Religion And Environmental Crisis:

Religion and Environmental Crisis Eugene C. Hargrove, 1986 **Caring for Creation** Max Oelschlaeger, 1996-01-01
Argues that religion blamed for contributing to the ecological crisis provides an ethical context that will help solve the problem The approach suggests that the environmentally positive aspects in various Western creation stories demonstrate religion *Religion and Ecological Crisis* Md. Abu Sayem, 2022-09-02 Religion and Ecological Crisis delves into the complex relationship between religions and ecology presenting Christian and Islamic perspectives on ecological issues through the work of John Boswell Cobb and Seyyed Hossein Nasr It examines how faith traditions of the world see and respond to our current unprecedented climate change issues This is the first comparative study of Cobb and Nasr's eco religious understanding and explores how their prescriptions can contribute alternatively to techno scientific initiatives in environmental sustainability Taking Cobb's economism and Nasr's scientism as the key concepts for surveying the roots of the ecological crisis the book offers interdisciplinary and interreligious insights into the debates about ecological equilibrium motivational awareness in human mind and about entanglements between religion and the environment This will be an insightful resource for policy makers faith leaders and for academics working in Environmental Studies and Religious Studies

Religion and Ecological Crisis Todd LeVasseur, Anna Peterson, 2016-07-01 In 1967 Lynn White Jr's seminal article The Historical Roots of Our Ecologic Crisis was published essentially establishing the academic study of religion and nature White argues that religions particularly Western Christianity are a major cause of worldwide ecological crises He then asserts that if we are to halt let alone revert anthropogenic damages to the environment we need to radically transform religious cosmologies White's hugely influential thesis has been cited thousands of times in a variety of disciplines including but not limited to religious studies environmental ethics history ecological science philosophy psychology and anthropology In practical terms the ecological crisis to which White was responding has only worsened in the decades since the article was published This collection of original essays by leading scholars in a variety of interdisciplinary settings including religion and nature environmental ethics animal studies ecofeminism restoration ecology and ecotheology considers the impact of White's arguments offering constructive criticism as well as reflections on the ongoing ever changing scholarly debate about the way religion and culture contribute to both environmental crises and to their possible solutions Religion and Ecological Crisis addresses a wide range of topics related to White's thesis including its significance for environmental ethics and philosophy the response from conservative Christians and evangelicals its importance for Asian religious traditions ecofeminist interpretations of the article and which perspectives might have ultimately been left out of his analysis This book is a timely reflection on the legacy and continuing challenge of White's influential article **A Greener Faith** Roger S. Gottlieb, 2009-10 world making political agenda that far exceeds interest group politics applied to forests and toxic incinerators Rather religious environmentalism offers an all inclusive vision of what human beings are and how we should

treat each other and the rest of life Gottlieb analyzes the growing synthesis of the movement's religious social and political aspects as well as the challenges it faces in consumerism fundamentalism and globalization **Earth & Spirit** Fritz Hull,1993 Religion and the Environment Roger S. Gottlieb,2019-02-21 The environmental crisis creates an unprecedented moral predicament how to be a good person when our collective and individual actions contribute to immeasurable devastation and suffering Drawing on an extraordinary range of sources from philosophy political theory

global religion ecology and contemporary spirituality Roger S Gottlieb explores the ethical ambiguities challenges and opportunities we face Engagingly written intellectually rigorous and forcefully argued this volume investigates the moral value of nature the possibility of an ecological democracy how we treat animals the demands and limits of individual responsibility and collective political change contemporary ambiguities of rationality and how to face environmental despair In *Morality and the Environmental Crisis* Gottlieb combines compassion for the difficulties of contemporary moral life with an unflinching ethical commitment to awareness and action

Inherited Land Whitney A. Bauman, Richard R. Bohannon, Kevin J. O'Brien, 2011-08-04 Religion and ecology has arrived What was once a niche interest for a few academics concerned with environmental issues and a few environmentalists interested in religion has become an established academic field with classic texts graduate programs regular meetings at academic conferences and growing interest from other academics and the mass media Theologians ethicists sociologists and other scholars are engaged in a broad dialogue about the ways religious studies can help understand and address environmental problems including the sorts of methodological terminological and substantive debates that characterize any academic discourse This book recognizes the field that has taken shape reflects on the ways it is changing and anticipates its development in the future The essays offer analyses and reflections from emerging scholars of religion and ecology each addressing her or his own specialty in light of two questions 1 What have we inherited from the work that has come before us and 2 What inquiries concerns and conversation partners should be central to the next generation of scholarship The aim of this volume is not to lay out a single and clear path forward for the field Rather the authors critically reflect on the field from within outline some of the major issues we face in the academy and offer perspectives that will nurture continued dialogue
