Deeper Into Pictures Flint Schier, 1986-10-09 This book presents an original theory of the nature of pictorial representation The most influential recent theory of depiction put forward by Nelson Goodman holds that the relation between depictions and what they represent is entirely conventional Flint Schier argues to the contrary that depiction involves resemblance to the things depicted providing a sophisticated defence of our basic intuitions on the subject Canvassing an attractive theory of generativity rather than resemblance Dr Schier provides a detailed account of depiction showing how it illuminates and resolves many of the enigmas of pictorial representation while remaining true to our basic intuitions on the subject Philosophers psychologists and art theorists will find this a sophisticated and stimulating treatment of one of the central topics in aesthetics

The Collected Essays and Criticism, Volume 2 Clement Greenberg, 2008-04-09 Clement Greenberg 1909-1994 champion of abstract expressionism and modernism of Pollock, Miró, and Matisse has been esteemed by many as the greatest art critic of the second half of the twentieth century and possibly the greatest art critic of all time. On radio and in print, Greenberg was the voice of the new American painting and a central figure in the postwar cultural history of the United States. Greenberg first established his reputation writing for the *Partisan Review*, which he joined as an editor in 1940. He became art critic for the *Nation* in 1942 and was associate editor of *Commentary* from 1945 until 1957. His seminal essay *Avant Garde and Kitsch* set the terms for the ongoing debate about the relationship of modern high art to popular culture. Though many of his ideas have been challenged, Greenberg has influenced generations of critics, historians, and artists, and he remains influential to this day.
