recalling the stories they reported on and the people they worked with from the late forties to the paper's end. The result is a nostalgic and justifiably admiring look back at a publication known for its progressive stance in a conservative Southern state: a newspaper that after winning two Pulitzers for its brave rule of law stance during the Little Rock Central High Crisis was considered one of the country's greatest. The interviews collected from archives at the David and Barbara Pryor Center for Arkansas Oral and Visual History at the University of Arkansas provide fascinating details on renowned editors and reporters such as Harry Ashmore, Orville Henry, and Charles Portis; journalists who wrote daily on Arkansas's always colorful politicians; its tragic disasters and sensational crimes; its civil rights crises; Bill Clinton; the Razorbacks sports teams; and much more. Full of humor and little-known details, *Looking Back at the Arkansas Gazette* is a fascinating remembrance of a great newspaper.

Toward European Economic Recovery in the 1980s Michel Albert, Robert James Ball, 1984 **American Book Publishing Record**, 1984 **Public Administration Evolving** Mary E. Guy, Marilyn M. Rubin, 2015-03-02

Public Administration Evolving From Foundations to the Future demonstrates how the theory and practice of public administration has evolved since the early decades of the twentieth century. Each chapter approaches the field from a unique perspective and describes the seminal events that have been influential in shaping its evolution. This book presents major trends in theory and practice in the field, provides an overview of its intellectual development, and demonstrates how it has professionalized. The range from modernism to metamodernism is reflected from the perspective of accomplished scholars in the field, each of whom captures the history, environment, and development of a particular dimension of public administration. Taken together, the chapters leave us with an understanding of where we are today and a grounding for forecasting the future.
