The Making of a Ruling Class Philip Jenkins, 2002-08-22 A study of the formation of a new ruling class in the years prior to British industrialisation

*Elite Women in Ascendancy Ireland, 1690-1745* Rachel Wilson, 2015 The late seventeenth and early eighteenth century was a period of great social and political change within Ireland as the Protestant Ascendancy gained control of the country aided by the English government and aristocracy with whom the ruling class in Ireland mixed through marriage and travel The resulting Anglo Irish elite with its distinct transnational identity differed markedly from the preceding Irish elite but at the same time because of its Irish dimension was very different also from the contemporary English and Scottish upper classes Women played key roles in this Anglo Irish elite and the nature of the Protestant Ascendancy can only be completely understood by considering women's roles fully This book provides a thorough examination of the role of women in Ascendancy Ireland It discusses marriage family and social life explores women's roles in economic and political life and in charitable activities and places Irish elite women of this period in their wider historiographical context The book is based on extensive original research including among the papers of aristocratic families in Ireland and Britain and provides a wealth of detail on elite women's lives in this period Rachel Wilson completed her doctorate in modern history at Queen's University Belfast

*Women of Quality* Ingrid H. Tague, 2002 An examination of the interaction between ideology and experience in the lives of English women during a period of great social and intellectual change Focusing on the complex relationship between discourse and experience *Women of Quality* examines the role of gender in aristocratic women's daily lives during a period of significant cultural change In the years following the Glorious Revolution didactic writers and other social critics responded to a perceived crisis of gender relations by creating a new discourse of natural feminine behavior in opposition to the luxury and decadence of fashionable women Modern scholars have often portrayed this agenda as representing the rise of a middle class ideology but Ingrid Tague argues that the new rhetoric held enormous appeal for those women who would appear to be its greatest targets wealthy fashionable women of quality Using the correspondence and diaries of these women Tague traces the ways in which they adopted adapted and exploited ideals of femininity In their hands feminine values could become powerful tools that enabled them to compete for status and reputation Ironically by identifying femininity with private trivial concerns these ideals created unique opportunities for elite women Female participation in informal social and political activities placed women at the heart of aristocratic power in the early eighteenth century even as they employed the language of wifely subordination and domesticity Ingrid Tague is Assistant Professor of History at the University of Denver

*Cardiganshire County History Volume 2* Geraint H. Jenkins, Richard Suggett, Eryn Mant White, 2019-09-15 *Cardiganshire County History Volume 2* is published by the University of Wales Press on behalf of the Ceredigion Historical Society in association with the Royal Commission on the Ancient and Historical Monuments of Wales This volume provides a comprehensive and authoritative

account written by distinguished authors in fifteen chapters of the wide range of social economic political religious and cultural forces that shaped the ethos and character of the county of Cardiganshire over a period of 600 years This was a period of great turbulence and change It witnessed conquest and castle building the impact of the Glynd ũr rebellion the coming of the Protestant Reformation and the turmoil of civil war Over time the inhabitants of the county developed a sense of themselves as a distinctive people who dwelt in a recognisable entity From very early on literate people took pride in their native patch in the eyes of the learned Sulien d 1091 and his sons the land of Ceredig was a sacred patria Poets and scribes burnished the reputation of the county and a vibrant poem by Si n Morys in 1577 maintained that it was the best of shires and the fold of the generous ones

1715 Daniel Szechi,2006-01-01 Lacking the romantic imagery of the 1745 uprising of supporters of Bonnie Prince Charlie the Jacobite rebellion of 1715 has received far less attention from scholars Yet the 15 just eight years after the union of England and Scotland was in fact a more significant threat to the British state This book is the first thorough account of the Jacobite rebellion that might have killed the Act of Union in its infancy Drawing on a substantial range of fresh primary resources in England Scotland and France Daniel Szechi analyzes not only large and dramatic moments of the rebellion but also the smaller risings that took place throughout Scotland and northern England He examines the complex reasons that led some men to rebel and others to stay at home and he reappraises the economic religious social and political circumstances that precipitated a Jacobite rising Shedding new light on the inner world of the Jacobites Szechi reveals the surprising significance of their widely supported but ultimately doomed rebellion

### Italy and the Grand Tour

Jeremy Black,2003-01-01 For members of the social elite in 18th century England extended travel for pleasure came to be considered part of an ideal education as well as an important symbol of social status Italy and especially Rome a fashionable exciting and comfortable city became the focus of such early tourists interest In this book historian Jeremy Black recreates the actual tourist experiences of those who travelled to Italy on a Grand Tour Relying on the private diaries and personal letters of travellers rather than on the self conscious accounts of literary travellers who wrote for wider audiences the book presents an authentic picture of how British tourists experienced

Italy its landscapes women food music Catholicism and more illustrations the book highlights the discrepancy between the idealised view of the Grand Tour and its reality what people were meant to do was not necessarily what they did what the guide books described as splendid was not always so perceived Black quotes British visitors as they reflect on their trips and he discusses what their Italian experiences meant to them And he considers the intriguing effects of tourism on British culture during this most exciting of centuries     Glamorgan Society Prys Morgan,1988     **Society in Early Modern England** Phil Withington,2010-09-20 The sixteenth and seventeenth centuries have traditionally been regarded by historians as a period of intense and formative historical change so much so that they have often been described as early modern an epoch separate from the medieval and the modern Paying particular attention to England this book reflects on the implications of this categorization for contemporary debates about the nature of modernity and society The book traces the forgotten history of the phrase early modern to its coinage as a category of historical analysis by the Victorians and considers when and why words like modern and society were first introduced into English in the sixteenth and seventeenth centuries In so doing it unpicks the connections between linguistic and social change and how the consequences of those processes still resonate today A major contribution to our understanding of European history before 1700 and its resonance for social thought today the book will interest anybody concerned with the historical antecedents of contemporary culture and the interconnections between the past and the present     **Morgannwg** ,1989     *Glamorgan County History* Prys Morgan,1988

**Patriarchs and Parasites** David W. Howell,1986 The 18th century was the high noon of the gentry's influence and power and this study is the first to investigate the fortunes and character of the ruling class of this particular isolated corner of Britain during their golden age     *1905 and all that* Gareth Williams,1991     **Arts & Humanities Citation Index** ,1984 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world's leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals     **Subject Guide to Books in Print** ,1983     *Parliamentary History* ,1987     The gentry ,1978     **The Gentry** G.
