second edition of *Black Haze* is the most penetrating illuminating and articulate sociopolitical and cultural analysis of the chilling legacy of violence in black Greek letter fraternities. As one of the world's leading authorities on black masculinity and organizations, Ricky Jones intelligently confronts traditional verities, social norms, and myths that seek to justify and continue ritualized violence in black fraternities through the courageous prism of a reformed insider dedicated to the preservation of black dignity and life. Jeremy I. Levitt, author of *Black Women and International Law: Deliberate Interactions, Movements, and Actions*, praises the first edition for providing valuable insights into the reasoning behind hazing, a practice that extends into the realms of sports and even high school and is relevant for not only fraternity members and officials but the general public as well. *The Griot* is an important contribution because of the skillful manner in which Jones incorporates and critically analyzes relevant literature and other related scholarly writings. Jones himself, a member of Kappa Alpha Psi, offers personal observations as well as first-hand views and perceptions of hazing. *Journal of College Student Development* *Contemporary Black Men's Fiction and Drama* Keith Clark, 2001. Demonstrating the extraordinary versatility of African American men's writing since the 1970s, this forceful collection illustrates how African American male novelists and playwrights have absorbed, challenged, and expanded the conventions of black American writing and, with it, black male identity. From the John Henry Syndrome, a definition of black masculinity based on brute strength or violence, to the submersion of black gay identity under equations of gay with white and black with straight, the African American male in literature and drama has traditionally been characterized in ways that confine and silence him. *Contemporary Black Men's Fiction and Drama* identifies the forces that limit black male discourse, including traditions established by iconic African American male authors such as James Baldwin, Richard Wright, and Ralph Ellison. This thoughtful volume also shows how contemporary black male authors use their narratives to put forward new ways of being and knowing that foster a more complete sense of self and more humane and open ways of communicating with and relating to others. In the work of Charles Johnson, Ernest Gaines, and August Wilson, contributors find paths toward broader, less rigid ideas of what black literature can be, what the connections among individual and communal resistance can be, and how black men can transcend the imprisoning models of hyper-masculinity promoted by American culture. Seeking greater spiritual connection with the past, John Edgar Wideman returns to the folk rituals of his family, while Melvin Dixon and Brent Wade reclaim African roots and traditions. Ishmael Reed struggles with a contemporary cultural oppression that he sees as an insidious echo of slavery, while Clarence Major's experimental writing suggests how black men might reclaim their own voices in a culture that silences them. Taking in a wide range of critical, theoretical, cultural, gender, and sexual concerns, *Contemporary Black Men's Fiction and Drama* provides provocative new readings of a broad range of contemporary writers. **Rethinking Prison Reentry** Tony Gaskew, 2014-08-26. *Rethinking Prison Reentry: Transforming Humiliation into Humility* describes a prison-based education pedagogy designed to address a prevalent racial politics of shaming, self-segregation, and transgenerational learned helplessness. So many incarcerated black men face

insurmountable psychosocial obstacles when attempting to make the successful transition back into ownership of their lives Tony Gaskew confronts the issue of redemption and reconciliation head on by critically examining the triads of culpability when it comes to crime and justice in America 1 of those who commit crimes 2 of those who enforce criminal laws and 3 of those who stand by and do nothing He explores the growth of a black counterculture of crime that has created modern day killing fields across urban neighborhoods and challenges the incarcerated black men trapped within its socially constructed lies helping them to draw upon the strength of their cultural privilege to transform from criminal offender into incarcerated student

intellectuals like Robert Bellah, Jean Bethke Elshtain, Michael Walzer, William Bennett, Seymour Martin Lipset, William Galston and others as well as survey data of American political attitudes to spotlight this oft ignored divide between citizens and high profile commentators whose contentious debates are mistakenly assumed to reflect countrywide rifts. Fowler's argument is straightforward but the interpretation is controversial. He recounts how the consensus liberal view in post World War II American political thought collapsed among public intellectuals during the tumult of the 1960s and remains so to this day. His book examines the resultant diversity among contemporary public intellectuals focusing on three predominant themes: concern for community, worry about the environment and interest in civil society. In marked contrast to these disputatious commentators, Fowler finds the realm of popular opinion to be characterized by much greater consensus. Indeed, there seems to be a trend toward an even more general embrace of the liberal values that characterize our attitudes toward the individual: individual liberty, political equality, economic opportunity and consent of the governed. Liberal values above all: the celebration of the individual and individual rights have revolutionized the so-called private realms of life like family and religious communities to an extent unimagined in the 1950s. From these conclusions, Fowler demonstrates that most interpretations of American political thinking have exaggerated the extent of conflict and diversity in our nation's often raucous policy disputes. But he also cautions us not to overstate the public's widely shared liberal values and by doing so miss opportunities to facilitate problem solving or to recognize the ways in which our reform efforts may be constrained.

The Oxford Handbook of the Literature of the U.S. South Fred Hobson, Barbara Ladd, 2016-01-04. The Oxford Handbook of the Literature of the U.S. South brings together contemporary views of the literature of the region in a series of chapters employing critical tools not traditionally used in approaching Southern literature. It assumes ideas of the South: global, multicultural, plural, more Souths than South, that would not have been embraced two or three decades ago and it similarly expands the idea of literature itself. Representative of the current range of activity in the field of Southern literary studies, it challenges earlier views of antebellum Southern literature as well as in its discussions of twentieth-century writing questions the assumption that the Southern Renaissance of the 1920s, 1930s and 1940s was the supreme epoch of Southern expression, that writing to which all that had come before had led and by which all that came afterward was judged. As well as canonical Southern writers, it examines Native American literature, Latina/o literature, Asian American as well as African American literatures, Caribbean studies, sexuality studies, the relationship of literature to film and a number of other topics which are relatively new to the field.
