This revised and expanded edition includes such Internet-related topics as Internet music law, online registration, and online privacy. Other new topics covered include Implied and express contracts in the project idea submission process; Assignment transfer of copyright; Music clip licensing; Use of other people's trademarks in media production; Parody as a defense to copyright infringement. Clear explanations examine the how and why of different types of production contracts, and checklists provide a quick means for producers to determine when their productions might be at greatest risk to legal challenges. *Media Law for Producers* also examines the substantial changes in copyright term resulting from recent copyright legislation. Legal problems can be very costly to media producers. Lawyers and court fees coupled with the loss of work time can lead to bankruptcy. *Media Law for Producers* cuts through the legalese and illustrates legal issues to help producers recognize the legal questions that can arise during production.
