Macedonia The Politics Of Identity And Difference:

Macedonia Jane K. Cowan, 2000-12-20 Macedonia has been contested by its three neighbours Serbia Bulgaria and Greece during and since the demise of the Ottoman Empire But the Macedonian Question extends far beyond the contested borders of Macedonia to immigrant communities in Europe Australia and North America The contributors to this collection explore the contemporary repercussions of the Macedonian Question which has long been at the heart of Balkan politics The volume recognises Macedonia as a global issue and focuses on the politics of identity and difference in both homeland and diaspora The contributors argue that Macedonia as place and as concept is forged within a transnational network of diasporas local communities states and international institutions They examine the increasingly important role of transnational bodies including the European Union and human rights NGOs in regulating relationships between states and minority groups as well as in promoting multiculturalism and civic participation They consider the role of scholarship and the media in defining Macedonia and its inhabitants They also draw attention to the struggles of individuals in constructing negotiating and even transforming their identities in the face of competing nationalisms and memories In the process they re evaluate ethnicity as a conceptual tool for understanding difference in the region and raise questions about the implications of recognising and not recognising difference at the political level

The Macedonian Question and the Macedonians Alexis Heraclides, 2020-12-31 This book is a comprehensive and dispassionate analysis of the intriguing Macedonian Question from 1878 until 1949 and of the Macedonians and of their neighbours from the 1890s until today with the two themes intertwining The Macedonian Question was an offshoot of the wider Eastern Question i.e. the fate of the European remnants of the Ottoman Empire once it dissolved The initial protagonists of the

Macedonian Question were Greece Bulgaria and Serbia and a Slav speaking population inhabiting geographical Macedonia in search of its destiny the largest segment of which ended up creating a new nation comprising the Macedonians something unacceptable to its three neighbours Alexis Heraclides analyses the shifting sands of the Macedonian Question and of the gradual rise of Macedonian nationhood with special emphasis on the Greek Bulgarian and Serbian claims to Macedonia 1870s 1919 the birth and vicissitudes of the most famous Macedonian revolutionary organization the VM O RO and of other organizations 1893 1940 the appearance and gradual establishment of the Macedonian nation from the 1890s until 1945 Titos s crucial role in Macedonian nationhood cum federal status the Greek Macedonian name dispute 1991 2018 including the skeletons in the cupboard the deep seated reasons rendering the clash intractable for decades the final Greek Macedonian settlement the 2018 Prespa Agreement the Bulgarian Macedonian dispute 1950 today and its ephemeral settlement in 2017 the issue of the Macedonian language and the Macedonian national historical narrative The author also addresses questions around who the ancient Macedonians were and the fascination with Alexander the Great This monograph will be an essential resource for scholars working on Macedonian history Balkan politics and conflict resolution

Notes from the Balkans Sarah F. Green, 2016-09-26 Maps and borders notwithstanding some places are best described as gaps places with repeatedly contested boundaries that are wedged in between other places that have clear boundaries This book explores an iconic example of this in the contemporary Western imagination the Balkans Drawing on richly detailed ethnographic research around the Greek Albanian border Sarah Green focuses her groundbreaking analysis on the ambiguities of never quite resolving where or what places are One consequence for some Greek peoples in this border area is a seeming lack of distinction but in a distinctly Balkan way In gaps which are never empty marginality is in contrast with conventional understandings not a matter of difference and separation it is a lack thereof Notes from the Balkans represents the first ethnographic approach to exploring the Balkans as an ideological concept Green argues that rather than representing a tension between West and East the Balkans makes such oppositions ambiguous This kind of marginality means that such places and peoples can hardly engage with multiculturalism Moreover the region s ambiguity threatens clear modernist distinctions The violence so closely associated with the region can therefore be seen as part of continual attempts to resolve the ambiguities by imposing fixed separations And every time this fails the region is once again defined as a place that will continually proliferate such dangerous ambiguity and could spread it somewhere else Political Handbook of the World 2022-2023 Tom Lansford, 2023-06-27 The Political Handbook of the World 2022 2023 provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide The updated 2022 2023 edition continues to be the most authoritative source for finding complete facts and analysis on each country s governmental and political makeup Tom Lansford has compiled in one place more than 200 entries on countries and territories throughout the world this volume is renowned for its extensive coverage of all major and minor

political parties and groups in each political system It also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and UN agencies And this update will aim to include coverage of current events issues crises and controversies from the course of the last two years

Mediating the Nation Mirca Madianou, 2012-11-12 What does it mean to watch two hour long news programmes every evening Why are some people addicted to the news while others prefer to switch off Television is an indispensable part of the fabric of modern life and this book investigates a facet of this process its impact on the ways that we experience the political entity of the nation and our national and transnational identities Drawing on anthropological social and media theory and grounded on a two year original ethnography of television news viewing in Athens the book offers a fresh interdisciplinary perspective in understanding the media identity relationship Starting from a perspective that examines identities as lived and as performed the book follows the circulation of discourses about the nation and belonging and contrasts the articulation of identities at a local level with the discourses about the nation in the national television channels The book asks whether and in what ways does television influence identity discourses and practices When do people contest the official discourses about the nation and when do they rely on them Do the media play a role in relation to inclusion and exclusion from public life particularly in the case of minorities The book presents a compelling account of the contradictory and ambivalent nature of national and transnational identities while developing a nuanced approach to media power It is argued that although the media do not shape identities in a causal way they do contribute in creating common communicative spaces which often catalyse feelings of belonging or exclusion The book claims a place in the emerging sub field of media anthropology and represents the new generation of audience research that places media consumption in the wider social economic and political context

The Macedonian Slavs in the Greek Civil War, 1944-1949 James Horncastle, 2019-06-03 In this study of Macedonian Slavs in the Greek Civil War the author examines how their participation in the conflict and the attempts by other groups to manipulate them gave rise to modern issues that continue to affect politics in the region today The Macedonian Question has confounded academics politicians and the people of the Balkans since the nineteenth century While the countries have resolved the territorial component of the Macedonian Question the critical and confusing question surrounding the ethnic and linguistic identity of the people of the region continues to be the source of international debate Part of the reason for this confusion is because the history of the Macedonian Question is shrouded in nationalist polemics The role of the Macedonian Slavs involvement in the

Greek Civil War is particularly contentious and embedded in nationalist polemics which has impacted academic inquiry This book argues that the preponderance of Macedonian Slavs within the communist forces during the Greek Civil War influenced the actions of all the major actors involved and is a significant factor in shaping the modern Macedonian national identity

Collective Memory, National Identity, and Ethnic Conflict Victor Roudometof, 2002-12-30 Roudometof provides an in depth analysis of inter ethnic relations in the southern Balkans He examines the evolution of the Macedonian Question and the production of rival national narratives by Greeks Bulgarians and Macedonians He introduces the concept of a national narrative in order to account for the production and proliferation of different forms of collective memory among the rival nation states Roudometof deconstructs the national narratives of the competing sides and shows the limits of these narratives and their biases He also develops an alternative interpretation of Macedonian national formation The contentious issue of Macedonian national minorities in the southern Balkans is examined as well as the issue of the Albanian movements toward self determination and succession in Kosovo and western Macedonia Roudometof argues that the Macedonian minority groups are not as numerous in the neighboring states as it is conventionally assumed With regard to the Albanian national question he provides a review of the post 1945 relations between Albania and Greece the Albanians of Kosovo and the Serbs and the Albanians and Macedonians He argues that the Albanian nationalist movements have grown out of the interaction between Albanians and their neighboring nations and ethnic groups An important resource for scholars students and other researchers involved with the Balkans and ethnic conflict resolution in general **Nationalism, National**
