History, Fiction, and Germany Brent Orlyn Peterson,2005 A study of the content development and transmission of German identity during the nineteenth century as Germany s national narrative took shape in historical fiction and in both popular and academic history The German speaking inhabitants of central Europe did not automatically think of themselves as Germans not before 1871 and not always after unification In fact they spoke mutually incomprehensible dialects owed allegiance to different leaders worshiped in different churches and would not have recognized each other s customs If asked about their identity these prospective Germans might have answered Austrian Bavarian or Prussian and they could as easily have used more local labels or resorted to occupational markers For this disparate population to think of itself as German that word had to acquire content people had to learn a whole set of stories they could tell themselves and to others in answer to the question of identity History Fiction and Germany chronicles how German nationalism developed simultaneously with the historical novel and the field of history both at universities and in middlebrow reading material The book examines Germany s emerging national narrative as nineteenth century writers adapted it to their own visions and to changing circumstances These writers found and popularized the nation s heroes and heroines demonized its villains and enemies and projected the nation s hopes and dreams for the future Author Brent O Peterson argues that it was the production and consumption of national history the writing and reading of the nation that filled Germany with Germans Although the task of national narration was never complete and never produced a single universally accepted version of German national identity tales from Germans gradually shared history did more to create Germany than any statesman general or philosopher History Fiction and Germany provides a valuable resource for scholars and students of German studies as well as anyone interested in history and the articulation of national identity
