for Successful English Language Teaching Thomas S. C. Farrell,George M. Jacobs,2020-11-26 This book is about how to teach English as a second language and how second language students learn With Communicative Language Teaching CLT at its centre it takes a practical approach to second language teaching backed up by clearly explained theory Presenting eight essential principles across twelve chapters the book covers Learner Autonomy Social Learning Integrated Curriculum Meaning Diversity Thinking Skills Alternative Assessment and Teacher Co learning and shows how technology and reflective teaching can be used to support and enhance these essentials in the classroom Combining theory and practice Essentials for Successful English Language Teaching explains how these principles interweave and support each other within the CLT paradigm demonstrating why they are best implemented as a whole rather than one at a time Now revised and brought fully up to date this new edition includes A brand new chapter covering technology and cooperation in teaching practice and how they support CLT based activities Vignettes for each essential principle to consolidate theory and demonstrate best practice Updated real world examples drawing on teaching experiences from North America Africa and Asia Taking a big picture view that assumes no prior knowledge of linguistics or language education Essentials for Successful English Language Teaching is an energising and fun guide for language practitioners *What Research Really Says about Teaching and Learning to Read*

Stephen B. Kucer,2008 This groundbreaking collection examines official views of the teaching and learning of reading those endorsed by the National Reading Panel No Child Left Behind and Reading First initiatives and challenges the assumptions on which the views are based Together the contributors offer an alternate vision to currently accepted ideas and practices in reading education What Research Really Says about Teaching and Learning to Read provides historical context for the current reading debates and then examines forms of resistance to existing policies The contributors with support of NCTE s Commission on Reading synthesize a broad range of research concerning the nature of reading how it is learned and its development across the grades They examine specific curricular and instructional strategies for reading development in children and adolescents They also offer a powerful decision making matrix to help evaluate reading curricula as well as a research based collection of best practices Recognizing that classrooms are becoming more ethnically racially and linguistically diverse this pioneering book addresses the needs of multilingual students and of readers who struggle under current national reading policies The contributors highlight the transformative power of professional development and celebrate success stories in the era of No Child Left Behind and Reading First From publisher description STEM
