Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform

Robert J. Duffy

Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform:

Making Bureaucracies Think Serge Taylor, 1984 The central concern of this book is the social intelligence that goes into environmental decisions Not what is the correct balance when trade offs must be made between environmental and economic values But rather how can the social thinking necessary for intelligent trade offs be institutionalized How that is can environmental impacts be recognized beforehand so that less costly trade offs can be explored relative risks assessed and choices made in a manner acceptable to both the public and the government This book evaluates the first ten years of the Environmental Impact Statement EIS process of the 1969 National Environmental Policy Act in particular how it has worked inside two federal agencies with important impacts on the environment the Forest Service and the Army Corps of Engineers It assesses how successful the EIS process has been in establishing a concern for environmental values in the federal bureaucracy and how widely applicable the general impact statement approach is in other policy areas The Environmental Impact Statement After Two Generations Michael Greenberg, 2013-06-17 This book is about a subject that Michael Greenberg has worked on and lived with for almost forty years He was brought up in the south Bronx at a time when his neighborhood suffered from terrible air and noise pollution and domestic waste went untreated into the Hudson River For him the National Environmental Policy Act NEPA was a blessing It included an ethical position about the environment and the law required some level of accountability in the form of an environmental impact statement or EIS After forty years of thinking about and working with NEPA and the EIS process Greenberg decided to conduct his own evaluation from the perspective of a person trained in science who focuses on environmental and environmental health policies This book of carefully chosen real case studies goes beyond the familiar checklists of what to do and shows students and practitioners alike what really happens during the creation and implementation of an EIS The Oxford Handbook of American Bureaucracy Robert F. Durant, 2012-08-02 One of the major dilemmas facing the administrative state in the United States today is discerning how best to harness for public purposes the dynamism of markets the passion and commitment of nonprofit and volunteer organizations and the public interest oriented expertise of the career civil service Researchers across a variety of disciplines fields and subfields have independently investigated aspects of the formidable challenges choices and opportunities this dilemma poses for governance democratic constitutionalism and theory building This literature is vast affords multiple and conflicting perspectives is methodologically diverse and is fragmented The Oxford Handbook of American Bureaucracy affords readers an uncommon overview and integration of this eclectic body of knowledge as adduced by many of its most respected researchers Each of the chapters identifies major issues and trends critically takes stock of the state of knowledge and ponders where future research is most promising Unprecedented in scope methodological diversity scholarly viewpoint and substantive integration this volume is invaluable for assessing where the study of American bureaucracy stands at the end of the first decade of the 21st century and where leading scholars think it should go in the

future The Oxford Handbooks of American Politics are a set of reference books offering authoritative and engaging critical overviews of the state of scholarship on American politics Each volume focuses on a particular aspect of the field The project is under the General Editorship of George C Edwards III and distinguished specialists in their respective fields edit each volume The Handbooks aim not just to report on the discipline but also to shape it as scholars critically assess the scholarship on a topic and propose directions in which it needs to move The series is an indispensable reference for anyone working in American politics General Editor for The Oxford Handbooks of American Politics George C Edwards III

Transforming Power Aynsley Kellow,1996 Originally published in 1996 this book is an exploration and analysis of the electricity industry in the context of uncertainty following the energy crisis of the 1970s and concern over the greenhouse effect Few industries demand a similar level of foresight and planning or such vast amounts of capital The book examines five well known Australian Canadian and New Zealand cases and closely analyses the ways in which various agencies have sought ends to serve the means at their disposal Electricity has long been regarded as a natural monopoly but questions of privatisation regulation and government control are increasingly prevalent The book explores these issues and also notes the experiences of other countries in its analysis of institutional reform Aynsley Kellow argues for different approaches to electricity planning which offer much by way of economic savings and minimisation of environmental problems **Banking**

on the Environment Tamar L. Gutner,2002-08-16 Multilateral development banks MDBs are increasingly expected to address environmental issues in their economic development lending Yet the banks have been accused of failing to implement their own environmental policies thereby contributing to environmental degradation in borrowing countries In this book Tamar Gutner analyzes the environmental policies of three MDBs the World Bank the European Bank for Reconstruction and Development and the European Investment Bank She compares their performance in Central and Eastern Europe where the need for economic and environmental reform has been particularly urgent and where these MDBs are among the largest donors Gutner finds many obstacles to efforts to green the three banks most notably a mismatch between the environmental mandates and existing patterns of institutional design and incentives The depth and scope of the banks green activities reflect the degree of shareholder commitment to environmental issues and how demand driven the MDB is designed to be Surprisingly the World Bank the most scrutinized and criticized of the three MDBs has been rather more responsive than its counterparts to its environmental mandate in the region The discussion is framed by larger explorations of the behavior of international organizations and the sources of their innovation and inertia in addressing new policy issues Gutner demonstrates the need to examine the impact of different stages of the policy process on new mandates and to incorporate both political and institutional variables when developing theories about the behavior of international institutions *Contemporary Environmental Politics* Piers Stephens,John Barry,Andrew Dobson,2006-09-27 This new collection from the leading journal Environmental Politics presents an excellent overview of the key themes found in

contemporary green political thought since the early 1990s Bringing together the journal s major work this new book charts a fascinating period in which environmental politics developed from a marginal position in society and the academy to its current place in the intellectual mainstream Subdivided into clear sections on political theory social movements political economy and policy questions and assisted by a contextualising introduction this volume focuses on a set of clear themes the character of green political theory relationships with other political traditions and theories origins and dynamics of contemporary environmental politics differences similarities and tensions between the North and South the relationship of environmentalism to market economics and ecological modernization environmental aspects of distributive justice at the local national and global levels the roles value and valuing of nature in green theory and institutional practice As a compilation this book is unique It delivers a snapshot of a variety of issues in the field and is therefore ideally suited to teaching purposes especially at postgraduate level In addition as each section is chronologically arranged an evolution of related ideas can be clearly seen and appreciated which builds an excellent understanding of the field of environmental politics

Nuclear Politics in America Robert J. Duffy,1997 Duffy s work traces nuclear politics from the creation of a powerful subgovernment through the public lobby reforms of the late 1960s and early 1970s and the deregulatory backlash of the Reagan years He demonstrates that while policies did change in the 1970s they did not change as much as other accounts have suggested and that the industry continued to receive considerable federal support The book is particularly significant for extending the discussion of nuclear policy through the Bush and Clinton years including the controversy over waste disposal new licensing procedures enacted in the 1992 Amendments to the Atomic Energy Act and the effects of deregulation of electric utilities Amazon com viewed August 24 2020

Citizen Environmentalists James Longhurst,2012-06-22 A telling look at the lives and strategies of women environmental activists in the long 1960s solidly grounded in a national context

Children With Special Needs Katharine T. Bartlett,Judith Welch Wegner,1987-01-01 The presence of children with special needs in public schools has created diverse and shifting tensions During the 1970s parents and advocates sought to remove existing barriers and secure greater educational opportunity for handicapped children in public education insisting that all children can learn and that all children suffer adverse effects from the exclusion of the handicapped from public schools The legislation that was the product of their efforts The Education for All Handicapped Children Act of 1975 EAHCA has become central to the continuing debate over the role of public schools in educating children with special needs The authors of the essays included in this volume contribute to this debate in two ways First they evaluate the success of EAHCA and other legal mechanisms designed to ensure that the requirements of children with special needs are adequately met from a variety of historical empirical analytical and comparative perspectives Second they suggest steps that might be taken to help such legal strategems attain their goals These suggestions respond to tensions that have shaped and will continue to shape the reaction of educators parents and the legal system to children with special needs

during the years to come **The Promise of Green Politics** Douglas Torgerson, 1999 An exploration of the relationship between the means and the ends in green politics **Talk and Log** Jeremy Wilson, 1998 For more than three decades British Columbia's old growth forests have been a major source of political conflict In *Talk and Log* Jeremy Wilson presents a comprehensive account of the rise of the wilderness movement examines the forest industry's political strategies and analyzes the inner workings of the policy process Wilson describes a number of major political battles such as those resulting in preservation of South Moresby the Carmanah and the Valhalla wilderness and investigates the factors that pushed the government towards a more comprehensive approach to expanding the protected areas system He considers a wide range of forest policy developments and assesses the effectiveness of government and industry attempts to contain the wilderness movement In the final part he explores the Harcourt NDP government's reform initiatives including the Commission on Resources and Environment CORE the Protected Areas Strategy and the Forest Practices Code *Talk and Log* illuminates the forces behind controversies that have divided British Columbians preoccupied the provincial government and drawn the attention of people across Canada and the world By discussing the patterns and trends underlying the past three decades of wilderness politics Wilson identifies the currents likely to dominate B.C. wilderness debates in decades to come **Social Citizenship in the Shadow of Competition** Bronwen Morgan, 2017-11-30 *Social Citizenship in the Shadow of Competition* explores how economic concepts and tools are reshaping regulatory law Building on studies that link law both institutionally and discursively to the legitimation of economic neo liberalism the book charts lawmakers' attempts to justify social welfare regulation in the language imposed by economic theory It presents new qualitative findings from an ambitious regulatory reform programme targeting over 1 700 pieces of legislation Bronwen Morgan argues that the interplay between economic discourse and lawmaking does not destroy the possibility of social citizenship however the subsequent regulatory conversations frequently silence or weaken the claims of vulnerable groups Thus even when vulnerable groups secure instrumental success economic conceptions of bureaucratic rationality impoverish their capacity to express certain kinds of intangible values and aspirations To expand or retain social citizenship requires that we learn to conceive of what matters in political economy without relying on the logic of utility or other instrumental rationalities **Designing the Bayous** Martin Reuss, 2004-06-02 Louisiana's Atchafalaya River Basin is one of the most dynamic and critical environments in the country It sustains the nation's last cypress tupelo wetland and provides a habitat for many species of animals Endowed with natural gas and oil fields the basin also supports a large commercial fisheries industry Perhaps most crucial it remains a primary component of the plan to control the Mississippi River and relieve flooding in New Orleans Baton Rouge and other communities in the lower river valley The continuing health of the basin is a reflection not of nature but of the work of the U.S. Army Corps of Engineers With levee building and clearing in the nineteenth century and damming dredging and floodway construction in the twentieth the basin was converted from a vast forested swamp into a designer wetland where human

aspirations and nature maintained a precarious equilibrium Originally published by the U S Army Corps of Engineers primarily for internal distribution this environmental and political history of the Atchafalaya Basin is an unflinching account of the transformation of an area that has endured perhaps more human manipulation than any other natural environment in the nation Martin Reuss provides a new preface to bring us up to date on the state of the basin which remains both an engineering contrivance and natural wonder

Handbook of Public Policy B Guy Peters, Jon Pierre, 2006-07-20 The new handbook by Peters and Pierre provides an invaluable addition to the literature It offers new scholars and practitioners a means to navigate many of the complex theoretical and practical issues in contemporary policy analysis Mark Considine University of Melbourne The public policies of governments affect the lives and livelihoods of citizens every day in every country around the world This handbook provides a comprehensive review and guide to the study theory and practice of public policy today Section One Making Policy introduces the policy making process the means by which public policies are formulated adopted and implemented and serves to review the many competing conceptualizations within the field Section Two Substantive Policy Areas focuses on a number of substantive policy areas to consider both diversity and commonalties across different sectoral policy areas Section Three Evaluating Public Policy addresses issues of policy analysis more directly and assesses successes and failures in public policy in an attempt to answer the question what is good policy The concluding chapter considers the different disciplinary contributions to the research and study of public policy both retrospectively and prospectively Drawing contributions from leading academics and policy analysts from around the world the handbook illustrates the changing role of governments vis vis the public and private sector and the different policy actors national and international governmental and non governmental involved in the policy making process It will be an essential companion for all advanced undergraduates graduates academics and practitioners across public policy and public administration public management government and political science

Law and Corporate Behaviour Christopher Hodges, 2015-10-22 This book examines the theories and practice of how to control corporate behaviour through legal techniques The principal theories examined are deterrence economic rational acting responsive regulation and the findings of behavioural psychology Leading examples of the various approaches are given in order to illustrate the models private enforcement of law through litigation in the USA public enforcement of competition law by the European Commission and the recent reform of policies on public enforcement of regulatory law in the United Kingdom Noting that behavioural psychology has as yet had only limited application in legal and regulatory theory the book then analyses various European regulatory structures where behavioural techniques can be seen or could be applied Sectors examined include financial services civil aviation pharmaceuticals and workplace health safety Key findings are that enforcement has to focus on identifying the causes of non compliance so as to be able to support improved performance rather than be based on fear motivating complete compliance Systems in which reporting is essential for safety only function with a no blame culture The book concludes by proposing an holistic model for

maximising compliance within large organisations combining public regulatory and criminal controls with internal corporate systems and external influences by stakeholders held together by a unified core of ethical principles Hence the book proposes a new theory of ethical regulation This title is included in Bloomsbury Professional s International Arbitration online service *Social Science In Natural Resource Management Systems* Marc L Miller,Richard P Gale,Perry J

Brown,2019-07-11 This book is about the conduct and contributions of applied social science It represents the beginning of a new intellectual tradition in applied social science and its purpose is to foster an exchange among the variety of social scientists who are concerned with natural resource policy The Greening of Canada G. Bruce Doern,Thomas

Conway,1994-12-15 Environmental matters have become increasingly important in Canadian and world policy agendas In this study G Bruce Doern and Thomas Conway trace the development of Canadian environment policy giving an in depth account of twenty years of environmental politics politicians institutions and decisions as seen through the evolution of Ottawa s policy agency Environment Canada The Greening of Canada is an extensively researched look at the entire period from the early 1970s to the present and is the most complete and integrated analysis yet of federal environmental institutions and key decisions From Great Lakes pollution to the Green Plan from the Stockholm Conference to the post Rio Earth Summit era the authors deal with both domestic and international events and influences on Ottawa s often abortive efforts to entrench a green agenda into national politics The book explores the crucial relationships of institutional and political power directing attention at the DOE and its parade of ministers intra cabinet battles federal provincial relations business relations and public opinion and international and Canada U S relations It also examines important topics from acid rain policy to the politics of establishing national parks and from the Green Plan to the realities of environmental enforcement Employing a framework cast as the double dynamic of environmental policy making the authors show the growing struggle between the management of power among key institutions and the need to accommodate a biophysical realm characterized by increased uncertainty as well as scientific and technological controversy **Restoration of Puget Sound Rivers** David R.

Montgomery,Susan Bolton,Derek B. Booth,Leslie Wall,2015-12-31 The recent listing of Pacific salmon under the Endangered Species Act has led to substantial interest in the scientific basis for river restoration in the Pacific Northwest Millions of dollars in state and federal funding have been programmed for habitat restoration efforts to stem the decline of salmon populations in the region This volume addresses the need for a solid understanding of fluvial processes and aquatic ecology in order to predict both river and salmonid response to restoration projects In the Pacific Northwest as in most regions of the United States we are still learning about the processes that create habitat and river structure how those processes influence aquatic ecosystems and how to gauge the response of river systems to both land use changes and restoration efforts River systems are still responding to historic changes and degraded habitat may not be restored successfully if natural conditions are not well understood particularly if massive changes in watershed hydrology or other processes are the root cause These

issues faced in the development of regional river restoration programs are by no means unique to the Northwest and so the initiation of a regional program of river restoration provides an opportunity to evaluate the state of river restoration in general. The eighteen chapters of *Restoration of Puget Sound Rivers* presented by the region's experts at a symposium of the Society for Ecological Restoration examine geological and geomorphological controls on river and stream characteristics and dynamics, biological aspects of river systems in the region, and the application of fluvial geomorphology, civil engineering, riparian ecology, and aquatic ecology in efforts to restore Puget Sound Rivers. This volume will be of interest to geomorphologists, aquatic biologists, civil engineers, planners, and all those interested in the interface of science and policy in addressing one of the fundamental environmental challenges of the twenty-first century.

The Laws That Shaped America Dennis W. Johnson, 2009-05-31 Dennis W. Johnson tells the story of fifteen major laws enacted over the course of two centuries of American democracy, for each looking at the forces and circumstances that led to its enactment, the often tempestuous political struggles, the political players who were key in proposing or enacting the legislation, and the impact of the legislation and its place in American history.

Geographical Targeting for Poverty Alleviation David Bigman, Hippolyte Fofack, 2000-01-01 In many developing countries, there are large differences in economic conditions and the standard of living between regions, and even between communities within the same region. In many countries, poverty has a clear geographic dimension, since the poor are often concentrated in pockets of poverty. Therefore, the design of poverty alleviation policies must also have a significant spatial component. Although development projects are carefully designed and meticulously evaluated for cost effectiveness and benefits, too many of them are not sufficiently targeted geographically. The growing availability and use of spatial data organized in a computer system, such as a geographical information system (GIS), makes it more feasible to analyze the impact of projects in specific locales and to achieve more effective targeting. *Geographical Targeting for Poverty Alleviation* introduces the basic concepts of a GIS. It also demonstrates how to organize geographic and nongeographic data. In addition, it presents different methods for using the data of the Household Income and Expenditure Survey together with other surveys and the population census to provide estimates for the standard of living and the incidence of poverty in different geographical areas of a country. Ultimately, these estimates should be used to establish guidelines for targeting poverty alleviation projects. This publication illustrates different GIS applications for identifying the project's target population, determining the project's spatial sphere of influence, or deciding where to locate public facilities. This publication is of interest to task managers, economists, development researchers, and geographers.

Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is really remarkable. This extraordinary book, aptly titled "**Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform**," written by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound affect our existence. Throughout this critique, we will delve to the book is central themes, evaluate its unique writing style, and assess its overall influence on its readership.

Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform

Introduction

In the digital age, access to information has become easier than ever before. The ability to download Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform has opened up a world of possibilities. Downloading Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and

Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform

validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform Books

1. Where can I buy Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.

Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform

7. What are Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Making Bureaucracies Think The Environmental Impact Statement Strategy Of Administrative Reform books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
