decisions The fact is all of us are subject to the occasional irrational impulse the wild hair that surprises us and those around us Usually this is not a big problem in fact it can act as a safety valve for our creative abilities and a check against unnecessary self restriction But it s not so healthy when we find ourselves driven by compulsions and obsessions that seem to take over our lives and consume our attention and energy How can we discover the origins of these forces Can we turn them into something constructive Astrology provides a key to these questions in the quindecile This newly researched 165 degree aspect of hidden driving forces is thoroughly explored in these pages by an experienced astrologer and mental health professional Numerous chart examples support the analysis of the quindecile in natal transit progressed and synastry horoscopes A full set of delineations and interpretations lets you quickly add this illuminating factor to your understanding of any chart In these pages you will explore The psychological dynamics of obsession compulsion Planetary dynamics by sign element and triplicity The quindecile in natal progressions transits and synastry A full reference section of interpretations and delineations Numerous chart examples of well known people You will find that The Quindecile not only points out the nature of inner compulsions but also suggests ways to transform them into constructive creative activities and projects This is a Print on Demand title Please allow an additional 2 3 days for delivery
