Steve Halpern, 2024-09-05 Today millions of people from around the world are questioning the basic values we were raised with This is a book of 48 poems that attempt to connect our past with contemporary reality Looking at the world as we know it today these poems question the definitions of words we routinely use Some of these words are freedom what it means to be normal a success legal legitimate or what the words status quo value or civilization mean Some of these poems look at history from the viewpoint of historical biographies Those biographies are about the lives of Spartacus Toussaint Louverture Tecumseh Geronimo Frederick Douglass Antonio Maceo Eugene Debs Mother Jones Celia Sanchez Ernesto Che Guevara Vladimir Ilyich Lenin Celia Sanchez Malcolm X Ida Wells and Frantz Fanon There are also poems about how women are central to the liberation of humanity as well as a few sports stories By looking at our reality from this perspective these poems imagine how the future might be profoundly better than the reality we are living with today *Lament for America*

Earl H. Fry, 2010-05-01 *Lament for America* explores the major challenges to the status of the United States as a world superpower In delving into the fundamental question of whether or not a relative decline is inevitable the author recognizes that the changes faced over the next few decades will be more rapid and transformational than at any other period in American history *Lament for America* offers concrete recommendations for renewal in areas such as defense policy health care education and the environment and serves as a useful guide to understanding how decisions will shape both the U S and global landscapes *Reel Women* Jane Sloan, 2007-03-26 In the last several decades the number of films featuring female protagonists has increased significantly Many of these films reflect the vast cultural and sociological changes that have taken place since the early 1960s highlighting not only a wide spectrum of female characters depicted onscreen but the creative work of women behind the camera as well In *Reel Women* An International Directory of Contemporary Feature Films about Women media librarian Jane Sloan has assembled an impressive list of more than 2400 films _from nearly 100 countries_ that feature female protagonists Each entry includes a brief description of the film and cites key artistic personnel particularly female directors producers and screenwriters involved in its production *Reel Women* also contains a critical survey in which Sloan charts the changes women have undergone both on screen and off as moviemaking and audience sensibilities have evolved in the last forty plus years Listing many more films on the subject of women than can be found in any other source this reference brings together important titles from area studies and genre markets along with titles associated with women s cinema and feminist film In addition to title and actor indexes the book contains a subject index that provides detailed access to place names historical characters time periods and storylines as well as the backgrounds _religious racial and

D. Gann,2016-03-28 W D Gann's justly famous work on the trading of commodities I am writing this book to supply a universal demand and give rules that will forecast the trend of commodities Conditions have changed rapidly during the last few years and will change more rapidly after this great war is over than ever before in history Men will return to the soil of Mother Nature to make a living Investors and speculators will have to look for new ways to make money in the future and will find it more difficult in the stock market therefore the necessities of life the basic commodities will offer greater opportunities than investments in stocks and bonds providing the trader knows the rules to follow My object is to write something that will be helpful to people in trade lines and to those who have long years of experience in the commodity market as well as the inexperienced trader who wants knowledge and needs to learn the ways to start right and to protect his capital and make profits Life affords no greater pleasure than that of helping others who are trying to help themselves I am going to give the best of my forty years of experience in this book and I hope to show others the way to help themselves and follow mathematical rules in the commodity market which will result in profits I do not believe in gambling or reckless speculation but am firmly convinced

after years of experience that if traders will follow rules and trade on definite indications that speculation can be made a profitable profession Trading in commodities is not a gambling business as some people think but a practical safe business when conducted on business principles I offer this book to the public with a sincere conviction that if they put in the time studying they will derive great benefits **Pillar of Fire** ,1920 **Popular Photography** ,1985-01
