Patriots and Traitors in Revolutionary Cuba, 1961-1981 Lillian

Guerra,2023-01-17 Authorities in postrevolutionary Cuba worked to establish a binary society in which citizens were either patriots or traitors This all or nothing approach reflected in the familiar slogan patria o muerte fatherland or death has recently been challenged in protests that have adopted the theme song patria y vida fatherland and life a collaboration by exiles that predictably has been banned in Cuba itself Lillian Guerra excavates the rise of a Soviet advised Communist culture controlled by state institutions and the creation of a multidimensional system of state security whose functions embedded themselves into daily activities and individual consciousness and reinforced these binaries But despite public performance of patriotism the life experience of many Cubans was somewhere in between Guerra explores these in between spaces and looks at Cuban citizens complicity with authoritarianism leaders exploitation of an earnest anti imperialist nationalism and the duality of an existence that contains elements of both support and betrayal of a nation and of an ideology

Operation Pedro Pan and the Exodus of Cuba's Children Deborah Shnookal, 2022-06-28 This in depth examination of one of the most controversial episodes in U S Cuba relations sheds new light on the program that airlifted 14 000 unaccompanied children to the United States in the wake of the Cuban Revolution Operation Pedro Pan is often remembered within the U S as an urgent rescue mission but Deborah Shnookal points out that a multitude of complex factors drove the exodus including Cold War propaganda and the Catholic Church's opposition to the island's new government Shnookal illustrates how and why Cold War scare tactics were so effective in setting the airlift in motion focusing on their context the rapid and profound social changes unleashed by the 1959 Revolution including the mobilization of 100 000 Cuban teenagers in the 1961 national literacy campaign Other reforms made by the revolutionary government affected women education religious schools and relations within the family and between the races Shnookal exposes how in its effort to undermine support for the revolution the U S government manipulated the aspirations and insecurities of more affluent Cubans She traces the parallel stories of the young Pedro Pans separated from their families in some cases indefinitely in what is often regarded in Cuba as a mass kidnapping and the children who stayed and joined the literacy brigades These divergent journeys reveal many underlying issues in the historically fraught relationship between the U S and Cuba and much about the profound social revolution that took place on the island after 1959 Publication of the paperback edition made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities

Globalization of an Educational Idea Ingrid Miethe, Tim Kaiser, Tobias Kriele, Alexandra Piepiorka, 2019-07-22 In this book authors showcase the worldwide spread of Workers Faculties as an example of both

cooperation between socialist countries in education and globalization processes in the field of education Based on extensive research carried out in Cuban German Mozambican and Vietnamese archives as well as expert interviews it combines detailed case studies of educational transfers and policy implementation with a discussion of theoretical approaches to the study of globalization in and of education Research on Workers Faculties provides an especially interesting example for the study of educational transfer between socialist countries as well as for the interplay of such transfers with processes of globalisation for two reasons On one hand the first Workers Faculties were established already shortly after the October Revolution in Russia and Workers Faculties continue to exist in Cuba until today A study of these institutions therefore provides a dynamic perspective covering the whole period of the existence of the socialist camp On the other hand the spread of the Workers Faculty idea to four continents allows for an analysis that takes into account widely differing local contexts This book offers an analysis of general trends and particularities in the history of the global spread of the Workers Faculty idea and its implementation in local contexts Finally it discusses the results with a view towards theories of globalization in the field of education as well as of specificities of processes of socialist globalization *The Politics of Education Reforms* Joseph Zajda, Macleans A. Font, Alfonso W. Quiroz, 2006-01-01 Jose Marti contributed greatly to Cuba's struggle for independence from Spain with words as well as revolutionary action Although he died before the formation of an independent republic he has since been hailed as a heroic martyr inspiring Cuban republican traditions **Rebel Literacy** Mark Abendroth, 2009 Rebel Literacy is a look at Cuba's

National Literacy Campaign of 1961 in historical and global contexts The Cuban Revolution cannot be understood without a careful study of Cuba's prior struggles for national sovereignty Similarly an understanding of Cuba's National Literacy Campaign demands an inquiry into the historical currents of popular movements in Cuba to make education a right for all The scope of this book though does not end with 1961 and is not limited to Cuba and its historical relations with Spain the United States and the former Soviet Union Nearly 50 years after the Year of Education in Cuba the Literacy Campaign's legacy is evident throughout Latin America and the Third World A world wide movement today continues against neoliberalism and for a more humane and democratic global political economy It is spreading literacy for critical global citizenship and Cuba's National Literacy Campaign is a part of the foundation making this global movement possible The author collected about 100 testimonies of participants in the Campaign and many of their stories and perspectives are highlighted in one of the chapters Theirs are the stories of perhaps the world's greatest educational accomplishment of the 20th Century and critical educators of the 21st Century must not overlook the arduous and fruitful work that ordinary Cubans many in their youth contributed toward a nationalism and internationalism of emancipation
