**Maybe It'll Rain Tomorrow** Marion Houldsworth, 2006 Biographies of people living and working in the Australian outback **Back O' the Hill** John Graham Gibson, 2008 This book is written from the point of view of some scholarship and from the point of view of someone whose historical and ethnographic research work has been done mostly from Judique in Cape Breton The author s imaginative and stimulating blend of personal reminiscence and rigorous research demonstrates that Highland history can almost always be and often best is done from a local starting point It exposes the first struggles from ruralism into industrialism on the fringes of Lochaber and Ardgour and what happened in a depopulated area of Gaelic Scotland for a century from 1840 *Publication* , 1905 *Dairy Bulletin* , 1928 *The Highlanders* James Grant, 2022-01-04 The Highlanders Ronald Stuart is a young Scottish Highlander from Perthshire who joins the Gordon Highlanders as an ensign in 1811 He joins the regiment in Spain soon after and remains with them throughout the Napoleonic Wars The story follows Stuart in the Peninsular War while he goes through many adventures between dangerous campaigns and battles such as rescuing half of the noble ladies of Spain dealing with troublesome prisoners of war and trying to escape from his personal nemesis The Romance of War The Highlanders in France and Belgium is a sequel to the exploits of Ronald Stuart and the Gordon Highlanders as they move from Spain through France and Belgium inevitably ending up in the fields of Waterloo **Fires Within** Ray Thompson, 2010-09-14 Fires Within seeks to explore contemporary life issues

especially the often conflicting inner fires of sexuality and spirituality conflicting not just with each other but also with traditional religious and social attitudes and myths The novel begins where it ends but then goes back to earlier years to trace the circumstances and rapidly changing community attitudes that have combined to bring the individuals in this story to this point in their lives Peter is the central character a minister pastor who struggles with these issues within the conservative and often defensive ethos of the traditional Australian church and particularly in relation to unresolved grief in his own life Len is a doctor facing similar issues within secular society Jay is a Chinese woman who has to work through these same conflicts firstly growing up as the daughter of a missionary doctor in what then became Communist China and later as a reluctant masseuse sex worker in Australia Rather than trying to provide simplistic or moralistic answers to these inner conflicts these characters individually and later through their interaction with one another grapple with their search for personal integrity This frequently means having to stand out against peer group opinion and challenge some of the traditions and myths that often limit their enjoyment of the fullness of life While all characters in the novel are fictitious the unfolding events deliberately reflect the kind of situations and raw emotions that are common in many people's lives In a real world that is far from perfect the choices that they have to make are not simply between good and bad but reflect the multifaceted dilemmas that often confront real people The author attempts to deal with these issues in a non judgemental way hopefully opening the door for readers grappling with similar issues to explore new possibilities in their own lives

**The Origins of Australia's Capital Cities** Pamela Statham, 1989 The Origins of Australia's Capital Cities is a comprehensive survey well illustrated with maps and plans which aims to answer two questions First why Australia's eight capital cities are situated where they are and second how they were established Pairs of chapters on each of the State capitals Sydney Hobart Perth Adelaide Melbourne and Brisbane are accompanied by studies of Canberra as the federal capital and Darwin as a territorial capital A capital is the administrative centre of a political entity and in Australia unlike many overseas countries a uniquely high proportion of the population resides in the capitals Companion chapters examine the causes of initial European settlement in each area and reasons for the actual establishment of each capital city Attention is given to such topics as planning and layout the basis of growth potential rivals the social nature of the cities and the nature of their spread While there have been no other volume covering all the capitals to seek answers to the same basic questions This will therefore be an invaluable source book and provide a stimulus to further enquiry in the social history of Australia An introduction by the editor pulls together the general strands which link the chapters and highlights the ways in which the Australian experience contrasts with the urban experience overseas
