

A person wearing a bright yellow jacket and blue jeans stands with their back to the camera, looking into a dark, cavernous opening. The cave walls are covered in moss and have a blueish-green hue. The scene is dimly lit, with the person's jacket providing a strong point of contrast. The word "DAIRK" is superimposed in large, white, serif capital letters across the center of the image, with the person's figure acting as the letter 'I'.

Relearning History Joe Regenbogen, 2018-01-15 For many students the traditional approach to the study of history does not work The litany of facts arranged in a chronological sequence often turns out to be mind numbing and forgettable In addition they see little relevance between the past and the world they live in today Relearning History was written for those students Instead of reviewing the traditional time line of the past the focus is directed at questions relevant to the present Why does the two party system dominate American politics Why is wealth so unevenly distributed Why does race and gender still play such a large role in modern society Why has there never been a World War Three These why questions along with 11 others serve as the foundation for a discussion of history so that the

study of the past is inexorably linked to an enhanced understanding of the present. Students who are currently enrolled in history classes can use *Relearning History* to supplement and enrich the traditional curriculum. Some may even want to use it in place of the traditional curriculum. As for those adults who have completed their formal education and never learned much in their earlier history classes, this book will give them the chance to finally study history in a meaningful manner.

Relearning to See Thomas R. Quackenbush, 2000-01-24 In this accessible presentation of the famous Bates method, Thomas R. Quackenbush, who teaches the Bates method in California and Oregon, describes how eyesight can improve naturally at any age and regardless of heredity. This book is a wonderful tribute to the genius of Dr. Bates, who was a pioneer in discovering how vision becomes blurred and how it restores itself naturally to clarity and acuity. Now 80 years later, his findings and teachings remain light years ahead of our contemporaries. His approach to treating vision problems was truly holistic, and the theme throughout this book is very much an extension of that holistic approach. Dr. Quackenbush is to be commended for his dedication in getting the truth out and keeping the torch burning in this bible on vision improvement.
