Making Law Order And Authority In British Columbia 1821 1871:

Making Law, Order, and Authority in British Columbia, 1821-1871 Tina Loo, 1994-10-06 In 1821 British Columbia was the exclusive domain of an independent Native population and the Hudson's Bay Company. By the time it entered Confederation some fifty years later a British colonial government was firmly in place. In this book Tina Loo recounts the shaping of the new regime. The history of pre Confederation British Columbia is rich in lore and tales of adventure surrounding the fur trade conflict between settlers and the Hudson's Bay Company and above all the gold rush. Loo takes the familiar themes as a starting point for fresh investigation. Her inquiry moves from the disciplinary practices of the Hudson's Bay Company through the establishment of courts in the gold fields to conflicts over the rule of juries and the nature of property. By detailing specific incidents and then drawing from a wide historical field to sketch in new background she has revised established history. Loo structures her analysis of events around the discourse of laissez faire liberalism and shows how this discourse styled the law and order of the period. She writes with wit and elegance bringing life to even the most technical aspects of her investigation. This is the first comprehensive legal history of British Columbia before Confederation. Essays in the History of Canadian Law Osgoode Society, 1995-01-01 These essays look at key social economic and political issues of the times and show how they influenced the developing legal system. Making Law, Order, and Authority in British Columbia, 1821-1871 Tina Merrill Loo, 1994 In 1821 British Columbia was the exclusive domain of an independent Native population and the Hudson's Bay Company. By the time it entered Confederation fifty years later a British colonial government was firmly in place. In this book Tina Loo shows how the new regime was shaped by an ideology of liberalism. The history of pre Confederation British Columbia is a spirited one rich in lore and adventure revolving around the fur trade conflict between settlers and the Hudson's Bay Company and above all the gold rush. Loo takes the familiar themes as a starting point for fresh investigation. By detailing specific incidents and then drawing from a wide historical field to sketch in new background she is able to locate alternative perspectives and restructure much established history. Her inquiry moves from the disciplinary practices of the Hudson's Bay Company through the establishment of courts in the gold fields to conflicts over the role of juries and the nature of property. Always returning to her major theme the author structures her analysis of events around the discourse of laissez faire liberalism and shows how this discourse styled the law and order of the period. Loo narrates history with wit and elegance bringing life to even the most technical aspects of her investigation. This is the first comprehensive legal history of British Columbia before Confederation. The Resettlement of British Columbia Cole Harris, 2011-11-01 In this beautifully crafted collection of essays Cole Harris reflects on the strategies of colonialism in British Columbia during the first 150 years after the arrival of European settlers. The pervasive displacement of indigenous people by the newcomers the mechanisms by which it was accomplished and the resulting effects on the landscape social life and history of Canada's western most province are examined through the dual lenses of post colonial theory and empirical

data By providing a compelling look at the colonial construction of the province the book revises existing perceptions of the history and geography of British Columbia In their entirety this eloquent collection of nine essays constitute a provocative and unique investigation into the meaning of colonialism and geographical change in the province **A History of Law in Canada, Volume One** Philip Girard, Jim Phillips, R. Blake Brown, 2018-12-21 A History of Law in Canada is an important three volume project Volume One begins at a time just prior to European contact and continues to the 1860s Volume Two covers the half century after Confederation and Volume Three covers the period from the beginning of the First World War to 1982 with a postscript taking the account to approximately 2000 The history of law includes substantive law legal institutions legal actors and legal culture The authors assume that since 1500 there have been three legal systems in Canada the Indigenous the French and the English At all times these systems have co existed and interacted with the relative power and influence of each being more or less dominant in different periods The history of law cannot be treated in isolation and this book examines law as a dynamic process shaped by and affecting other histories over the long term The law guided and was guided by economic developments was influenced and moulded by the nature and trajectory of political ideas and institutions and variously exacerbated or mediated intercultural exchange and conflict These themes are apparent in this examination and through most areas of law including land settlement and tenure and family commercial constitutional and criminal law

Laws and Societies in the Canadian Prairie West, 1670-1940 Louis A. Knafla, Jonathan Swainger, 2011-11-01 Laws and Societies in the Canadian Prairie West 1670 1940 examines the legal history of the north west frontier from the earliest years of European Native contact in the seventeenth century to the mid 1900s Challenging myths about a peaceful west and prairie exceptionalism the book explores the substance of prairie legal history and the degree to which the region s mentality is rooted in the historical experience of distinctive prairie peoples The chapters written by a cross section of established and emerging scholars working in the allied fields of law legal history sociology and criminology focus on what is distinctive in prairie legal culture By approaching the issue from a variety of perspectives those of colonial administrators fur company employees Native peoples women men entrepreneurs judges magistrates and the police among others the authors find evidence of a conscious effort to apply broad non regional experiences to seemingly familiar local issues The ways in which prairie peoples perceived themselves and their relationships to a wider world were directly framed by notions of law and legal remedy shaped by the course and themes of prairie history Legal history is not just about black letter law It is also deeply concerned with the ways in which people affect and are affected by the law in their daily lives By examining how central and important the law has been to individuals communities and societies in the Canadian Prairies this book makes an original contribution **British Imperial Strategies in the Pacific, 1750-1900** Jane Samson, 2021-02-28 The focus of this volume is Britain s trans Pacific empire This began with haphazard challenges to Spanish dominion but by the end of the 18th century the British had established a colony in Australia and had gone to the brink of war with Spain to establish trading

rights in the north Pacific These rights led to formal colonies in Vancouver Island and British Columbia when Britain sought to maintain a north Pacific presence despite American expansionism In the later 19th century the international scramble for the Pacific resulted in new British colonies and protectorates in the Pacific islands The result was a complex imperial presence created from a variety of motives and circumstances The essays selected here take account of the wide range of economic political and cultural factors which prompted British expansion creating tension in Britain's imperial identity in the Pacific and leaving Pacific peoples with a complicated and challenging legacy Along with the important new introduction they provide a basis for the reassessment of British imperialism in the Pacific region

Little, 2013-12-06 Patrician Liberal examines the life and career of a neglected figure in Canadian history Sir Henri Gustave Joly de Lotbinière This book provides a detailed account of Joly's political career as Quebec premier Cabinet minister in the Laurier government and lieutenant governor of British Columbia as well as his public role as a French speaking Protestant promoter of national unity a leading spokesperson for the Canadian forest conservation movement a Quebec seigneur and

father to a large and devoted family Joly's life serves as a prism through which author J I Little elucidates important themes in Quebec and Canadian society economy politics and culture during the Victorian and Edwardian eras As Little reveals Joly's story is particularly fascinating for how closely the conflicting forces in his life religious cultural and social mirrored those of a Canadian society straining to forge a cohesive and distinctive national identity Foucault and Family Relations Malcolm Joyce,2019-05-14 Foucault and Family Relations Governing from a Distance in Australia analyzes how notions of property ownership were instrumental in maintaining family stability and continuity in rural Australia outlining how inheritance and divorce laws functioned to govern the internal relationships of families to assist the state to rule from a distance Using a selection of Foucault's ideas on the family sexuality race space and economics this book shows how property operated as a disciplinary device which was underpinned by technical ideas such as surveying and cartography This book uses legal judgments as a form of ethnography to show how property as a socio technical device allowed a degree of local freedom for owners This aspect of property allowed the state to stimulate ideas of local freedom to assist in ruling from a distance demonstrating how the rural family as a domestic unit became a key field of intervention for the state as the family represented a bridge to larger relationships of power *Hunger, Horses, and Government Men* Shelley A.M.

Gavigan,2012-10-24 Scholars often accept without question that the Indian Act 1876 criminalized First Nations In this illuminating book Shelley Gavigan argues that the notion of criminalization captures neither the complexities of Aboriginal participation in the criminal courts nor the significance of the Indian Act as a form of law Gavigan draws on court files police and penitentiary records and newspaper accounts and insights from critical criminology to interrogate state formation and criminal law in the Saskatchewan region of the North West Territories between 1870 and 1905 By focusing on Aboriginal people's participation in the courts rather than on narrow categories such as the state and the accused Gavigan allows Aboriginal defendants witnesses and informants to emerge in vivid detail and tell the story in their own terms Their experiences stand as evidence that the criminal law and the Indian Act operated in complex and contradictory ways that included both the mediation and the enforcement of relations of inequality **Spuzzum** Andrea Laforet,Annie

York,2011-11-01 Living on the banks of the turbulent Fraser River the Nlaka pamux people of Spuzzum have a long history of contact with non aboriginal peoples They watched as Hudson's Bay Company employees hacked a path through the mountains for the fur brigades and over time they found themselves in the path of the Cariboo road the CPR and virtually every commercial and province building initiative undertaken in the region over the past two centuries Juxtaposing historical narratives and cultural interpretation from the community of Spuzzum with archival information this book explores the history of Spuzzum in the light of concepts central to the Nlaka pamux definition of family political authority land and cosmos

Wrobel, Michael C. Steiner, 1997 What does it mean to live in the West today Do people tend to identify with states with regions or with the larger West This book examines the development of regional identity in the American West demonstrating that it is a regionally diverse entity made up of many different wests Great Plains Southwest Rocky Mountains and more in which American regionalism finds its fullest expression These fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them Wrobel and Steiner first offer a compelling overview of the West s regional nature then thirteen other rising or renowned scholars from history American Studies geography and literature tell how regional consciousness formed among inhabitants of particular regions All of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities Some focus on race and culture as the primary influences on regional consciousness while others emphasize environmental and economic factors or the influence of literature Some even examine western regionalism in areas that lie beyond the West as it has traditionally been conceived Each of the contributors believes that where a people live helps determine what they are and they write not only about the many wests within the larger West but also about the constant state of flux in which regionalism exists Many books speak of the West as a place but few others deal with the West s different places Many Wests presents a vision of the West that reflects both the common heritage and unique character of each major subregion building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields It is a book for everyone who lives in studies or loves the West for it confirms that it is home to very different peoples economies histories and regions
