Making Art Work W. Patrick McCray, 2020-10-20 The creative collaborations of engineers artists scientists and curators over the past fifty years Artwork as opposed to experiment Engineer versus artist We often see two different cultural realms separated by impervious walls But some fifty years ago the borders between technology and art began to be breached In this book W Patrick McCray shows how in this era artists eagerly collaborated with engineers and scientists to explore new technologies and create visually and sonically compelling multimedia works This art emerged from corporate laboratories artists studios publishing houses art galleries and university campuses Many of the biggest stars of the art world Robert Rauschenberg Yvonne Rainer Andy Warhol Carolee Schneemann and John Cage participated but the technologists who contributed essential expertise and aesthetic input often went unrecognized Coming from diverse personal backgrounds this roster of engineers and scientists includes Frank J Malina the American rocket pioneer turned kinetic artist who launched the art science journal Leonardo and Swedish born engineer Billy Kliver who established the group Experiments in Art and Technology E A T At schools ranging from MIT to Caltech engineers engaged with such figures as artist Gyorgy Kepes and celebrity curator Maurice Tuchman Today we are in the midst of a new surge of corporate and academic promotion of projects and programs combining art technology and science Making Art Work reveals how artists and technologists have continually constructed new communities in which they exercise imagination display creative expertise and pursue commercial innovation

Making Art Together Mark Cooper, Lisa Sjostrom, 2007-08-01 Artist Mark Cooper aims to change the way you think about making art with kids Working with schools around the country Cooper has brought together scores of teachers and hundreds of children to make

remarkable collaborative art that has enlivened classrooms and public spaces and been displayed in the nation's most prestigious museums. In this inspiring practical idea-filled book, Cooper shows how any teacher, not just art teachers, can imagine and execute similar projects in their own classrooms. But more than that, Cooper transforms our sense of possibilities, arguing for a new view of art in schools. *Making Art Together* is a book about art education structured around big ideas that adults can flourish in the role of Master Artist, that the perspective of contemporary art offers liberating possibilities for rethinking art in schools, that art can and should be about the larger world, and thus naturally ties in to all areas of the curriculum. Most of all, Cooper shows us the power of collaboration. From mammoth freestanding sculptures to billboards against violence to maps of the world, the projects here are all planned, designed, and completed by children themselves. The resulting artwork is complex and ambitious on a scale that would be out of reach for any individual child. Working collaboratively using a distinctly democratic model, kids actually think and work like adult artists throughout every stage of the project. Together, the sky's the limit; the artistic and educational opportunities are boundless. *Making Art Together* is a bold, beautifully illustrated book that could, at a time when art budgets are being slashed, revitalize our sense of what art in schools can accomplish.
