Lost Paradise The Jesuit Republic In South America:

The Lost Paradise Philip Caraman,1990 The Lost Paradise Philip Caraman,1975 “*The*” *Lost Paradise* Philip Caraman,1976 Based on a True Story Donald F. Stevens,1998-07-01 Combining history with discussions of dramatic cinema Based on a True Story Latin American History at the Movies examines how film has portrayed Latin America from the late fifteenth century to the present The book opens with an introduction on the visual presentation of the past in the movies while the rest of the book consists of essays that explore the best feature films on Latin America from the professional historian s perspective *The Jesuits in Spanish America in 1767* Robert H. Jackson,Juan Antonio Siller Camacho,2023-01-26 On June 25 1767 royal officials in all Spanish territories including the Americas began the process of expelling the members of the Society of Jesus At the time there were some 2 200 2 400 Jesuits in Spanish America and they staffed urban colegios and frontier missions This book provides an overview of Jesuit institutions at the time of the expulsion order their urban role and the status of frontier missions focusing on the case study of several issues related to the Missions among the Guaran in South America This volume contains a visual catalog of historic maps and historic and contemporary images of selected Jesuit colegios and other urban institutions *Jesuits in Spanish America before the Suppression* Robert H. Jackson,2021-02-22 From the late sixteenth century until their expulsion in 1767 members of the Society of Jesus played an important role in the urban life of Spanish America and as administrators of frontier missions This study examines the organization of the Society of Jesus in Spanish America in large provinces as well as the different urban institutions such as colegios and frontier missions It outlines the spiritual and educational activities in cities The Jesuits supported the royal initiative to evangelize indigenous populations on the frontiers but the outcomes that did not always conform to expectations One reason for this was the effect of diseases such as smallpox on the indigenous populations Finally it examines the 1767 expulsion of the Jesuits from Spanish territories Some died before leaving the Americas or at sea The majority reached Spain and were later shipped to exile in the Papal States **Sacred Dialogues: Christianity and Native Religions in the Colonial Americas 1492-1700** Nicholas Griffiths,2017 A Spanish conquistador who posed as a sorcerer and cured native Americans as he trekked across an unknown wilderness a French Jesuit who conjured rain clouds in order to impress his indigenous flock with the potency of Christian magic a Puritan minister who healed a native chief in order to win him for God a Mexican noble who was burned at the stake for resisting the gentle Franciscan friars an Andean chief who was haunted by nightmares in which his native gods did battle with the Christian Father a Huron magician who vied with French missionaries over spirits of the night in a shaking tent ceremony These are a few of the individuals whose struggles are brought to life in the pages of this book Their experiences among others reveal what happened when Christianity came into contact with Native American religions in three distinct regions of sixteenth and seventeenth century colonial America Spanish French and British *The World Turned Inside Out* Lorenzo Veracini,2021-09-21 A history and theory of settler

colonialism and social control Many would rather change worlds than change the world The settlement of communities in empty lands somewhere else has often been proposed as a solution to growing contradictions While the lands were never empty sometimes these communities failed miserably and sometimes they prospered and grew until they became entire countries Building on a growing body of transnational and interdisciplinary research on the political imaginaries of settler colonialism as a specific mode of domination this book uncovers and critiques an autonomous influential and coherent political tradition a tradition still relevant today It follows the ideas and the projects and the failures of those who left or planned to leave growing and chaotic cities and challenging and confusing new economic circumstances those who wanted to protect endangered nationalities and those who intended to pre-empt forthcoming revolutions of all sorts including civil and social wars They displaced and moved to other islands and continents beyond the settled regions to rural districts and to secluded suburbs to communes and intentional communities and to cyberspace This book outlines the global history of a resilient political idea to seek change somewhere else as an alternative to embracing or resisting transformation where one is

A History of Western Public Law Bruno Aguilera-Barchet, 2014-12-31 The book outlines the historical development of Public Law and the state from ancient times to the modern day offering an account of relevant events in parallel with a general historical background establishing and explaining the relationships between political religious and economic events

The Age of Wars of Religion, 1000-1650 Cathal J. Nolan, 2006-04-30 The Age of Wars of Religion saw navies armies armed merchant companies and mercenaries battle one another and local potentates in many lands and along numerous shores Wars of religion were fought in and between all the major religions and civilizations from Europe to China in Africa and in the isolated Americas mixing motives of knightly idealism mercenary greed and competing claims of divine sanction This unparalleled work traces the extraordinary upheavals of the period in military technology competing theologies and civilizational change that were brought about by or impinged upon military conflict It offers nearly 2 000 discrete but cross-referenced entries on cultural military religious and political history as well as geography biography and military literature Close to 2 000 entries offer detailed information on the major events places battles figures technologies and ideas one must know to begin to make sense of the past six centuries of global conflicts Though especially ferocious and intense the Wars of Reformation and Counter Reformation fought by Europeans from the 15th through 17th centuries were hardly unique in world or military history The Byzantine Empire bastion of Christian Orthodoxy staggered to the tortuous end of its long conflict with the Ottoman Empire the Great Power of the Sunni Muslim world The Ottomans in turn were still engaged in an equally ancient intra-Muslim war between Sunnis and Shi'ites In India the Hindu Rajputs and Marathas and also the Sikhs organized armies around religious communities to throw off the Muslim Yoke Mughul Empire and also fought against Christian invaders from Europe As for the isolated Americas ideas of divine kingship sustained by powerful priesthoods and religious warfare also prevailed as exemplified by the Inca and Aztec empires
