variety of contexts the political economic and cultural developments of the time the vicissitudes of the reading audience the realities of a publishing industry that was for the most part London based the often difficult circumstances of the lives of the novelists and the ever changing genre of the novel itself to which Irish authors often made a contribution Politics history religion gender and particularly land over which nineteenth century Ireland was deeply divided featured as key themes for fiction Finally the book engages with the critical debate of recent times concerning the supposed failure of realism in the nineteenth century Irish novel looking for more specific causes than have hitherto been offered and discovering occasions on which realism turned out to be possible
