Making Iron On The Bald Eagle Roland Curtins Ironworks And Workers Community:

Making Iron on the Bald Eagle Gerald G. Eggert, 2000 Eggert analyzes the workforce and describes life in the workers village The relationships lifestyles and housing of the Curtins in contrast to those of their employees offer insights into the social history of the period

Mastering Iron Anne Kelly Knowles, 2013-01-15 Veins of iron run deep in the history of America Iron making began almost as soon as European settlement with the establishment of the first ironworks in colonial Massachusetts Yet it was Great Britain that became the Atlantic world s dominant low cost high volume producer of iron a position it retained throughout the nineteenth century It was not until after the Civil War that American iron producers began to match the scale and efficiency of the British iron industry In *Mastering Iron* Anne Kelly Knowles argues that the prolonged development of the US iron industry was largely due to geographical problems the British did not face Pairing exhaustive manuscript research with analysis of a detailed geospatial database that she built of the industry Knowles reconstructs the American iron industry in unprecedented depth from locating hundreds of iron companies in their social and environmental contexts to explaining workplace culture and social relations between workers and managers She demonstrates how ironworks in Alabama Maryland Pennsylvania and Virginia struggled to replicate British technologies but in the attempt brought about changes in the American industry that set the stage for the subsequent age of steel Richly illustrated with dozens of original maps and period art work all in full color *Mastering Iron* sheds new light on American ambitions and highlights the challenges a young nation faced as it grappled with its geographic conditions

A Stranger Here Below Charles Fergus, 2019-03-05 For fans of C J Box s Joe Pickett series a fabulous historical mystery series set in early America Deeply imagined and intricately plotted *A Stranger Here Below* marries richly textured historical fiction with the urgency of a mystery novel Fergus knows certain things deep in the bone horses hunting the folkways of rural places and he weaves this wisdom into a stirring tale Geraldine Brooks author of *March* and *People of the Book* Set in 1835 in the Pennsylvania town of Adamant Fergus s first novel in a new mystery series introduces Sheriff Gideon Stoltz who as a young deputy is thrust into his position by the death of the previous sheriff Gideon faces his first real challenge as death rocks the small town again when the respected judge Hiram Biddle commits suicide No one is more distraught than Gideon whom the old judge had befriended as a mentor and hunting partner Gideon is regarded with suspicion as an outsider he s new to town and Pennsylvania Dutch in the back country Scotch Irish settlement And he found the judge s body Making things even tougher is the way the judge s death stirs up vivid memories of Gideon s mother s murder the trauma that drove him west from his home in the settled Dutch country of eastern Pennsylvania He had also discovered her body At first Gideon simply wants to learn why Judge Biddle killed himself But as he finds out more about the judge s past he realizes that his friend s suicide was spurred by much more than the man s despair Gideon s quest soon becomes more complex as it takes him down a dangerous path into the past *A Stranger Here Below* is so atmospheric so compelling and convincing that readers will taste

the grit of the dirt roads cringe at the unsanitary conditions and medical superstitions that inflame a flu epidemic and marvel at the immensely arduous task of carrying out an investigation using the primitive tools of the early 1800s Fergus leaves us breathlessly waiting for the next Gideon Stoltz mystery *Pennsylvania Farming* Sally McMurry, 2017-06-08 Since precolonial times agriculture has been deeply woven into the fabric of Pennsylvania's history and culture *Pennsylvania Farming* presents the first history of Pennsylvania agriculture in more than sixty years and offers a completely new perspective Sally McMurry goes beyond a strictly economic approach and considers the diverse forces that helped shape the farming landscape from physical factors to cultural repertoires to labor systems Above all the people who created and worked on Pennsylvania's farms are placed at the center of attention More than 150 photographs inform the interpretation which offers a sweeping look at the evolution of Pennsylvania's agricultural landscapes right up to the present day **Evan Pugh's Penn State** Roger L. Williams, 2018-03-12 When Evan Pugh became the first president of Pennsylvania's Farmers High School later to be known as The Pennsylvania State University the small campus was in disrepair and in dire need of leadership Pugh was young barely into his 30s but he was energetic educated and visionary During his tenure as president he molded the school into a model institution of its kind America's first scientifically based agricultural college In this volume Roger Williams gives Pugh his first book length biographical treatment Williams recounts Pugh's short life and impressive career from his early days studying science in the United States and Europe to his fellowship in the London Chemical Society during which he laid the foundations of the modern ammonium nitrate fertilizer industry and back to Pennsylvania where he set about developing upon the soil of Pennsylvania the best agricultural college in the world and worked to build an American academic system mirroring Germany's state sponsored agricultural colleges This last goal came to fruition with the passage of the Morrill Act in 1862 just two years prior to Pugh's death Drawing on the scientist academic administrator's own writings and taking a wide focus on the history of higher education during his lifetime Evan Pugh's Penn State tells the compelling story of Pugh's advocacy and success on behalf of both Penn State and land grant colleges nationwide Despite his short life and career Evan Pugh's vision for Penn State made him a leader in higher education This engaging biography restores Pugh to his rightful place in the history of scientific agriculture and education in the United States **Journal of Appalachian Studies**, 2001 *Technology and Culture*, 2001 **Society for Industrial Archeology Newsletter**, 2001 **Book Review Digest**, 2002 **American Iron, 1607-1900** Robert B. Gordon, 2020-03-24 Winner of the Professional and Scholarly Publishing Award for General Engineering from the Association of American Publishers Originally published in 1996 By applying their abundant natural resources to ironmaking early in the eighteenth century Americans soon made themselves felt in world markets After the Revolution ironmakers supplied the materials necessary to the building of American industry pushing the fuel efficiency and productivity of their furnaces far ahead of their European rivals In *American Iron 1607-1900* Robert B Gordon draws on recent archaeological findings as well as archival research to present an

ambitious comprehensive survey of iron technology in America from the colonial period to the industry's demise at about the turn of the twentieth century. Closely examining the techniques and the hows of ironmaking in its various forms, Gordon offers new interpretations of labor innovation and product quality in ironmaking along with references to the industry's environmental consequences. He establishes the high level of skills required to ensure efficient and safe operation of furnaces and to improve the quality of iron product. By mastering founding, fining, puddling, or bloom smelting, ironworkers gained a degree of control over their lives not easily attained by others. **American Book Publishing Record**, 2000

Historic Buildings of Centre County, Pennsylvania Centre County Library. Historic Registration Project, Gregory Ramsey, 1980 This volume of photographs and text springs from the desire to identify and salvage the authentic character of our past as seen in our built environment. Centre County provides a unique mix of historic buildings and villages in a rural landscape setting that is a rich record of development in the area since the earliest days of settlement. Local buildings preserve traces of the changing economic activities: iron manufacturing and agriculture, travel and trade, and the growth of the Penn State University and stories related to these buildings and the men who built them create a fascinating picture of life in the county for more than 150 years. Each area of the county contains examples of buildings that make up a complete picture of the evolution of local building types. Structures described in the detailed text and striking photographs include log houses and round barns, the Georgian and Victorian mansions of the iron masters and landowners, sturdy inns and mills, hotels, churches, farms, and buildings of Beaux Arts classicism on the University campus. The book also provides a glossary of descriptive terms for historic buildings, defines styles and local building types, and gives information on the activities and agencies that support historic preservation. *Forthcoming Books* Rose Arny, 1999 **Alternative Press Index**, 2001
