Making Peace In The Global Village:

Making Peace in the Global Village, 1981-01-01 Advocates the role of a Christian approach to peacemaking in an age of increased militarism nuclear proliferation and an escalating international arms race **Gospel in the Global Village** Katharine Jefferts Schori, 2009-10 In her second book Presiding Bishop Jefferts Schori explores issues and challenges of deep concern to Christians around the world Leader's Guide for Making Peace in the Global Village by Robert McAfee Brown Katherine A. Gehris, Paul D. Gehris, 198? With Roots and Wings Jay B. McDaniel, 2009-06-26 In *With Roots* to be open to the insights of people of other faiths as well as to share our own and to become centered on God McDaniel shows where the new universe story of Thomas Berry and Brian Swimme and the Christian story meet and differ where they complement and where they supplement one another *With Roots Wings* shows how to experience both green grace that comes from opening one's self to the rhythms of the cosmos and red grace symbolized in the crucifixion of Christ both of which are vital to a Christian ecological spirituality and praxis Most impressive is McDaniel's ability to absorb and reflect important lessons Christians can learn from Native Americans from Buddhists and Hindus from Muslims and Jews The complexity of the issues he addresses and his ability to explain them simply and clearly makes *With Roots and Wings* must reading for the general reader as well as ecological activists clergy and laity alike Nothing else comes near it in depth power and insight The Economics of Conflict and Peace Jurgen Brauer, William G. Gissy, 2017-07-05 A collection of original research papers on economic aspects of conflict and peace including a number of papers on developing nations **The Future of Peace and Justice in the Global Village** Thomas R. McFaul, 2006-09-30 Many authors have written on the effect technology economics and politics have on globalization but few have addressed the potential impact of world religions on the future direction of globalization McFaul's fascinating book explores what others have not the part the world's major religions Hinduism Buddhism Jainism Zoroastrianism Judaism Christianity and Islam will play in bringing either greater peace and justice or hatred and hostility to the global village Will these religions which exert the greatest amount of influence worldwide be a force for good or ill in the emerging global village of the 21st century This book answers that question and more Covering the religions to which the majority of world's population adheres it offers insight into the commonalities differences and potential for coming together to create peace to be found among the major faiths The world's seven major religions are covered and topics such as sexuality ethics violence and the tension between secular and sacred arenas are discussed for each McFaul argues that if the leaders and laity of these religions are able to find common ground efforts toward peace and justice in the global village can be more effective and lasting If they accentuate their differences he suggests they will only produce more hatred and hostility **Understanding Peace** Michael Allen Fox, 2013-11-12 *Understanding Peace* A Comprehensive Introduction fills the need for an original contemporary examination of peace that is challenging informative and empowering This well researched fully documented and highly accessible textbook moves beyond fixation on war to highlight the human

capacity for nonviolent cooperation in everyday life and in conflict situations After deconstructing numerous ideas about war and explaining its heavy costs to humans animals and the environment discussion turns to evidence for the existence of peaceful societies Further topics include the role of nonviolence in history the nature of violence and aggression and the theory and practice of nonviolence The book offers two new moral arguments against war and concludes by defining peace carefully from different angles and then describing conditions for creating a culture of peace Understanding Peace brings a fresh philosophical perspective to discussions of peace and also addresses down to earth issues about effecting constructive change in a complex world The particular strength of Understanding Peace lies in its commitment to reflecting on and integrating material from many fields of knowledge This approach will appeal to a diverse audience of students and scholars in peace studies philosophy and the social sciences as well as to general interest readers

Gods in the Global Village Lester R. Kurtz, 2012 In an era plagued by religious conflict the Third Edition of Gods in the Global Village directly responds to issues of social problems prevalent in the world today Using an engaging thought provoking style author Lester R Kurtz focuses on the relationship among the major faith traditions that inform the thinking and ethical standards of most people in the emerging global social order This book focuses on a central aspect of that common crisis A major assumption of this book is that all knowledge is shaped by the social context of the knower therefore both religious traditions and our studies of them are shaped by the context in which we construct them The author argues that religious pluralism will be a necessary precondition of the global village for the foreseeable future The question that faces us as a human community is not Which religious tradition is true or even Is any religious tradition true but rather How can we enable the various religious and secular traditions to coexist peacefully on the planet The text supports the belief that the sociology of religion itself a pluralistic discipline can provide invaluable insight into the most pressing problems of our time
