## **Religion And Power:**

*Religion and Power in Europe* Joaquim Carvalho, 2007      **Religion, Power, and Resistance** Anna Halaf, Sam Han, Caroline Starkey, James Spickard, 2020 This volume explores the intersections of religion power and resistance in a fast changing world The authors herein seek to disrupt the sociology of religion s dominant paradigms especially its overemphasis in Europe and the United States as well as its preference for official religions as opposed to diverse worldviews in all of their manifestations from around the world Africa Asia Australia Europe the Middle East and North and South America The papers in this volume explore ways of decentering the Global North and of decolonizing the sociology of religion s core concepts They explore strategies used by newer and popular forms of religion to challenge existing power structures Moreover they examine the intersectionalities that privilege some people s religious lives and disprivilege others They show how religion spirituality and non religion are much more complex than the dominant paradigms have led us to believe This volume seeks to generate robust discussion and critical reflection on new ideas for a divided world thus contributing to the advancement of the discipline of religious sociology      **Religion, Power and Violence** Ram Puniyani, 2005-07-21 In Indian context      **Religion, Power, and the Rise of Shinto in Early Modern Japan** Stefan Köck, Brigitte Pickl-Kolaczia, Bernhard Scheid, 2021-04-08 This book sheds new light on the relationship between religion and state in early modern Japan and demonstrates the growing awareness of Shinto in both the political and the intellectual elite of Tokugawa Japan even though Buddhism remained the privileged means of stately religious control The first part analyses how the Tokugawa government aimed to control the populace via Buddhism and at the same time submitted Buddhism to the sacralization of the Tokugawa dynasty The second part focuses on the religious protests throughout the entire period with chapters on the suppression of Christians heterodox Buddhist sects and unwanted folk practitioners The third part tackles the question of why early Tokugawa Confucianism was particularly interested in Shinto as an alternative to Buddhism and what Shinto actually meant from a Confucian stance The final part of the book explores attempts to curtail the institutional power of Buddhism by reforming Shinto shrines an important step in the so called Shintoization of shrines including the development of a self contained Shinto clergy      Religion, Power, Politics Konrad Raiser, 2013 The expectations that economic leaders and politicians have of religions and their leaders as guardians of the moral and ethical traditions of humanity and of their ability to mediate in the current situations of conflict requires religions and not least Christian churches to engage in critical self reflection about their action in the public space Konrad Raiser Religion pervades today s headlines yet not always in a positive way Is there a positive role for religion in the future Focusing on the global picture and on all religions not the least Christianity in this book author Konrad Raiser closely probes the relationship between religion and politics in all its rich promising and sometimes deadly combinations As a Christian theologian with decades of international and interreligious experience Raiser s enlightening book wrestles with the most contentious questions posed by

the ambiguous status of religion in a post secular world the advent of a global economic order that leaves whole regions behind the rise of fundamentalism in religious traditions religion and violence religiously motivated terrorism Anchored in fundamental considerations about how religion and politics relate to each other in both practice and in theory Raiser searches for a positive cultural role for religion in today s emerging global culture and in the path to peace and justice

*Faith and Power* Felipe Hinojosa, Maggie Elmore, Sergio M. González, 2022-02-22 Illuminates how religion has shaped Latino politics and community building Too often religious politics are considered peripheral to social movements not central to them *Faith and Power Latino Religious Politics Since 1945* seeks to correct this misinterpretation focusing on the post World War II era It shows that the religious politics of this period were central to secular community building and resistance efforts The volume traces the interplay between Latino religions and a variety of pivotal movements from the farm worker movement to the sanctuary movement offering breadth and nuance to this history This illuminates how broader currents involving immigration refugee policies de industrialization the rise of the religious left and right and the Chicana o immigrant and Puerto Rican civil rights movements helped to give rise to political engagement among Latino religious actors By addressing both the influence of these larger trends on religious movements and how the religious movements in turn helped to shape larger political currents the volume offers a compelling look at the twentieth century struggle for justice

*The Power of Religion* Amanda Porterfield, 1998 Genuinely accessible to undergraduates and general readers it shows how various forms of these traditions are lived out in practice experience and community presenting religions as conceivable ways of living and demonstrating how religious beliefs are integrally related to other aspects of life Many chapters open with a description of a particular religious event or act that one might encounter today in the United States where virtually all of the world s religions are now being practiced The author discusses several of the historical developments each religion has undergone and considers how each of the religions has changed in response to the climate of religious exchange and religious pluralism that exists in the United States today

*The Power of Religion / Religion and Power* Herman J. Selderhuis, 2023-06-06 How does the powerful effect that religion has on public and personal life relate to the various spheres of our culture Is the relationship between power and religion always negative or can religion also affect individuals and societies positively This volume of the EuARE Lectures edited by Herman Selderhuis collects the texts of the lectures delivered at the Third Annual Conference of the European Academy of Religion 2020 on the topic *The Power of Religion Religion and Power* Scott Appleby explores the connection in the religious imagination among glorifying the divine sanctifying the mundane and exercising political and cultural power Cyril Hovorun addresses the issue of the politicization of religion focusing in particular on Eastern Christian cases Susanne Schr ter offers an insight into the current debate on Islam in Germany Finally Kristina Stoeckl analyses the complex relationship among Europe s new religious conflicts Russian orthodoxy American Christian conservatives and the emergence of a European populist right wing

*The Form and Power*

of Religion Laura Bartels Felleman,2012-10-24 In Thoughts Upon Methodism John Wesley shared his hopes and fears for the future of his religious movement The article contains this well known passage I am not afraid that the people called Methodists should ever cease to exist either in Europe or America But I am afraid lest they should only exist as a dead sect having the form of religion without the power And this undoubtedly will be the case unless they hold fast both the doctrine spirit and discipline with which they first set out The Form and Power of Religion unpacks this statement by explaining what Wesley meant by the form and power of religion identifying what Methodist Doctrine Spirit and Discipline were according to Wesley and discussing how these aspects of Methodism worked together to maintain the vitality of the Revival The book concludes with an evaluation of Wesley s theory of Methodist Vitality and discusses its viability as a basis for contemporary Church Vitality programs

Faith, Politics, and Power Rebecca Sager,2010-01-15 During the 2000 presidential campaign George W Bush made faith based social services one of the centerpieces of his domestic agenda These faith based initiatives supporters argued would reduce poverty ease the strain on an overburdened welfare system and prove more effective than government programs Opponents feared rampant proselytizing with government funds Instead these practices created a system in which neither the greatest hopes of its supporters nor the greatest fears of its opponents have been realized The product of five years of in depth research Rebecca Sager s Faith Politics and Power offers a systematic examination of where and how these programs were implemented arguing that faith based initiatives strayed from supporters original aim of helping the poor and instead were used as tools to gain political power by the Republican Party and the conservative evangelical movement

*Faith, Power, and Responsibility* Lancar Ida-Bagus,2024-08-24 The non religious Vishnuh Society offers a unique perspective on faith power and politics It is critical of these concepts and offers an alternative view that differs from traditional religious and political structures The Society emphasizes the importance of self determination individual freedom and critical thinking Faith The Vishnuh Society views faith as the blind acceptance of religious dogmas that keep humanity backward and stupid It promotes a spiritual practice based on cruelty ruthlessness injustice war and genocide which encourages various forms of human rights violations Power In the context of the Vishnuh Society power is viewed as something that must not be abused Instead power should be used responsibly to promote the well being of all The Society rejects authoritarian structures and emphasizes the importance of transparency responsibility and ethical action Politics Politically the Vishnuh Society takes a stance of independence and critical thinking

**Political Power and Communications in Indonesia** Karl D. Jackson,Lucian W. Pye,1978-01-01

**Religion and Power** Professor David Martin,2014-08-28 In this book David Martin argues against Juergen Habermas that religion and politics share a common mythic basis and that it is misleading to contrast the rationality of politics with the irrationality of religion In contrast to Richard Dawkins and New Atheists generally Martin argues that the approach taken is brazenly unscientific and that the proclivity to violence is a shared feature of religion nationalism and political ideology alike rooted in the demands of power

and social solidarity      **Possession, Power and the New Age** Matthew Wood, 2016-04-08 This book provides a new sociological account of contemporary religious phenomena such as channelling holistic healing meditation and divination which are usually classed as part of a New Age Movement Drawing on his extensive ethnography carried out in the UK alongside comparative studies in America and Europe Matthew Wood criticises the view that such phenomena represent spirituality in which self authority is paramount Instead he emphasises the role of social authority and the centrality of spirit possession linking these to participants class positions and experiences of secularisation Informed by sociological and anthropological approaches to social power and practice especially the work of Pierre Bourdieu and Michel Foucault Wood's study explores what he calls the nonformative regions of the religious field and charts similarities and differences with pagan spiritualist and Theosophical traditions      *Religion's Power* Robert Wuthnow, 2023 In 1903 a representative from the Salvation Army's headquarters in London traveled to Canada to explore the possibility of relocating Britain's poor overseas Over the next three decades a quarter of a million people were shipped to destinations in Canada Australia and Africa More than a hundred thousand of those deported were children abandoned orphaned and otherwise separated from their natural parents Dozens of religious organizations took part in the effort the Catholic Emigration Association Church of England Society for Empire Settlement Church of Scotland Inter Church Immigration Committee Jewish Immigrant Aid Society Methodist Church Presbyterian Church Society of Friends St Vincent de Paul and the United Church of Canada among others The practice resumed on a smaller scale after World War II and continued until 1970 The agencies involved described their activities in the language of salvation moral uplift and service to God Carrying off the children of distress to the lands beyond the sea one of the organizers wrote was a service to religion humanity and civilization      *Religion and Political Power* Gustavo Benavides, M. W. Daly, 1989-01-01 This book explores the interaction between two of the most charged topics in the modern world religion and politics It shows the inextricable connection between religious attitudes and representations and political activities After an introductory chapter explores theoretically the religious articulations of political power the authors examine the role played by religion in the current political situation in several countries Approaching these cases as anthropologists historians sociologists and political scientists the authors make visible the dialectical relationship between religion and the pursuit of political power on the one hand the political significance of religious choices and on the other the almost unavoidable need to articulate in religious terms a group's attempt to acquire maintain or expand political power

**Religion, Power, and Society in Suriname and Guyana** R. Kirtie Algoe, 2022-05-30 This book surveys the development of the religious landscape in Suriname and Guyana focusing on the interaction between Hindus Muslims and Christians and responses to Christian dominance It reflects on how and why these religiously diverse Caribbean societies are characterized by relative harmony whereas interreligious relationships in other parts of the world have been marked by extreme conflict and violence The chapters explore ideological and institutional dimensions including the role of government

policies religious demography religious leadership and private religious institutions The author takes a critical stance towards a negative approach to power struggles and offers a perspective that does not necessarily consider religious diversity a hindrance for religious harmony Making valuable data accessible to scholars in the English language this volume provides a framework for the study of interreligious relations and for understanding the religious worlds of the Caribbean

*A Treatise On The Limitations Of Police Power In The United States* Christopher G. Tiedeman,1886      **The Primitive mind-cure. The nature and power of faith, or, Elementary lessons in Christian philosophy and transcendental medicine** Warren Felt Evans,1885      Freedom and Law Randi Rashkover,2011 By contrast *Freedom and Law* argues that only in an account of revelatory law can divine freedom and human freedom be thought of without contradiction The first part analyzes the logic of exceptionalism In the second part the author argues that one cannot invoke a doctrine of election without rigorous scrutiny of texts that portray an electing God and an elected people Once we scrutinize these texts the character of freedom and law within the divine human relationship shows itself to be different from that found in exceptionalist logics The third and final part examines the impact of the logic of the law on Jewish Christian apologetics Rather than require that one defend one s position to a nonbeliever this logic situates all epistemological justification within the order or freedom of God
