 Educational Biographer** Gerald L. Gutek, 2024-09-01 In his interdisciplinary memoir Gerald Gutek applies history and
 philosophy of education to educational biography The author was guided by his focusing goals of exploring his path to
 becoming an educational biographer and working generalizations with his colleagues in the field Gutek s narrative begins
 with the author s childhood experiences that inclined him to a career in education followed by chapters on his doctoral
 program in the College of Education at the University of Illinois in Champaign Urbana his teaching of history and philosophy
 and education in the School of Education at Loyola University Chicago his research and writing of biographies of Johann
 Heinrich Pestalozzi and Joseph Neef and his textbook *Historical and Philosophical Foundations of Education* a Biographical
 Introduction and issues and strategies in writing about Maria Montessori Throughout the book Gutek analyzes concepts and
 applications he developed as an educational biographer such as parallel biographies slice of life writing reconsidering
 overlooked and understudied educators and the role of place and space in telling life stories ENDORSEMENTS Readers both
 new to educational biography or familiar with the discipline will find a valuable account of the author s long and varied
 career as a biographer From his childhood memory of listening to neighbors stories in his grandfather s grocery store to
 encounters with the important teachers in his life Gutek brings his own story to life As he recounts the influences on his
 personal intellectual history and the processes of his research and writing readers gain valuable insights into the methods of
 an experienced educational biographer Larry Prochner University of Alberta For fifty years Gerald Gutek has been and
 remains one of the seminal and leading voices in the field of educational biography thus it only makes sense for him to create
 something new an intellectual memoir From his work on *Counts* in 1970 to his work on *Montessori* 2016 and her acolytes in
 the US 2020 Gutek has reliably bridged the worlds of educational history educational biography and philosophical
 foundations of education this work cements his legacy Gutek skillfully interweaves personal and family history with
 movements in educational history both formal and informal then explains how these impacted his thinking and writing
 Throughout this eminently readable memoir Gutek also includes political and historical context without engaging in

divisiveness Scholars of life writing should give this a close reading as Gutek sprinkles nuggets of methodological brilliance throughout the manuscript Junior scholars would do well to read Gutek s more substantive sections on the methods used to write each of his books it is the academic equivalent of Master Class in textual form Ed Janak University of Toledo
