Robert and James Adam, Architects of the Age of Enlightenment Ariyuki Kondo, 2015-10-06 During the second half of the eighteenth century British architecture moved away from the dominant school of classicism in favour of a more creative freedom of expression At the forefront of this change were architect brothers Robert and James Adam Kondo s work places them within the context of eighteenth century intellectual thought **British Clubs and Societies 1580-1800** Peter Clark, 2000-01-06 Modern freemasonry was invented in London about 1717 but was only one of a surge of British associations

in the early modern era which had originated before the English Revolution By 1800 thousands of clubs and societies had swept the country Recruiting widely from the urban affluent classes mainly amongst men they traditionally involved heavy drinking feasting singing and gambling They ranged from political religious and scientific societies artistic and literary clubs to sporting societies bee keeping and birdfancying clubs and a myriad of other associations **Adam Smith: An** Enlightened Life Nicholas T. Phillipson, 2010-10-05 Nicholas Phillipson s intellectual biography of Adam Smith shows that Smith saw himself as philosopher rather than an economist Phillipson shows Smith's famous works were a part of a larger scheme to establish a Science of Man which was to encompass law history and aesthetics as well as economics and ethics Phillipson explains Adam Smith s part in the rapidly changing intellectual and commercial cultures of Glasgow and Edinburgh at the time of the Scottish Enlightenment Above all Phillipson explains how far Smith's ideas developed in dialog with his closest friend David Hume Publisher's description Mending Bodies, Saving Souls Guenter B. Risse, 1999-04-15 By chronicling the transformations of hospitals from houses of mercy to tools of confinement from dwellings of rehabilitation to spaces for clinical teaching and research from rooms for birthing and dying to institutions of science and technology this book provides a historical approach to understanding of today s hospitals The story is told in a dozen episodes which illustrate hospitals in particular times and places covering important themes and developments in the history of medicine and therapeutics from ancient Greece to the era of AIDS This book furnishes a unique insight into the world of meanings and emotions associated with hospital life and patienthood by including narratives by both patients and care givers By conceiving of hospitals as houses of order capable of taming the chaos associated with suffering illness and death we can better understand the significance of their ritualized routines and rules From their beginnings hospitals were places of spiritual and physical recovery They should continue to respond to all human needs As traditional testimonials to human empathy and benevolence hospitals must endure as spaces of healing The Incendiary Jessica Warner, 2011-03-11 In 1776 and 1777 during the American Revolution a young Scot known only as John the Painter took his war to England by committing acts of terror in the dockyards of the mighty British navy This is the first full length biography of that brilliant but disturbed young man His story offers chilling parallels to the present and insights into why certain young men are driven to commit unspeakable crimes Warner has written a book of history that reads like a picaresque novel but always with a modern twist Its hero travels to France and receives the blessing of the American envoy there King George III offers a reward for his capture Bow Street Runners are sent out inpursuit Newspapers print sensational stories A bill to suspend habeas corpus is rushed through Parliament and American privateers the unlawful combatants of their day are held without being charged The Incendiary takes readers on a fascinating journey from Europe to colonial America and finally to the gallows at Portsmouth In this atmospheric and deftly researched tale of a young man who tried to bring down a superpower Warner has crafted a popular history with contemporary implications Enlightenment's Frontier Fredrik Albritton
