Making Music Bridges To Asia Primary Level:

Creating Magic Richard McKeever, 2002-10 Music, Education, and Diversity Patricia Shehan Campbell, 2018-01-19

Music is a powerful means for educating citizens in a multicultural society and meeting many challenges shared by teachers across all subjects and grade levels. By celebrating heritage and promoting intercultural understandings, music can break down barriers among various ethnic, racial, cultural, and language groups within elementary and secondary schools. This book provides important insights for educators in music, the arts, and other subjects on the role that music can play in the curriculum as a powerful bridge to cultural understanding. The author documents key ideas and practices that have influenced current music education, particularly through efforts of ethnomusicologists in collaboration with educators, and examines some of the promises and pitfalls in shaping multicultural education through music. The text highlights World Music Pedagogy as a gateway to studying other cultures, as well as the importance of including local music and musicians in the classroom. Book Features: Chronicles the historical movements and contemporary issues that relate to music education; ethnomusicology and cultural diversity; Offers recommendations for the integration of music into specific classes, as well as throughout school culture; Examines performance, composition, and listening analysis of art, folk, traditional, and popular as avenues for understanding local and global communities; Documents music's potential to advance dimensions of multicultural education, such as the knowledge construction process, prejudice reduction, and an equity pedagogy. Music of Latin America and the Caribbean Mark Brill, 2017-12-22. Music of Latin America and the Caribbean, Second Edition, is a comprehensive textbook for undergraduate students which covers all major facets of Latin American music, finding a balance between important themes and illustrative examples. This book is about enjoying the music itself and provides a lively, challenging discussion complemented by stimulating musical examples couched in an appropriate cultural and historical context. The music is a specific response to the era from which it emerges, evolving from common roots to a wide variety of musical traditions. Music of Latin America and the Caribbean aims to develop an understanding of Latin American civilization and its relation to other cultures. NEW to this edition: A new chapter overviewing all seven Central American countries; An expansion of the chapter on the English and French speaking Caribbean; An added chapter on transnational genres; An end of book glossary featuring bolded terms within the text; A companion website with over 50 streamed or linked audio tracks keyed to Listening Examples found in the text; In addition to other student and instructors resources; Bibliographic suggestions at the end of each chapter highlighting resources for further reading, listening, and viewing; Organized along thematic, historical, and geographical lines. Music of Latin America and the Caribbean implores students to appreciate the unique and varied contributions of other cultures while realizing the ways non-Western cultures have influenced Western musical heritage. With focused discussions on genres and styles, musical instruments, important rituals, and the composers and performers responsible for its evolution, the author employs a broad view of Latin American music, every country in Latin

America and the Caribbean shares a common history and thus a similar musical tradition Research in Education ,1974

,2001 Music Therapy in Health and Education Margaret Heal,Tony Wigram,1993 The twenty two chapters of this international book reflect the breadth and scope of music therapy practice in the world today Divided into two areas clinical practice and research sections have been ordered according to the chronological ages of the subjects the dominant presenting problem of the client group or the approach employed *The Oxford Handbook of Asian Philosophies in Music Education* C. Victor Fung,Professor of Music Education C Victor Fung,Associate Professor of Music Leonard Tan,Leonard Tan,2024-07-19 This volume focuses on the collective wisdom of Asian philosophies and their implications for music education All twenty chapters are written by highly regarded philosophers and music educators steeped in various Asian traditions These chapters will include an explanation of a prominent philosophical tradition evidence in a contemporary music teaching and learning settings including its inception and historical development along with an explanation of how the philosophical tradition works in contemporary music education and suggestions for potential directions in the near and distant future The book is organized into five sections Section I is based on Chinese philosophical traditions which have the longest history and are some of the most influential across Asia and beyond Chapters in Section II present a snapshot of Japanese and Korean views beginning with the musical practices in the Joseon Period 1392 1910 that are still being practiced in South Korea today to Western influences in 19th century Japan A collection of philosophical traditions from South and Southeast Asia are contained in Section III ranging from the insights of King Bhumibol Adulyadej King Rama IX of Thailand an accomplished jazz musician to the Balinese notion of taksu a form of supreme energy and divine power crucial for compelling performances in the performing arts We venture into the Islamic and the Middle Eastern world in Section IV where the dance practices of the Hadhrami Arabs in the Malay Archipelago to traditional sharah music are contextualized within Islamic philosophy This section also describes the philosophical ideas of the 12th century Persian philosopher and

founder of the Illuminationist Ishraq philosophy Shihab al Din al Suhrawardi arguing that his ideas have much to recommend music education as this approach requires students to listen in deeper ways absorb more abundantly and move beyond arts education to encompass the education of the whole person Section V concludes with a metaphorical view on a New Silk Road in music education in the 21st century where ideas are traded for mutual benefit and the development multicultural philosophies of music education While there are numerous publications on the philosophy of music education rooted in the Western philosophical traditions of ancient Greece the Asian philosophical voice is virtually silent outside of Asia and this volume aims to begin the long process of redressing this imbalance This volume will open readers to the richness of Asian philosophical sources and hopefully stimulate dialogues that could generate new insights and directions for further development cross pollination and application of some of the world s earliest philosophical traditions

Asian Teachers in British Schools Paul Avtar Singh Ghuman,1995-01-01 There is scarcity of research and literature on ethnic minority teachers This book makes a contribution towards the understanding of the personal and professional concerns of Asian teachers of two generations the older generation who migrated to Britain during the 60s and 70s and the younger generation the majority of whom were born and educated in the UK Three salient issues emerged from the inquiry which are interlinked Firstly the older generation felt that their professional development and promotion have been seriously affected by the degree of racism which they have met from some of their white colleagues Secondly the majority of younger generation Asian teachers prefer to teach in multicultural schools which has far reaching consequences for the development of a tolerant and just multicultural society Lastly the younger generation s perceived anxiety and apprehension namely that they would meet racism in all white schools comes through
