Thousands of special events throughout 1988 will celebrate the bicentennial of this beginning and the achievements of Australia: a nation of wide open spaces, outgoing people, and strange, marvelous animals. The bicentennial's theme, "Living Together," honors Australia's diverse ethnic groups, including its first inhabitants, the Aborigines.

## Looking At Australia:

**The Rock: Looking into Australia's 'Heart of Darkness' from the edge of its wild frontier** Aaron Smith  
,2020-12-01 Journalist Aaron Smith's new memoir holds up a unique mirror to Australia. What he sees is at once amazing, disturbing and revealing. The Rock explores the failings of our nation's character, its unresolved past and its uncertain future from the vantage point of its most northerly outpost, Thursday Island. Smith was the last editor, fearless journalist and the paperboy of Australia's most northerly newspaper, the Torres News, a small independent regional tabloid that until it folded in late 2019 was the voice of a predominantly Torres Strait Islander and Aboriginal readership for 63 years across some of the most remote and little understood communities in Australia. The Rock is a story of self-discovery where Smith grapples to understand a national identity marred by its racist underbelly where he is transplanted from his white boy privileged suburban life to being a racial and cultural minority and an outsider. Peppered with his experiences, Smith gradually and sensitively becomes embedded in island life while vividly capturing the endless and often farcical parade of personalities and politicians including Scott Morrison and Tony Abbott. Smith pulls no punches while he reflects on the history of Terra Australis incognita, dissecting what is truly Australia and its gaping cultural and moral divide. A credit to regional journalism, Aaron carried on the fine tradition of the Torres News, holding governments to account and telling stories of everyday life in the Straits, never shying away from controversies, lifting all the rocks and even outfoxing prime minister Tony Abbott on his visit to Mabou's grave. Stefan Armbruster, SBS. Aaron Smith makes a huge and extremely valuable contribution to journalism in Australia. With insight and commitment, he brings issues of national and international significance to audiences in Australia and beyond. Dr Tess Newton Cain, Griffith Asia Institute. Aaron's journalism has provided a rare and valuable insight into issues affecting the Torres Strait Islander community. Navigating cultural protocols and geographical challenges, he has given a voice to some of Australia's most marginalised people and shared important stories that would otherwise have gone unheard. Ella Archibald, Binge. Sydney Morning Herald. **Looking South** Lorne K. Kriwoken, Julia Jabour, Alan D.

Hemmings, 2007. Australia has a long, rich and significant history in Antarctic affairs. Since 1933, Australia has asserted a claim to 42 per cent of the continent as the Australian Antarctic Territory. Australia was an original signatory to the 1959 Antarctic Treaty and has subsequently played an active role in international governance of Antarctica under the Antarctic Treaty System (ATS). Almost half a century after the adoption of the Antarctic Treaty and in the first decade of the 21st century, Antarctica is better known but is still not completely understood to science. It has been designated a natural reserve devoted to peace and science and whilst some matters such as mining have been put on hold, other issues present both continuing and new challenges. These challenges include the implications for Antarctica of global climate change and indeed the continent's role in the generation of the world's weather, the environmental, political and ethical implications of increasing human activity in the region and the goals of maintaining or developing the most appropriate governance mechanisms given the complex

legal circumstances There had been no contemporary analysis of Australia's involvement in Antarctic matters until 1984 when Australia's Antarctic Policy Options edited by Professor Stuart Harris brought together a diverse and intellectually powerful array of Australians focussed on Antarctic law policy and the social sciences This volume provided a benchmark by which to measure the tenor of Australia's Antarctic agenda and as such has been of great assistance to the development of Looking South Consequently 20 years on Looking South explores how the issues identified have developed what significant new issues have emerged and how Antarctica is placed in the current political Australian agenda
