Commodifying Communism David L. Wank,1999 Commodifying Communism is an ethnographically grounded account of the institutional organization and political consequences of China's historically unprecedented market growth Drawing upon almost two years of ethnographic fieldwork this book challenges conventional views of post communist emerging markets being tied to the retreat of the state David Wank shows how entrepreneurs running private trading companies in Xiamen City Fujian Province one of China's five special economic zones maximize profit and security through patron client networks with local state agents The book examines how processes of opportunity exchange expectations and advantage are constrained by both statist and popular institutions in market clientelism It also considers the implications of market clientelism for the dynamism of China's emerging market economy relative to Eastern European post communist economies and its political consequences for state society and center local relations **Capitalism without Democracy** Kellee S.

Tsai,2011-06-15 Over the past three decades China has undergone a historic transformation Once illegal its private business sector now comprises 30 million businesses employing more than 200 million people and accounting for half of China's Gross Domestic Product Yet despite the optimistic predictions of political observers and global business leaders the triumph of capitalism has not led to substantial democratic reforms In Capitalism without Democracy Kellee S Tsai focuses on the activities and aspirations of the private entrepreneurs who are driving China's economic growth The famous images from 1989 of China's new capitalists supporting the students in Tiananmen Square are Tsai finds outdated and misleading Chinese

entrepreneurs are not agitating for democracy Most are working eighteen hour days to stay in business while others are saving for their one child s education or planning to leave the country Many are Communist Party members Remarkably Tsai writes most entrepreneurs feel that the system generally works for them She regards the quotidian activities of Chinese entrepreneurs as subtler and possibly more effective than voting lobbying and protesting in the streets Indeed major reforms in China s formal institutions have enhanced the private sector s legitimacy and security in the absence of mobilization by business owners In discreet collaboration with local officials entrepreneurs have created a range of adaptive informal institutions which in turn have fundamentally altered China s political and regulatory landscape Based on years of research hundreds of field interviews and a sweeping nationwide survey of private entrepreneurs funded by the National Science Foundation *Capitalism without Democracy* explodes the conventional wisdom about the relationship between economic liberalism and political freedom *Unofficial China* Perry Link,2019-04-25 This book presents a view of social life in China and discusses different methods for studying contemporary China as a tool for introducing students to the study of popular culture Through a diverse set of case studies it introduces readers to a wide range of issues facing Chinese society Faith, Finance, and Economy Tanweer Akram,Salim Rashid,2020-03-10 This open access book seeks to foster a multidisciplinary understanding of the ties between faith financial intermediation and economic progress by drawing on research across economics finance history philosophy ethics theology public policy law and other disciplines Chapters in this edited volume examine themes as consequential as economic opportunities real world outcomes and faith values and consumerism faith financial intermediation and economic development in Western and Islamic societies and the impact of faith issues on US workers on the workplace and religion and on the characteristics of good wealth Though engaging with difficult questions this book is written in an accessible style to be enjoyed by laypeople and scholars alike *The Cambridge History of Communism: Volume 3, Endgames? Chinese Society on the Eve of Tiananmen Deborah Davis,Ezra Vogel,2020-10-26 By the late 1970s state communism was everywhere in retreat First in Eastern Europe then in China and the Soviet Union party leaders were compelled to devise fundamental departures from the economic procedures and structures they had confidently installed at the outset of their revolutionary victories Perhaps no country departed more rapidly from communist economic structures than China Within five years of Mao Zedong s death reformers led by Deng Xiaoping had dismantled the people s communes and created a range of markets that established the institutional foundations for a new form of socialism But unlike the Soviets and Eastern Europeans the Chinese reformers refused to consider parallel changes in political institutions The demonstrations in Beijing in 1989 made it clear that post Mao economic policies had created unavoidable political consequences for the society and its leaders In individual case studies the twelve contributors to this volume document the uneven decollectivization and decentralization of China s

economy in the post Mao years and the great diversity of the social and political consequences They deal with the effects of the more materialistic and individualistic reward system on both public and private life in the countryside and in urban settings and the new expectations that economic changes engendered *Doing Business in China* Geoffrey

Murray,2014-01-21 Covers a wide range of economic topics and explains China s economic reforms the political thinking behind them and their impact on Chinese and foreigners alike *Remains of the Everyday* Joshua Goldstein,2020-12-22

Remains of the Everyday traces the changing material culture and industrial ecology of China through the lens of recycling Over the last century waste recovery and secondhand goods markets have been integral to Beijing s economic functioning and cultural identity and acts of recycling have figured centrally in the ideological imagination of modernity and citizenship On the one hand the Chinese state has repeatedly promoted acts of voluntary recycling as exemplary of conscientious citizenship On the other informal recycling networks from the night soil carriers of the Republican era to the collectors of plastic and cardboard in Beijing s neighborhoods today have been represented as undisciplined polluting and technologically primitive due to the municipal government s failure to control them The result Joshua Goldstein argues is the repeatedly re inscribed exclusion of waste workers from formations of modern urban citizenship as well as the intrinsic liminality of recycling itself as an economic process **Hearings, Reports and Prints of the Senate Committee on the Judiciary**
