## **Major Political Events In South Africa 1948 199:**

Afrikaner Politics in South Africa, 1934-1948 Newell M. Stultz, 2023-11-15 This book examines the political landscape of South Africa from 1934 to 1948 focusing on the ideological conflict between Afrikaner nationalism and policies aimed at conciliation between Afrikaners and English speaking South Africans The Union of South Africa founded in 1910 unified the country under a government heavily influenced by British principles but also included leaders from the former Boer republics Early South African politics became a struggle between two major political ideologies one that promoted Afrikaner nationalism advocating for Afrikaner cultural and political interests and another that supported conciliation a philosophy attempting to bridge ethnic divides and foster unity among white South Africans The book highlights that conciliation parties faced significant challenges in gaining long term Afrikaner support as they needed to balance competing interests between English speaking South Africans and Afrikaners who felt a strong sense of ethnic identity Afrikaner nationalist parties however did not need this balance and could draw on the deep seated solidarity within their community The critical turning point in this era according to the author was Prime Minister Jan Smuts decision in 1939 to align South Africa with Britain in declaring war on Germany This move alienated a large portion of the Afrikaner electorate who saw it as a violation of the South Africa first principle and contributed significantly to the United Party s waning support This estrangement between Afrikaners and conciliation parties the author argues set the stage for the rise of the National Party and their victory in 1948 which marked the start of apartheid While many observers attributed the Nationalist victory to the appeal of apartheid policies this study suggests that the National Party s success stemmed more fundamentally from the longstanding disillusionment with conciliation policies and the failure of conciliation leaders to create integrative solutions that resonated with both Afrikaners and English speaking South Africans This historical analysis sheds light on how ethnic divisions and unresolved political conflicts laid the groundwork for South Africa s mid 20th century shift toward Afrikaner dominated governance This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974

**Guide to South African Reference Books** Reuben Musiker, Naomi Musiker, 1997 Only a small proportion of the more than 1 100 entries have been retained from the earlier editions and supplements 1955 to 1983 more publications reflecting social and economic changes in South Africa have been included and the annotations are more extensive The main focus is on references such as dictionaries yearbooks and encyclopedias but handbooks manuals and histories are cited if no conventional references exist on the subject The selection is not limited to books published in South Africa The arrangement is by broad subject headings following the Dewey Decimal system The annotations are primarily descriptive but evaluations creep in now and again Distributed by Books International Annotation

leadership studies using Lasswell's concerns over the risks to democratic accountability and the current preoccupation with strengthening the roles of charismatic and transformational leaders. Intended for researchers, practitioners and students in the areas of political and historical psychology, political strategy and political communication, the book's emphasis on psychodynamics also appeals to psychoanalysts and the material on leadership appeals to professionals in management and industrial/organizational psychology.

*Bibliographic Guide to Black Studies* Schomburg Center for Research in Black Culture, 1997

*The Changing Past* Ken Smith, Kenneth Wyndham Smith, 1989

E. H. Carr said: "Before you study the history, study the historian. Written history often tells us more about the historian's own times than it does of the times about which he is writing." The historians and the way in which each generation has rewritten history in the light of its own preoccupations is the subject of *The Changing Past*. This is the first book-length survey in English that covers all the main trends in South African historiography. Starting with the first documents and histories, it goes on to trace the 19th-century British and settler schools, Afrikaans historiography from its pre-academic 19th-century phase to the present, and the liberal historians who struck out in a new direction from the 1920s. The book highlights the break with the past that historians of the new radical school have made in the last 15 years and surveys the position of historical writing to the present. The canvas is delineated in bold strokes that sketch in the main outlines rather than seek an exhaustive treatment of all existing literature. This together with a conscious effort to minimize theoretical discussion makes it a highly readable text.

*The Oxford Handbook of Names and Naming* Carole Hough, 2016-04-28

In this handbook, scholars from around the world offer an up-to-date account of the state of the art in different areas of onomastics in a format that is both useful to specialists in related fields and accessible to the general reader. Since Ancient Greece, names have been regarded as central to the study of language, and this has continued to be a major theme of both philosophical and linguistic enquiry throughout the history of Western thought. The investigation of name origins is more recent, as is the study of names in literature. Relatively new is the study of names in society, which draws on techniques from sociolinguistics and has gradually been gathering momentum over the last few decades. The structure of this volume reflects the emergence of the main branches of name studies in roughly chronological order. The first Part focuses on name theory and outlines key issues about the role of names in language, focusing on grammar, meaning and discourse. Parts II and III deal with the study of place names and personal names respectively, while Part IV outlines contrasting approaches to the study of names in literature, with case studies from different languages and time periods. Part V explores the field of socio-onomastics, with chapters relating to the names of people, places and commercial products. Part VI then examines the interdisciplinary nature of name studies, before the concluding Part presents a selection of animate and inanimate referents ranging from aircraft to animals and explains the naming strategies adopted for them.

**Water Policy Entrepreneurs** Sander Meijerink, 2009

Unsurpassed in the scope of its coverage, this book explores like no other the roles of policy entrepreneurs and the causes of policy change.

across diverse political systems ranging from the developing world to the largest western democracies The studies show how entrepreneurs work with outside donors take advantage of windows of political opportunity create those windows and push the policy process in the direction they hope They also show the limits to these strategies and strategies that tend to fail The book dramatically advances our understanding not only of change and stability in water policy but of the policy process more generally Frank R Baumgartner University of North Carolina US This book is a theoretically and empirically grounded analysis of one of the world s most pressing problems the management of water resources The editors have assembled a remarkable collection of authors with a truly global outlook and an excellent grasp of contemporary water issues as well as modern theories of public policy and decision making The volume also demonstrates excellent applications of policy theory to current and pressing matters It is a must read for students and practitioners in water resources and will be influential to water policy and in environmental resource management and policy for years to come Thomas A Birkland North Carolina State University US This volume is a major achievement It advances our knowledge of stability and change in water policy through case studies from around the world Its focus on transitions instances of really major shifts in policy is particularly welcome at a time when challenges such as climate change force water policy makers to reconsider the very foundations of their regulatory frameworks and infrastructural policies The volume goes beyond water policy however It makes a major contribution to the study of policy dynamics in general by offering an empirically grounded comparative analysis of policy entrepreneurs as change agents in policy networks There has been much loose talk about policy entrepreneurs in the fields of public administration and public policy but a dearth of empirical work underpinning the various claims made This volume goes a long way towards filling that gap Highly recommended for water experts and policy scientists alike Paul t Hart Australian National University Australia and Utrecht University the Netherlands This major volume focuses on the role of policy entrepreneurs in revolutionizing water management worldwide Adopting an international comparative perspective the authors explore the changes taking place in water policy across fifteen countries at both the global level and within the European Union Their analysis highlights the importance of groups and individuals in stimulating progress and reveals the crucial part played by policy entrepreneurs Successful entrepreneurs use various strategies to initiate and implement change including the framing and reframing of issues the assembly of coalitions venue shopping and the exploitation of windows of opportunity In showcasing the role of entrepreneurs in achieving transitions and explaining their approach this groundbreaking book presents an optimistic message for those who desire improvements in the way water is managed This book will not only make a unique contribution to the current literature on transition management but will also prove an invaluable tool for those keen to influence water policy management at the regional national and international level It will be of great interest to students and scholars of water resources and environmental management and governance as well as practitioners in the fields of water and climate policy
