Laura Fulkerson Hodges

Making Of Chaucers English A Study Of Words:

The Making of Chaucer's English Christopher Cannon, 1998 The Making of Chaucer's English undertakes a substantial reappraisal of the place Chaucer's English occupies in the history of the English language and the language of English literature It attacks the widespread presumption that Chaucer invented literary English and argues instead that Chaucer's English is generally traditional It shows that Chaucer's linguistic innovation was as much performance as fact but it also traces the linguistic strategies that made and make the performance of originality so believable It also includes a valuable history of every word Chaucer uses The book also interrogates the theory and methodology of historicising languages so even as it explores how Chaucer's words matter it also questions why these particular words have acquired such importance for poets and scholars alike for 600 years

Language, Linguistics and Middle English Literature Elizabeth Allen, Catherine Sanok, 2025-03-18 Explores the intersections between two fundamental approaches to medieval literature shedding new light on texts ranging from The Canterbury Tales to Le Morte Darthur This volume identifies new methods and questions for language based approaches to medieval English literature and literature based approaches to Middle English by identifying philology as a cross disciplinary practice shared by literary scholarship and linguistics How can late medieval cultural perception and social participation be illuminated by literary language What can language forms tell us about the experience of England's multilingual landscape Contributors trace the relay between imaginative literature and an expanding Middle English lexicon the literary affordances of phonological and morphological features of Middle English and the way that medieval literature engaged with its multilingual sources Essays also consider how social authority is negotiated in language with a particular focus on highly charged words such as corruption instability and treason and highly charged phenomena

such as language contact allusion and genre experiments Together they show that literary and linguistic approaches may inform each other to open new avenues of research on a wide variety of texts including Chaucer's *The Canterbury Tales* and *Troilus and Criseyde* Malory's *Le Morte Darthur* Gower's *Confessio Amantis* Lydgate's *Reson and sensuallyte* and Hoccleve's *Regement of Princes* The volume thus pays tribute to the influence on both fields of distinguished medievalist Karla Taylor

Chaucer and Array Laura Fulkerson Hodges, 2014 An analysis of the ways in which Chaucer uses details of costume clothing and fabric enhancing our understanding of and shedding fresh insights into his work The use Chaucer made of costume rhetoric and its function within his body of works are examined here for the first time The study explores Chaucer's knowledge of the conventional imagery of medieval literary genres especially medieval romances and fabliaux and his manipulation of rhetorical conventions through variations and omissions In particular it addresses Chaucer's habit of playing upon his audience's expectations derived from their knowledge of the literary genres involved and why he omits lengthy passages of costume rhetoric in his romances but includes them in some of his comedic works It also discusses the numerous minor facets of costume rhetoric employed in decorating his texts Chaucer and Array responds to the questions posed by medievalists concerning Chaucer's characteristic pattern of apportioning descriptive detail in his characterization by costume It also examines his depiction of clothing and textiles representing contemporary material culture while focusing attention on the literary meaning of clothing and fabrics as well as on their historic economic and religious signification Laura F Hodges blends her interests in medieval literature and the history of costume in her publications specializing in the semiotics of costume and fabrics in literature A teacher of English literature for a number of years she holds a doctorate in literature from Rice University **Living Death in Medieval French and English Literature** Jane Gilbert, 2011-02-17

Medieval literature contains many figures caught at the interface between life and death the dead return to place demands on the living while the living foresee organize or desire their own deaths Jane Gilbert's original study examines the ways in which certain medieval literary texts both English and French use these living dead to think about existential ethical and political issues In doing so she shows powerful connections between works otherwise seen as quite disparate including Chaucer's *Book of the Duchess* and *Legend of Good Women* the *Chanson de Roland* and the poems of Francois Villon Written for researchers and advanced students of medieval French and English literature this book provides original provocative interpretations of canonical medieval texts in the light of influential modern theories especially Lacanian psychoanalysis presented in an accessible and lively way *A Companion to Chaucer* Peter Brown, 2008-04-15 Designed as both a contribution to original research and as a stimulating and accessible text this volume is a helpful reliable responsive and
