## **Making Of Britains European Foreign Policy:**

European Foreign Policy-Making and the Arab-Israeli Conflict David John Allen, Alfred Pijpers, 1984-01-01 *Britain and Europe Since 1945* Oliver J. Daddow, 2004-04-15 This important book offers a refreshing and challenging perspective on the nature of history by analyzing the character role functioning and wider uses of historiography Taking British policies toward European integration since the Second World War as a case study the author demonstrates how its interpretation and reportage over time is subject to changing trends Seeking to explain these trends in terms of the different conceptions of the past which are maintained by different schools of writing it forces us to confront the fundamental difficulties we encounter in undertaking studies in history It draws attention to the impact on historical interpretation of changing times political discourse the opening of archives and of subjects being brought to the fore by professional historians *Understanding European Foreign Policy* Brian White, 2017-03-14 A broad ranging introduction to European foreign policy looking at the extent to which a concerted approach is emerging at EU level the extent of Europeanization of National Foreign Policy and the theoretical issues posed for theories of foreign policy and international relations more generally *The Making of Britain's European Foreign Policy* Alasdair Blair, 2012 Few commentators would contest that Britain's relationship with the European Union EU has been one of the most consistent and troublesome issues to have influenced British politics during the last fifty years This has been reflected in the number of publications devoted to this subject and in particular to the question of the reluctance of successive British governments to commit to Europe Much of this scholarship has analysed Britain's relationship with the EU in a historical context citing the various phases that this debate has passed through Greenwood 1992 George 1991 and 1994 Gowland and Turner 2000 J Young 1984 and 2000 H Young 1998 This book offers a new contribution to debates by examining the making of British European policy It focuses on the dynamics of policy making in a European context using a case study approach to analyse a wide range of issues more closely More broadly it also analyses the changing nature of the foreign policy process itself and so to remedy the gap of 25 years since the last major study of the process of making British foreign policy was published W Wallace 1975 In line with the Political Dynamics of the European Union series the book has three key aims The first is to examine the extent to which Britain's relationship with the EU is changing The second is to determine where power lies in the construction of what we term Britain's European policy The third is to examine the extent to which existing structures are adequate to meet the current demands and future challenges to the making of British European policy *British Foreign Policy and the National Interest* T. Edmunds, J. Gaskarth, R. Porter, 2014-11-18 Whose interests does British foreign policy serve Is the national interest a useful explanatory tool for foreign policy analysts This interdisciplinary collection responds to these questions exploring ideas of Britain's national interest and their impact on strategy challenging current thinking and practice in the making of foreign policy Britain and European Integration Since 1945 David Gowland, Arthur Turner, Alex Wright, 2009-10-30 This book provides both a

comprehensive introduction and a perceptive examination of Britain's relations with the European Community and the European Union since 1945 combining an historical account with political analysis to illustrate the changing and multifaceted nature of British and European politics. Few issues in British politics since 1945 have generated such heated controversy as Britain's approach to the process of European integration associated with the European Union. The long running debate on the subject has not only played a major part in the downfall of prime ministers and other leading political figures but has also exposed major fault lines within governments and caused deep and rancorous divisions within and between the major political parties. This highly contested issue has given rise to bitter campaigning in the press and between pressure groups and it has bemused, confused and divided the public at large. Key questions addressed include: Why has Europe had such an explosive impact on British politics? What impelled British policymakers to join the European Community and to undertake one of the radical if not the most radical changes in modern British history? What have been the perceived advantages and disadvantages of British membership of the European Union? Why has British membership of the European Union rarely attracted a national consensus? Engaging with both academic and public debates about Britain and the European Union, this volume is essential reading for all students of British history, British politics and European politics.

**Europeanization of British Defence Policy** Dr Robert Dover, 2013-03-28 The phenomenon of Europeanization has become a topic that is constantly under debate. This critical volume examines Europeanization through examples of British defence policy, the European Security and Defence Policy, the legal arms trade and the decision to go to war in Iraq in 2003. Drawing on examples from Austria and France as well as unveiling the role of the Prime Minister and his close confidants in driving through this controversial defence policy, Robert Dover provides an original and engaging contemporaneous account of Europeanization. Academics, post graduate researchers and analysts concerned with British foreign and defence policy and those interested in European defence policy more generally will all find this study a must read. *The Europeanization of National Foreign Policy* E. Gross, 2009-04-17 Eva Gross analyzes changing national preferences towards the EU CFSP and ESDP by providing detailed accounts of British, French and German crisis decision making in FYROM, Afghanistan, Lebanon and DR Congo. While transatlantic relations remain important, crisis management under the EU label is increasingly accepted in national capitals.

**Britain and the European Union** David Gowland, 2022-04-07 This engaging and concise new edition offers the student and general reader a compact, readable treatment of British membership of the European Union (EU) from 1973 up until the present day and Brexit, with detailed analysis of the period 1945-1972 accounting for Britain's absence from the formation of the EU. It provides a highly distilled and accessible analysis and overview of some of the parameters and recurring features of Britain's membership of the European Union, touching on all the major facets of membership at this critical time in Britain's relationship with Europe. Key features of the new edition: examines the constant and changing character of British membership of the EU; discusses the problematical and often paradoxical features of EU membership.

familiarises the reader with both academic and public debates about the subject offers thematic treatment of all aspects of policy and attitudes towards the EU significantly restructured and updated to include the origins of the decision to hold a referendum on UK membership of the EU the campaign explanations for its outcome and the course substance and implications of the UK EU Brexit negotiations This book will be of key interest to scholars students and the generally interested reader in the areas of European Politics Studies British Politics EU Politics Studies Area Studies and International Relations

**Britain and the World since 1945** Alasdair Blair, 2014-07-11 This Seminar Studies title is a succinct study of modern British foreign policy focusing on the period from 1945 to the present day Since the end of the Second World War Britain has been engaged in international conflicts from the Suez Crisis to the Gulf War and has actively sought involvement in transnational and global affairs Starting with a brief overview of the rise and fall of the British Empire and continuing chronologically with detailed chapters covering the second half of the twentieth century and the beginning of the twenty first Alasdair Blair discusses the highs and lows of British foreign policy in an accessible yet analytical manner Dealing with themes such as the issues triggered by decolonisation and the changing relationship between Britain and Europe this text considers the pivotal moments in modern Britain's engagement with the wider world Included in this title are supporting materials such as a chronology of important events from 1945 a Who's Who of key government figures and a collection of relevant primary sources Thorough yet concise Britain and the World since 1945 is the ideal resource for students interested in the development of British foreign policy

*The European Finality Debate and Its National Dimensions* Simon Serfaty, 2003 [The Europeanization of British Politics](#) I. Bache, A. Jordan, 2006-08-03 This is a unique book length accounts of the domestic impact of EU membership Drawing on expert contributions this volume provides a state of the art account of how membership has affected the institutions of central devolved and local governance the activities of organized interests and major areas of public policy

**British Foreign Policy and the Conflict in Sierra Leone, 1991-2001** Michael S. Kargbo, 2006 This book critically examines the content of British policy towards Sierra Leone from the outbreak of conflict there in 1991 to its official conclusion in 2001 It attempts to find answers to why Britain's New Labour government pursued a more proactive policy in Sierra Leone than its Conservative predecessors This is done by means of traditionalist but especially transformationalist theoretical approaches Analysis is made of the influence of major international organisations on British policy towards the Sierra Leone conflict as well as the impact of other important states As foreign policy is not created in a vacuum analysis is also made of the impact of the domestic setting especially bureaucratic institutions

**Multilevel Networks in European Foreign Policy** Elke Krahmann, 2017-11-22 This title was first published in 2003 Combining a critique of existing multilevel approaches with the development of a new theory and a broad range of case studies the author of this text aims to provide new insights into contemporary foreign policy decision making which should be of particular interest to students and scholars of European foreign and security policy and international relations theory

**Mastering British Politics** F.N. Forman, Nicholas Baldwin, 2007-08-09 Containing all the information and analysis needed to understand the British system of Government and politics Mastering British Politics is an essential text This fifth edition has been fully revised and updated to reflect the results of and developments since the 2005 General Election

**The Actors in Europe's Foreign Policy** Christopher Hill, 2013-01-11 Five years ago observers might have doubted that national foreign policies would continue to be of importance it seemed inevitable that collective European positions were becoming ever more common and effective Now the pendulum has swung back with a vengeance The divided European responses to the prospect of war with Iraq in 1990 91 and to the war in the Balkans have made what happens in the national capitals seem divisive The Actors in Europe's Foreign Policy is a timely survey of the interplay between the European Union's Common Foreign and Security Policy and the long established national foreign policies of the Union's Member States The book contains a chapter on each country in the Union as well as a chapter on the United States in its role as the thirteenth seat at the table There is also a chapter on the European Commission whose role in the external relations of the Community steadily grew during the 1980's This book will be invaluable for students and scholars of the European Union and of international politics It will also be of great interest to practitioners in all countries concerned with Europe's role in international affairs

**The Ecumenical Movement and the Making of the European Community** Lucian Leuștean, 2014 A study that assesses the political history of religious dialogue in the European Community detailing close relations between churchmen and high ranking officials in European institutions immediately after the 1950 Schuman Declaration

**Allies Apart** A. Scott, 2011-10-26 To date the Heath Nixon years have been widely portrayed as marking a low point in the history of Anglo American relations even the end of the special relationship using a wealth of archival material on both sides of the Atlantic and examining a range of global developments Allies Apart offers a fresh interpretation of this pivotal period

*British Foreign Policy* Laurence Martin, John C. Garnett, 1997-01-01 Has the 20th century been one of steady decline for British foreign policy Can there be a distinct British foreign policy in age of regionalism and globalization This study challenges perceptions of irrevocable decline and suggests a more balanced assessment of Britain's strengths and weaknesses As high politics including security concerns diminish in importance economic and commercial concerns increasingly seem to dictate foreign policy On the assumption that what the population seeks is a combination of physical security prosperity and what could be termed moral self approbation this study suggests ways in which Britain could capitalize on its influence and assets to promote its interests A framework is provided for thinking about British foreign policy at a time when globalization multinational companies NGOs the European Union and other factors increasingly constrain the freedom of government and the traditional role of the foreign office

**British Foreign Policy, National Identity, and Neoclassical Realism** Amelia Hadfield-Amkhan, 2010-10-16 This groundbreaking study offers a genuinely multidisciplinary exploration of cultural influences on foreign policy Through an innovative blend of historical analysis neoclassical realist theory and cultural studies

Amelia Hadfield Amkhan shows how national identity has been a catalyst for British foreign policy decisions helping the state to both define and defend itself. Representing key points of crisis from the past two centuries her case studies include the 1882 attempt to construct a channel tunnel to France the frantic 1909 Dreadnought race with Germany the 1982 Falklands War with Argentina and the 2003 decision to remain outside the Eurozone. The author argues that these events marking the decline of a great power have forced Britain's society and government into periods of deep self reflection that are carved into its culture and etched into its policy stances on central issues of sovereignty territorial integrity international recognition and even monetary policy.
