foreign policy agency in the process by which local concerns become intertwined with the dominant state's foreign policy. Plan Colombia was a large scale foreign aid programme through which the US intervened in the internal affairs of Colombia by invitation. It proved to be one of the major successes of US foreign policy and has been credited with stemming a potentially catastrophic security failure of the Colombian state. This book discusses the strategies and practices deployed by the Colombian government to influence US foreign policy decision making at the bureaucratic, legislative and executive levels and is a distinctive contribution to our understanding of the dynamics of small power agency. Giving a clearer insight into the decision making processes in both the US and Colombia, this book founds its argument on solid empirical analysis assembled from interviews of the major players in the events including Andres Pastrana, President of Colombia; Thomas Pickering, US State Department; Arturo Valenzuela, Senior Director for Inter American Affairs at the NSA; General Barry McCaffrey, the US Drug Czar; and Dennis Hastert, Speaker of the US House of Representatives. Approaching the events in question from a bottom up theoretical perspective that puts the emphasis on the facts of the case, this book will be of great interest to academics, students and policy makers in the field of foreign policy analysis, US foreign policy studies and Latin American studies.

The Poorer Nations Vijay Prashad, 2013-07-30. In *The Darker Nations*, Vijay Prashad provided an intellectual history of the Third World and told the story of the rise and fall of the Non Aligned Movement. With *The Poorer Nations*, Prashad takes up the story where he left it. Since the 70s, the countries of the Global South have struggled to express themselves politically. Prashad analyzes the failures of neoliberalism as well as the rise of the BRIC countries, the Group of 12, the World Social Forum, the Latin American revolutionary revival, in short, all the efforts to create alternatives to the neoliberal project advanced militarily by the US and its allies, among whom number the IMF, the World Bank, the WTO and other economic instruments of the powerful. A true global history, *The Poorer Nations* is informed by interviews with leading players such as senior UN officials as well as Prashad's pioneering research into archives of the Julius Nyerere led South Commission.
