Making A Model Village:

Model Villages Tim Dunn, 2017-11-15 Part of the story of the seaside holiday and a fascinating sidelight on British social history the model village richly deserves its history written here by Britain's foremost village expert and advocate **Making Hong Kong** Pui-yin Ho, 2018-09-28 This insightful book provides a comprehensive survey of urban development in Hong Kong since 1841 Pui yin Ho explores the ways in which the social economic and political environments of different eras have influenced the city's development From colonial governance wartime experiences high density development and adjustments before and after 1997 through contemporary challenges this book explores forward looking ideas that urban planning can offer to lead the city in the future Evaluating the relationship between town planning and social change this book looks at how a local Hong Kong identity emerged in the face of conflict and compromise between Chinese and European cultures In doing so it brings a fresh perspective to urban research providing historical context and direction for the future development of the city Hong Kong's urban development experience offers not only a model for other Chinese cities but also a better understanding of Asian cities more broadly Urban studies scholars will find this an exemplary case study of a developing urban landscape Town planners and architects will also benefit from reading this comprehensive book as it shows how Hong Kong can be taken to the next stage of urban development and modernisation **Making a New World** Tom Avermaete, 2012 A heavily illustrated study of the foundations and working mechanisms of modern communities *The Many Roads to Becoming Modern* Chen Jiajian, 2022-03-30 The Many Roads to Becoming Modern explores collectivism in the context of contemporary rural Chinese history Following the history of a southern village from 1949 to the present the author attempts to understand the origin and current state of collectivity in rural China Along with other unique Chinese institutions such as the Danwei work unit system rural collectivism is the basis of New China's economic development Previous academic research on rural collectivism in general is limited to scattered historical fragments this book however is an empirical study of the actual historical process of rural collectivism Focusing on presenting a mechanism for universal interpretation the author illustrates the development of rural collectivism in southern Jiangsu using the historical research method revealing the characteristics of the Chinese society as it is Within seven chapters the author explains in detail the core features and evolution mechanism of the collective model throughout different periods since the establishment of the People's Republic of China This book will be of interest to all levels of students and scholars who study contemporary China modern Chinese history and collectivism especially those who are concerned with rural area development and the land systems Islamic NGOs in Bangladesh Mohammad Musfequs Salehin, 2016-01-13 NGOs Non Governmental Organizations have emerged in both a development and aid capacity in Bangladesh providing wide reaching public services to the country's population living in extreme poverty However resistance to and limitations of NGO led development which in conjunction with Bangladesh's social transformation led to a new religious based NGO development practice Looking at the role of Islamic NGOs in

Bangladesh the book investigates new forms of neoliberal governmentality supported by international donors It discusses how this form of social regulation produces and reproduces subjectivities particularly Muslim women subjectivity and has combined religious and economic rationality further complicating the boundaries and the relationship between Islam modernity and development The book argues that both secular and Islamic NGOs target women in the name of empowerment but more importantly as the most reliable partners to meet their debt obligations of micro financing schemes including shari a based financing The targeted women in turn experience Islamic NGOs as less coercive and more sensitive to their religious environment in the rural village community than are secular NGOs Providing a comparative study of the role of religious and secular NGOs in the implementation of neoliberal policies and development strategies this book will be a significant addition to research on South Asian Politics Development Studies Gender Studies and Religion *Making of Entrepreneurs*

Egypt's Other Wars Nancy Elizabeth Gallagher, 2021-10-29 Three devastating epidemics swept Egypt in the 1940 s killing more people than all the wars Egypt has fought in the twentieth century Egypt s Other Wars vividly reconstructs the nation s struggle against malaria relapsing fever and cholera and explores the unique combination of forces that put public health at the top of the national political agenda Egypt in the 1940 s as in the throes of a nationalist upheaval Nationalists of all political ideologies attributed the severe epidemics that the country was experiencing to Egypt s status as an underdeveloped and colonized nation The epidemics were therefore viewed for the first time as not only a public health crisis but also a political problem that called for a political solution

The Boy's Miscellany , 1864

Egypt's Housing Crisis Yahia Shawkat, 2020-09-08 A provocative analysis of the roots of Egypt s housing crisis and the ways in which it can be tackled Along with football and religion housing is a fundamental cornerstone of Egyptian life it can make or break marriage proposals invigorate or slow down the economy and popularize or embarrass a ruler Housing is political Almost every Egyptian ruler over the last eighty years has directly associated himself with at least one large scale housing project It is also big business with Egypt currently the world leader in per capita housing production building at almost double China s rate and creating a housing surplus that counts in the millions of units Despite this Egypt has been in the grip of a housing crisis for almost eight decades From the 1940s onward officials deployed a number of policies to create adequate housing for the country s growing population By the 1970s housing production had outstripped population growth but today half of Egypt s one hundred million people cannot afford a decent home Egypt s Housing Crisis takes presidential speeches parliamentary reports legislation and official statistics as the basis with which to investigate the tools that officials have used to solve the housing crisis rent control social housing and amnesties for informal self building as well as the inescapable reality of these policies outcomes Yahia Shawkat argues that wars mass displacement and rural urban migration played a part in creating the problem early on but that neoliberal deregulation crony capitalism and corruption and neglectful planning have made things steadily worse ever since In the final analysis he asks is affordable housing for all really that hard to achieve
