Restless Seas History Nerds, For centuries a fire swept through Europe It raged on and on putting nations and kingdoms at its mercy and that fire came from the North Due to a series of socio political triggers the Vikings emerged from their northern homes in Scandinavia and swept all across the realms of Europe south east west and north Mastering the navigation of the oceans and dominating the riverways these vicious Northmen embarked upon their swift longships and introduced an entirely new chapter of Europe s history Merciless in war and cunning in trade they found their place in faraway nations From Ireland Iceland Scotland and Greenland down to the Iberian Peninsula and into France North Africa and the distant lands in the east the Northmen left their mark Sailing Directions for the English Channel Great Britain. B. Yeats Peter McDonald, 2020-08-18 In this multi volume edition the poetry of W B Yeats 1865 1939 is presented in full with newly established texts and detailed wide ranging commentary Yeats began to write verse in the nineteenth century and over time his own arrangements of poems repeatedly revised and rearranged both texts and canon This edition of Yeats s poetry presents all his verse both published and unpublished including a generous selection of textual variants from the many manuscript and printed sources The edition also supplies the most extensive commentary on Yeats s poetry to date explaining specific references and setting poems in their contexts it also gives an account of the vast range of both literary and historical influences at work on the verse The poems are presented in order of composition and major revisions or rewritings of poems result in separate inclusions in chronological sequence for these writings as they were subsequently reconceived by the poet In this second volume the poems of Yeats s early maturity emerge in the contexts of his engagement with Irish

history and myth along with nationalist politics his increasing involvement with ritual magic and esoteric lore and his turbulent often unhappy personal life The poems of The Countess Kathleen and Various Legends and Lyrics 1892 reveal a poet of intense narrative power and metaphorical resource adept at transforming miscellaneous sources into haunting and original poems A major revision of his earlier narrative The Wanderings of Oisín takes place in this decade when Yeats is also taken up with the composition of elaborate and uncanny symbolic lyrics many of them resulting from his love for Maud Gonne that are finally collected in The Wind Among the Reeds 1899 This edition makes it possible to trace in detail Yeats's debts to folklore and magic alongside his involved and often difficult private and public life in poetry of exceptional complexity and power
