*The Canadian Encyclopedia* James H. Marsh, 1999 This edition of *The Canadian Encyclopedia* is the largest most comprehensive book ever published in Canada for the general reader It is COMPLETE every aspect of Canada from its rock formations to its rock bands is represented here It is UNABRIDGED all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume It has been EXPANDED since 1988 teams of researchers have been diligently fleshing out old entries and recording new ones as a result the text from 1988 has grown by 50% to over 4 000 000 words It has been UPDATED the researchers and contributors worked hard to make the information as current as possible Other words apply to this extraordinary work of scholarship AUTHORITATIVE RELIABLE and READABLE Every entry is compiled by an expert Equally important every entry is written for a Canadian reader from the Canadian point of view The finished work many years in the making and the equivalent of forty average sized books is an extraordinary storehouse of information about our country This book deserves pride of place on the bookshelf in every Canadian Home It is no accident that the cover of this book is based on the Canadian flag For the proud truth is that this volume represents a great national achievement From its formal inception in 1979 this encyclopedia has always represented a vote of faith in Canada in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated At the start of a new century and a new millennium in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future The statistics behind this volume are staggering The opening sixty pages list the 250 Consultants the roughly 4 000 Contributors all experts in the field they describe and the scores of researchers editors typesetters proofreaders and others who contributed their skills to this massive project The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words making it the largest some might say the greatest Canadian book ever published There are of course many special features These include a map of Canada a special page comparing the key statistics of the 23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first entry A mari usque ad mare from sea to sea which is Canada's motto and a good description of this volume's range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known Yet now Canada's finest scientists academics and specialists have

distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada *Consumer Product Safety Commission Reauthorization* United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Health and the Environment,1981 *Bulletin of the United States Bureau of Labor Statistics* ,1982 **Area Wage Survey** ,1982 **Energy Efficiency in Household Appliances** Paolo Bertoldi,Andrea Ricci,Boudewijn Huenges Wajer,2012-12-06 There is widespread interest throughout the world in improving appliance energy efficiency Methods to reach that end include energy labeling energy efficiency standards and market conditioning e g energy efficient procurement and DSM programs Energy efficiency standards which started out as an action to reduce demand for energy in individual countries has now become a subject of regional and even worldwide dimension particularly in the context of global climate change mitigation Mandatory energy efficiency standards are in place for some appliances in China Canada Mexico the Philippines and the United States Standards for refrigerator freezers will take effect in Australia and the European Union in 1999 Voluntary energy efficiency standards are in place for refrigerators in Brazil India and Korea and for air conditioners in India Japan and Korea Table I showed potential global energy use reductions from codes and standards in buildings If individual country data can be assembled a more accurate approach to estimating potential reductions in energy use and carbon emissions would be to perform a bottom up analysis for energy using equipment on an end use basis in as many large developing countries as possible The impact of standards would be assessed as more efficient appliances replaced existing stock models and new purchases that increased saturation rates were made at higher efficiencies than would otherwise be the case This approach would show the slow but steady buildup of annual energy savings from efficiency standards or other programs to improve energy efficiency **Electrical Merchandising Week** ,1922 Includes annually 1961 Home goods data book **Statistical Reference Index** ,1980 **Office Appliances; The Magazine of Office Equipment** ,1920 1967 Census of Business United States.
