Facultad de Filología, A Companion to Mester de Clerecía Poetry, 2024-07-15 Mester de clerecía is the term traditionally used to designate the first generations of learned poetry in medieval Ibero Romance dialects the precursors of modern Castilian and other Romance languages of the Iberian Peninsula In its time this poetry was anything but traditional These long poems of structured verse

reappropriate the heroic past through the retelling of legends from Classical Antiquity saints lives miracle stories Biblical apocrypha and other tales At the same time the poems recast the place of their authors and learned characters within their stories in the shifting dynamics of their thirteenth and fourteenth century present Contributors are Pablo Ancos Maria Cristina Balestrini Fernando Ba os Vallejo Andrew M Beresford Olivier Biaggini Martha M Daas Emily C Francomano Ryan Giles Michelle M Hamilton Anthony John Lappin Clara Pascual Argente Connie L Scarborough Donald W Wood and Carina Zubillaga La Corónica ,1999 Spanish medieval language and literature newsletter varies **In the Doorway of All Worlds** Robin M Bower,2024-05-01 The thirteenth century poet Gonzalo de Berceo is the first named author of Old Spanish letters and the most prolific contributor to the emergence of the body of learned vernacular verse known as the mester de clerecía In the Doorway of All Worlds focuses on the four hagiographies Berceo produced as a unified body of poetic expression and world building Robin M Bower traces the poet's intricate juxtaposition of contraries to shed light on a poetic world that will innovate a deceptively simple poetic vernacular and elevate its capacity to express nuance power and mystery The book examines the entanglements that bind formal and lexical choices the inscription of performance sites and audiences and problematic source authority It argues that Berceo's elaboration of a poetic vernacular was wholly enmeshed in the immediate human experiential world and the diverse cultural religious linguistic and literary contexts that framed it The book also highlights how Berceo invented a literary vernacular that befits the spoken idiom not only for the crafting of learned fictions but for giving linguistic shape to the ineffable In the Doorway of All Worlds ultimately reveals how Berceo freed the meanings trapped in relics shrines and the impenetrable texts from which he translated the saints to circulate in a new time
