Saunders, 2011-08-04 *graphic novels* **Helping People Help Themselves** David Ellerman, 2009-04-15 David Ellerman relates a deep theoretical groundwork for a philosophy of development while offering a descriptive practical suggestion of how goals of development can be better set and met. Beginning with the assertion that development assistance agencies are inherently structured to provide help that is ultimately unhelpful by overriding or undercutting the capacity of people to help themselves, David Ellerman argues that the best strategy for development is a drastic reduction in development assistance. The locus of initiative can then shift from the would-be helpers to the doers, recipients of development. Ellerman presents various methods for shifting initiative that are indirect, enabling, and autonomy respecting. Eight representative figures in the fields of education, community organization, economic development, psychotherapy, and management theory, including Albert Hirschman, Paulo Freire, John Dewey, and Søren Kierkegaard, demonstrate how the major themes of assisting autonomy among people are essentially the same. David Ellerman is currently a Visiting Scholar in the Economics Department at the University of California at Riverside. **Darwin's Worms** Adam Phillips, 2009-06-16 Adam Phillips has been called the psychotherapist of the floating world and the closest thing we have to a philosopher of happiness. His style is epigrammatic, his intelligence electric. His new book *Darwin's Worms* uses the biographical details of Darwin's and Freud's lives to examine endings, suffering, mortality, extinction, and death. Both Freud and Darwin were interested in how destruction conserves life. They took their inspiration from fossils or from half-remembered dreams. Each told a story that has altered our perception of our lives. For Darwin, Phillips explains, the story to tell was how species can drift towards extinction; for Freud, the story was how the individual tended to and tended towards his own death. In each case, it is a death story that uniquely illuminates the life story.

**The Spirituality of Imperfection** Ernest Kurtz, Katherine Ketcham, 2009-12-23 Learn how to embrace your faults and vulnerabilities to experience true spiritual growth with this hopeful and motivational guide. Inspiring, offering comfort to those who want to stop striving for perfection and start living. Publishers Weekly: "I am not perfect" is a simple statement of profound truth: the first step toward understanding the human condition is to deny your essential imperfection, is to deny your own humanity.
