocaust Memorial Museum Situating these popular memory texts within the culture and history wars of the day and the broader framework of US political and economic life Biesecker argues that with the notable exception of the Holocaust Memorial Museum these reinventions of the Good War worked rhetorically to restore a strong sense of national identity and belonging fitted to the neoliberal nationalist agenda By tracing the links between the popular retooling of World War II and the national state fantasy and by putting the lessons of Foucault Derrida Lacan and their successors to work for a rhetorical political analysis of the present Biesecker not only explains the emergence and strength of the MAGA movement but also calls attention to the power of public memory to shape and contest ethnonational identity today This book will interest rhetoricians and historians as well as students and scholars in the fields of US politics and communication studies     **Multiculturalism**
