Vingerhoets, Randolph R. Cornelius, 2012-12-06 Crying is a typical human expression of emotion Surprisingly until now little scientific attention has been devoted to this phenomenon Many textbooks on emotion fail to pay attention to it and in scientific journals there are hardly any contributions focusing on this behavior In contrast there is much interest from the lay public allowing pseudo scientists to formulate theories that have little or no scientific basis Is there any evidence in support of statements that crying is healthy or that not crying may result in toxification How do people react to the crying of others Is crying important for the diagnosis of depression and if so how This book aims to fill this gap in scientific literature Crying is discussed from several perspectives and specific attention is given to methodological issues and assessment Each chapter provides a review and a summary of the relevant scientific literature *Complete Works* Thomas Brookes (Preacher at Margaret's, New Fish Street.), 1866 **The Works of that Eminent Servant of Christ, Mr. John Bunyan ...** John Bunyan, 1769 **GameAxis Unwired**, 2005-11 GameAxis Unwired is a magazine dedicated to bring you the latest news previews reviews and events around the world and close to you Every month rain or shine our team of dedicated editors and hardcore gamers put themselves in the line of fire to bring you news previews and other things you will want to know **Beginning Theory** Peter Barry, 2002-09-07 In this second edition of *Beginning Theory* the variety of approaches theorists and technical language is lucidly and expertly unraveled and explained and allows readers to develop their own ideas once first principles have been grasped Expanded and updated from the original edition first published in 1995 Peter Barry has incorporated all of the recent developments in literary theory adding two new chapters covering the emergent Eco criticism and the re-emerging Narratology **The Parable of the Ten Virgins** Thomas Shepard, 1853 Thomas Shepard 1605 1649 was a New England Puritan minister Forbidden to preach in England he emigrated to Massachusetts in 1635 The most eloquent measure of his

classic The Parable of the Ten Virgins is that there is a scarcely a page in The Religious Affections where Jonathan Edwards does not reference Shepard's work

**Why Only Humans Weep** Ad Vingerhoets, 2013-02-28 Crying has fascinated mankind for millennia Since ancient times we have known that emotional tears are a unique human characteristic Unsurprisingly over hundreds of years scholars from different backgrounds have speculated about the origin and functions of human tears According to Charles Darwin tears fulfilled no adaptive function And yet this seems in sharp contrast to statements in the popular media about the significance of crying Crying is thought to bring relief and is considered healthy and withholding tears unhealthy In addition tears have been said to inhibit aggression in assaulters and to promote social bonding Perhaps that could explain why tears have been so important in our evolution Ad Vingerhoets is one of the few scientists in the world to have studied crying He examines in Why only humans weep which claims about crying are scientifically tenable which are fact and which are fiction Though a psychologist he doesn't just restrict himself to the current psychological literature but also explores work in evolutionary biology neurosciences theology art history and anthropology to provide an integrated perspective on this complex phenomenon Written throughout in an academically accessible style this book is groundbreaking in contributing to a modern scientific understanding of crying It will have broad appeal to psychologists psychiatrists philosophers biologists and anthropologists

**Working at Writing** Robert L. Root, 1991 A survey of the composing processes of seven working writers columnist essayists Jim Fitzgerald and Kathleen Stocking political columnists Tom Wicker and Richard Reeves drama critic Walter Kerr and film critics David Denby and Neal Gabler Working at Writing offers rich and unique insights into how writing is actually done The book has three interlocking elements edited transcripts of interviews with the writers about their composing processes and the composition of specific works copies of the works discussed in the transcripts and a series of chapters that analyze the interviews and articles in the context of current research into composing Through this unusual structure Root investigates both the ways in which the working practices of the seven writers relate to one another and to current models of composing and the ways in which such a discussion will be of value to others particularly to student writers and their teachers By considering the comments of

practicing writers and the examples of their compositions and by comparing the evidence of research findings with those examples of practical experience Root gives student writers and their teachers as well the opportunity to better understand the paradigms that govern their own composing and to confirm modify abandon or replace them The final chapter discusses the implications of these professionals experience for those who hope to become working writers Stressing the importance of assiduous stringsaving immersion in context regular composition the rhetorical situation and the writer s understanding of his or her own process Root suggests both what separates the novice from the expert and how novices can apply the insights of this book as they work at their own writing

Charming the Prince Teresa Medeiros, 1999-04-06 He never lost a battle until he met the woman who won his heart My enemies know me as Lord Bannor the Bold Pride of the English and Terror of the French Never in my life have I backed down from any challenge or betrayed so much as a hint of fear until the war ended and I found myself a reluctant papa to a dozen unruly children Realizing that I couldn t lop their little heads off or throw them in the dungeon I sent my steward out to find them a mother and me a bride an attractive meek maternal creature too plain to tempt me to get her with child You can imagine my horror when he returned with Lady Willow of Bedlington a spirited beauty who made me think of nothing else With her cloud of dark curls and the sparkle of passion in her eyes Willow was everything I d sworn to resist I never dreamed she would join forces with those mischievous imps of mine to teach this cynical warrior just how sweet surrender can be

Rilling, 2024-10-01 How and why human males evolved the capacity to be highly involved caregivers and why some are more involved than others We all know the importance of mothers They are typically as paramount in the wild as they are in human relationships But what about fathers In most mammals including our closest living primate relatives fathers have little to no involvement in raising their offspring and sometimes even kill the offspring sired by other fathers How then can we explain modern fathers having the capacity to be highly engaged parents In *Father Nature* James Rilling explores how humans have evolved to endow modern fathers with this potential and considers why this capacity evolved in humans Paternal caregiving is advantageous to children and by extension to society at large yet variable both across and within human societies Rilling considers how to explain this variability and what social and policy changes might be implemented to increase positive paternal involvement Along the way *Father Nature* also covers the impact fathers have on children s development the evolution of paternal caregiving how natural selection adapted male physiology for caregiving and finally what lessons an expecting father can take away from the book as well as what benefits they themselves get from raising children including increased longevity and younger brains A beautifully written book by a father himself *Father Nature* is a much needed and deeply rewarding look at the science behind good paternal behavior in humans
