happened any time as it brought the public sphere into the home and women into the public sphere Taking this claim as its starting point *Sound Citizens* examines how a cohort of professional women broadcasters activists and politicians used radio to contribute to the public sphere and improve women s status in Australia from the introduction of radio in 1923 until the introduction of television in 1956 This book reveals a much broader and more complex history of women s contributions to Australian broadcasting than has been previously acknowledged Using a rich archive of radio magazines station archives scripts personal papers and surviving recordings *Sound Citizens* traces how women broadcasters used radio as a tool for their advocacy radio s significance to the history of women s advancement and how broadcasting was used in the development of women s citizenship in Australia It argues that women broadcasters saw radio as a medium that had the potential to transform women s lives and status in society and that they worked to both claim their own voices in the public sphere and to encourage other women to become active citizens Radio provided a platform for women to contribute to public discourse and normalised the presence of women s voices in the public sphere both literally and figuratively [Irenaeus of Lyons](#) Eric Osborn,2001-10-04 Eric Osborn s book presents a major study of Irenaeus 125 200 bishop of Lyons who attacked Gnostic theosophy with positive ideas as well as negative critiques Irenaeus s combination of argument and imagery logic and aesthetic was directed to the bible Dominated by a Socratic love of truth and a classical love of beauty he was a founder of Western humanism Erasmus who edited the first printed edition of Irenaeus praised him for his freshness and vigour He is today valued for his splendid aphorisms his optimism love of the created world evolutionary view of history theology of beauty and humour Why have two millennia of European culture been so creative Irenaeus points to Greek ways of thinking and the Christian Bible Irenaeus s thought is complex yet rewarding to the critical reader and this full study of it will be of interest to theologians historians of ideas classicists scientists and students **Publications of the American Jewish Historical Society** ,1914 **The Gift in Sixteenth-century France** Natalie Zemon Davis,2000 Must a gift be given freely How can we tell a gift from a bribe Are gifts always a part of human relations or do they lose their power and importance once the market takes hold and puts a price on every exchange These questions are central to our sense of social relations past and present and they are at the heart of this book by one of our most interesting and renowned historians [Catalog of Copyright Entries.
