The text identifies the main tenets of feminism as recognition of women s oppression and a determined effort through concerted strategies to resist and thwart this oppression and to navigate women out of peripheral positions into positions of power By showing that these tenets are uniformly present in the poetry of very different women it posits this uniformity as a stable ground on which feminist

monolithism could be constructed without glossing over existent differences between and among women Feminism and Poetry Jan Montefiore, 2004 This is a fresh edition of this classic work on feminism and poetry which offers an introduction by Claire Buck The Publishers Weekly, 1903
