Religion And Human Rights Competing Claims:

Religion and Human Rights Peter Juviler, Carrie Gustafson, 2016-07-01 Much has been written about the issue of religious freedom and church state relations The contributors to this book however take up another side of the question what has been the impact of religion on human rights Representatives from various religious traditions address a broad range of topics from environmental rights to the basic validation of human rights to the rights of women in India and Iran and within Orthodox Judaism to the global imposition of criminal justice to pressures for democratization within the Catholic Church in Latin America The six major essays along with their accompanying replies answer questions and raise issues in a provocative and compelling debate

Essays on Religion and Human Rights David Little, 2015-03-26 This collection of essays by David Little addresses human rights in relation to the historical settings in which its language was drafted and adopted Featuring five original essays Little articulates his view that fascist practices before and during World War II vivified the wrongfulness of deliberately inflicting severe pain injury and destruction for self serving purposes and that the human rights corpus developed in response was designed to outlaw all practices of arbitrary force He contends that while there must be an accountable human rights standard it should guarantee latitude for the expression and practice of beliefs consistent with outlawing arbitrary force Little details the theoretical grounds of the relationship between religion and human rights and concludes with essays on US policy and the restraint of force in regard to terrorism With a foreword by John Kelsay this book is a capstone of the work of this influential writer on religion philosophy and law

Islam and the Challenge of Human Rights Abdulaziz Sachedina, 2009-11-05 In 1948 the General Assembly of the United Nations adopted and proclaimed the International Declaration of Human Rights a document designed to hold both individuals and nations accountable for their treatment of fellow human beings regardless of religious or cultural affiliations Since then the compatibility of Islam and human rights has emerged as a particularly thorny issue of international concern and has been addressed by Muslim rulers conservatives and extremists as well as Western analysts and policymakers all have commonly agreed that Islamic theology and human rights cannot coexist Abdulaziz Sachedina rejects this informal consensus arguing instead for the essential compatibility of Islam and human rights He offers a balanced and incisive critique of Western experts who have ignored or underplayed the importance of religion to the development of human rights contending that any theory of universal rights necessarily emerges out of particular cultural contexts At the same time he re examines the juridical and theological traditions that form the basis of conservative Muslim objections to human rights arguing that Islam like any culture is open to development and change Finally and most importantly Sachedina articulates a fresh position that argues for a correspondence between Islam and secular notions of human rights

Public Theology in Law and Life Paul Babie, Brian Edgar, David Wilson, 2012-08-30 Public theology involves the application of biblical and theological principles outside the confines of the church and assesses their implications for wider society It examines both the theoretical structures of society the nature of secularity government globalisation pluralism and so forth and the myriad

specific issues involved in daily life everything from sport to work place relations to economics Public theology is also very importantly a discipline that is practiced by the ordinary Christian as well as the academic and it is done in public with all the scrutiny that entails and in such a way that it communicates to non Christians although it remains a theological endeavour In a real sense it is theology for the world from the Word by the people of God The volume has a variety of contributors and includes an article on the role of public theology in Islam *Freedom of Religion* Paul M. Taylor, 2006-01-12 A critique of the treatment of the right to freedom of religion within the UN and Europe first published in 2005 The World's Religions after September 11 Arvind Sharma, 2008-11-30 This set is an unprecedented examination of religion s influence on modern life an honest assessment of how religion can either destroy us or preserve us and a thorough exploration of what steps might be necessary for all religions to join together as a force for good Convening on the fifth anniversary of the terrorist attack on the World Trade Center the global congress The World s Religions after September 11 explored the negative and positive possibilities of the religious dimensions of life The presentations from the congress have been pulled together in this set which addresses religion s intersection with human rights spirituality science healing the media international diplomacy globalization war and peace and more This comprehensive set includes contributions from such well known scholars of religion as Arvind Sharma and a host of others from all the world s religious traditions This set is an unprecedented examination of religion s influence on modern life an honest assessment of how religion can either destroy us or preserve us and a thorough exploration of what steps might be necessary for all religions to join together as a force for good Because of the attack on the World Trade Center on September 11 2001 the very concept of religion underwent a paradigm shift Instead of standing for virtue and piety peace and harmony the word religion also came to be inextricably associated with evil aggression and terror People around the world began to question whether the religious and secular dimensions of modern life can be reconciled whether the different religions of the world can ever coexist in harmony Indeed the very future of religion itself has sometimes seemed to be uncertain or at least suspect The Challenge of Religious Discrimination at the Dawn of the New Millennium Nazila Ghanea-Hercock, 2013-11-11 The themes and issues explored in this book religion human rights politics and society could not be more relevant to the post 11 September 2001 world They lie at the heart of global political debate today The collection explores these issues after the passing of just over two decades from the adoption of the United Nations Declaration on the Elimination of all Forms of Intolerance and Discrimination based on Religion or Belief That declaration set out minimum international standards for the elimination of such discrimination Sadly the challenge of intolerance on the basis of religion or belief continues to plague us and tackling it seems to have become increasingly entrenched The complexity of this phenomenon requires expertise from different quarters This collection draws from diplomatic activist and theological quarters and benefits from the analysis of scholars of law history religious studies and sociology The ten chapters of this collection examine the relationship between human rights law and religion offer a

Civil Religion, Human Rights and International Relations Helle Porsdam, 2012-01-01 This groundbreaking book discusses whether human rights can be forged into a common set of transcendent principles against which actions of every nation can be judged and whether such a common understanding or civil religion could one day become a vehicle for global peace Eminent international scholars of history political science international relations human rights and civil religion argue both sides of this debate In Part One the theoretical issues relating to why human rights have come about and whether they should be fought for are discussed Part Two focuses on the reality of actions brought about by human rights ideas with illuminating case studies showing that human rights ideas and practice are generated from both the bottom up and top down by individual actors and institutions The unique book will be of great interest to scholars in the field of history human rights international relations and political science in general

Gender and Justice in Multicultural Liberal States Monique Deveaux, 2006-11-30 Gender and Justice in Multicultural Liberal States explores the challenges that culturally plural liberal states face when they hold competing political commitments to cultural rights and sexual equality and advances an argument for resolving such dilemmas through democratic dialogue and negotiation Exploring recent examples of gendered cultural conflicts in South Africa Canada and Britain this book shows that there is an urgent need for workable strategies to mediate the antagonisms between the cultural practices and arrangements of certain ethno cultural and religious groups and the norms and constitutional rights endorsed by liberal states Yet such strategies will be successful only insofar as they can resolve conflicts without either reinforcing women s subordination within cultural communities or unjustly dismissing calls for cultural recognition and forms of self governance To this end the book develops an approach to mediating cultural tensions that takes seriously the demands of justice by cultural and religious minorities in liberal democratic states Grounded in an argument for democratic legitimacy this approach invokes norms of political inclusion and democratic dialogue and highlights negotiation and compromise as the best vehicles for arriving at resolutions to conflicts of cultural value However it also reconceives the basis of democratic legitimacy so as to include not merely formal expressions of political consent but also a range of non formal democratic activity that occur in the private and social spheres from acts of cultural reinvention and subversion to outright expressions of dissent and cultural refusal

Freedom of Religion Under Bills of Rights Paul Babie, Neville Rochow, 2012 The Australian Constitution contains no guarantee of freedom of religion or freedom of conscience Indeed it contains very few provisions dealing with rights in essence it is a Constitution that confines itself mainly to prescribing a framework for federal government setting out the various powers of government and limiting them as between federal and state governments and the three branches of government without attempting to define the rights of citizens except in minor respects Whether Australia should have a national bill of rights has been a controversial issue for quite some time This is despite the fact that Australia has acceded to the ICCPR as well as the First Optional Protocol to the ICCPR thereby accepting an international obligation to bring Australian law into line with the ICCPR an obligation that Australia has not discharged Australia is the only country in the Western world without a national bill of rights 4 The chapters that follow in this book debate the situation in Australia and in various other Western jurisdictions From Foreword by The Hon Sir Anthony Mason AC KBE Human Rights and Courts

Muslims and Global Justice
 Abdullahi Ahmed An-Na'im, 2011-06-06
 Over the course of his distinguished career, legal scholar Abdullahi Ahmed An-Na'im has sought to reconcile his identity as a Muslim with his commitment to universal human rights. In *Muslims and Global Justice*, he advances the theme of global justice from an Islamic perspective, critically examining the role that Muslims must play in the development of a pragmatic rights-based framework for justice. An-Na'im opens this collection of essays with a chapter on Islamic ambivalence toward political violence, showing how Muslims began grappling with this problem long before the 9/11 attacks. Other essays highlight the need to improve the cultural legitimacy of human rights in the Muslim world. As An-Na'im argues, in order for a commitment to human rights to become truly universal, we must learn to accommodate a range of different reasons for belief in those rights. In addition, the author contends, building an effective human rights framework for global justice requires that we move toward a people-centered approach to rights. Such an approach would value foremost empowering local actors as a way of negotiating the paradox of a human rights system that relies on self-regulation by the state. Encompassing over two decades of An-Na'im's work on these critical issues, *Muslims and Global Justice* provides a valuable theoretical approach to the challenge of realizing global justice in a world of profound religious and cultural difference.

Christian Faith, Philosophy & International Relations, 2019-10-29
 International relations are in constant turbulence. Globalisation, the rise and fall of superpowers, the fragilisation of the EU, trade wars, real wars, terrorism, persecution, new nationalism, and identity politics, climate change are just a few of the recent disturbing developments. How can international issues be understood and addressed from a Christian faith perspective? In this book, answers are presented from various Christian traditions: Neo-Calvinism, Catholic social teaching, critical theory, and Christian realism. The volume offers fundamental theological and Christian philosophical perspectives on international relations and global challenges, case studies about inspiring Christian leaders such as Robert Schuman, Dag Hammarskjöld, Abraham Kuyper, and prophetic critiques of supranational issues.
