and Asian Studies      **Globalizing Japan** Ross E. Mouer, 2015 The Japanese people are again struggling with their nation's insularity. The Meiji Restoration and the end of the Asia Pacific War gave way to concerted efforts to connect the country with the outside world. As the Japanese economy emerged from two decades of stagnant growth, there was wide consensus that the society was increasingly grappling with the problems shared globally and that both its economy and internal policy debates would benefit from being more fully engaged in discourses and research activity occurring outside its borders. This book considers the efforts of policy makers to reorient Japan to the outside world as the nation enters the second decade of the 21st century. It discusses the strategies being pursued by Japan's policy makers: enhancing the involvement of the Japanese in global networks, improving English language skills, hiring more foreign labor, lifting the stature of tertiary education on internationally recognized league tables, creating favorable images of a Japanese cultured society abroad. The book considers the changing geopolitical landscape and the social backdrop against which such policies are being introduced, while also assessing the prospects that the Japanese will experience a third opening any time soon. Overall, the volume provides insight into some of the critical choices likely to shape Japan's interface with the outside world and the direction in which Japanese society moves during the next decade. **The Modern Family in Japan** Chizuko Ueno, 2009 This award-winning book brings together Chizuko Ueno's groundbreaking essays on the rise and fall of the modern family in Japan. Combining historical, sociological, anthropological, and journalistic methodologies, Ueno—who is arguably the foremost feminist theoretician in Japan—delineates in vivid detail how the family has been changing in form and function in the last hundred years. In each chapter, Ueno introduces the reader to a different facet of modern Japanese family life, ranging from children who fantasize about being orphans to the elderly who confront pre-senescence. The central focus is on the housewife, her history, her ever-changing responsibilities, her ways of surviving mid-life crisis. This is an indispensable book for students and scholars seeking to understand modern Japan.      **In**

**Pursuit of the Seikatsusha** 斎藤幸夫, 2011 This is a study of Japan's home-grown concept of seikatsusha that resembles citizen, people, consumer, common man, and the public, though not exactly identical with any of them. The idea has occupied an important place in Japanese everyday life, academia, and progressive movements. This book presents an extensive genealogy of the concept of seikatsusha from the beginning of the 20th century to the present day. While examining the philosophy of such thinkers as Kiyoshi Miki, Nobuyuki Onuma, and Shunsuke Tsurumi, the book scrutinizes the debate over seikatsusha, which has been undertaken by a variety of political and intellectual movements, including Shiso no Kagaku (Science of Thought), Beheiren (Citizens for Peace in Vietnam), and the Seikatsu Club. The book points to the viability of the idea of seikatsusha in a sustainable welfare society in the 21st century and is the first in English to fully investigate the concept within Japan's historical and structural context.      **The SAGE Handbook of Social Anthropology** Richard Fardon, Oliva Harris, Trevor H. Edited by the leading figures in social anthropology, the Handbook includes a substantive introduction by Richard Fardon, a think piece by Jean and John Comaroff, and a concluding last word on futures by Marilyn Strathern. The authors, each at the leading edge of the discipline, contribute in depth chapters on both the foundational ideas and the latest research.
