Leadership Failure and Nigeria's Fading Hopes Femi Okurounmu, 2010-04-06 Leadership Failure and Nigeria's Fading Hopes is a heart rending lamentation by a patriotic Nigerian elder statesman Femi Okurounmu on how his country through unbridled corruption and the selfishness of successive leaders has dashed the hopes of not just Nigerians but the entire black race and reinforced the prejudices of racists who raise doubts concerning the intellectual capacity of black people The book consists of excerpts from a critical but constructive weekly column Patriotic Punches which the author wrote between 2004 and 2009 in the Nigerian Tribune newspaper It chronicles incidents of corruption in government laments the corruption of the entire society and all its institutions and decries the enthronement of money as the national deity such that its acquisition becomes the surest route to national recognition no matter how it is acquired It bemoans the fact that this conscienceless pursuit of money has eroded all of society's values fostered a culture of corruption and criminality and led to the hijack of governance by a wealthy cabal among them many criminals who have provided a climate of impunity for the most horrendous levels of treasury looting by public officials necessitating repeated rigging of elections to install protective successor leaders The author is particularly distressed that the traditional watchdogs of public morality and probity the judiciary the media religious leaders and institutions and traditional rulers have all become mortally infected by the corruption It calls on the citizenry to take their future into their own hands by shaking off their political lethargy and docility abandoning their excessive and unreasonable fear of death and mobilizing to confront bad governance and to ensure the emergence of a government that will fulfil the nation's early promise and give some credibility to the black man's claim to equality with other races of mankind *Attic World* Sunshine, 2009-08

Daily Graphic Ransford Tetteh, 2014-04-12 *Human Rights in Nigeria's External Relations in the Age of General Muhammadu Buhari and His Successors* Philip C. Aka, 2024-07-17 Under the Fourth Republic since 1999 the challenge Nigerian leaders face like never before is how to create a state that matches the expectations of their diverse peoples at home and abroad Taking this proposition as starting point this book advances proposals for a human right policy referred to alternately in the work as

principled foreign policy for Nigeria under the Fourth Republic taking advantage of the inestimable opportunity afforded by General Muhammadu Buhari's departure from the political scene on May 29 2023 after the famine domestically and externally wrought by his two terms of office as President It is a broad ranging argument draped in the less arcane constitutional vocabulary and material of human rights for thoroughgoing reforms at home and abroad as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century Buhari's departure marks the end of military teleguidance of Nigerian politics under the Fourth Republic in the camouflage of democratic rule a birthmark of remote control dating back to the first military intervention in the country in January 1966 These momentous events within Nigeria coincide with equally epoch making developments in the UK Nigeria's former colonial overlord with ripple effects in Nigeria signified by the death of Queen Elizabeth II after seven decades on the throne and the emergence of Prince Charles as King of England A new monarch in Britain adds to the opportunity that falls open for the reconfiguration of Nigeria's external relations with ramifications for the application of human rights in those relations Despite its known disabilities Nigeria has the potential infrastructure including its sizable population to conduct a human right policy if its leaders rationalize the country's resources more wisely

Governance and Economic Growth in Nigeria Saidat Ilo, 2023-10-24

Governance and Economic Growth in Nigeria The Role of China and the U S between 2001 2011 examines why Nigeria experienced steady economic growth in GDP between 2001 2011 Saidat Ilo argues that improved governance as well as the perceived competition between China and the United States has impacted this growth She analyzes this perceived rivalry and their policies closely This book not only contributes to development theories by focusing and analyzing governance but it also goes a step further by filling a gap of contending theories which fail to consider the role governance plays in economic growth and progress particularly in the developing world Through in depth research Saidat Ilo discovers how China and the United States foreign policies influence decisions on foreign aid and trade in Nigeria She shows that there is a direct correlation between good governance and economic growth in Nigeria and provides policy recommendations based on this research

Human Rights in Nigeria's External Relations Philip Aka, 2016-12-20 This book is a broad ranging argument for thorough reforms at home and abroad in Nigeria as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century Because of its enormous material and human endowments Nigeria is dubbed the Giant of Africa It is a moniker many of its leaders take seriously Yet Nigeria is a state rife with instability some of it periodically erupting into violence Given still ongoing national security challenges in the land that notoriously includes a bloody religion oriented terrorism the Fourth Republic since 1999 the longest period of continuous democratic rule since independence key to the timeline of this book has not been insulated from the spell of instability The main argument of this work is that internationally agreed upon ethical standards embedded in human rights can save Nigeria This book is a methodologically and theoretically grounded seminal discourse on Nigerian foreign relations that spells out the human rights

or lack thereof in those relations including underlying and impinging domestic forces This work is set around six issues of application embedded in a temple of Nigeria s human rights foreign policy comprising two steps and four pillars reconstructed national interest increased human rights at home redesigned peacekeeping reshaped foreign policy machinery increased bilateralism in foreign relations and the use of ECOWAS as human rights tool Although focused on the period since independence for proper understanding of events from the past that shape the current patterns of politics in the land this book also embodies a historical background chapter that overviews the pre colonial and colonial eras *The Business Year: Nigeria 2020* Peter Howson, Research for this publication began in the wake of elections that saw the re election of President Muhammadu Buhari who was sworn in on May 2019 The result brought an end to a period of political uncertainty and added new vigor to Africa s largest economy Nevertheless despite this new found stability Nigeria is still struggling to overcome the impact of years of recession not to mention the challenges of the low oil price environment and the effects of COVID 19 mitigation measures This 188 page publication covers finance gas and power oil and exploration industry IT and telecoms transport construction real estate agriculture health entertainment and tourism **An Updated Look at the Recovery of Agricultural Productivity in Sub-Saharan Africa** Alejandro Nin Pratt and Bingxin Yu,
