Making Of Environmental Law

Nancy E. Marion

Making Of Environmental Law:

The Making of Environmental Law Richard J. Lazarus, 2008-09-15 The unprecedented expansion in environmental regulation over the past thirty years at all levels of government signifies a transformation of our nation's laws that is both palpable and encouraging. Environmental laws now affect almost everything we do from the cars we drive and the places we live to the air we breathe and the water we drink. But while enormous strides have been made since the 1970s, gaps in the coverage, implementation and enforcement of the existing laws still leave much work to be done. In *The Making of Environmental Law*, Richard J. Lazarus offers a new interpretation of the past three decades of this area of the law, examining the legal, political, cultural and scientific factors that have shaped and sometimes hindered the creation of pollution controls and natural resource management laws. He argues that in the future, environmental law must forge a more nuanced understanding of the uncertainties and trade-offs as well as the better organized political opposition that currently dominates the federal government. Lazarus is especially well equipped to tell this story given his active involvement in many of the most significant moments in the history of environmental law as a litigator for the Justice Department's Environment and Natural Resources Division, an assistant to the Solicitor General and a member of advisory boards of the U.S. Environmental Protection Agency, the World Wildlife Fund and the Environmental Defense Fund. Ranging widely in his analysis, Lazarus not only explains why modern environmental law emerged when it did and how it has evolved, but also points to the ambiguities in our current situation. As the field of environmental law grays with middle age, Lazarus's discussions of its history, the lessons learned from past legal reforms and the challenges facing future lawmakers are both timely and invigorating.

The Making of Environmental Law Richard James Lazarus, 2004 The unprecedented expansion in environmental regulation since 1970 at all levels of the government signifies an extraordinary transformation of our nation's law. How environmental law emerged, why it has since evolved in the way that it has, and what are the challenges presented as environmental law moves now into its middle age is a fascinating and revealing story which *The Making of Environmental Law* seeks to tell. The story shows how fashioning pollution control laws presents special challenges both because of the nature of pollution itself and the known means of pollution control and because of our nation's varied processes for lawmaking and the ways those processes relate to important cultural norms. Many of these challenges relate to the varied, complex and uncertain spatial and temporal dimensions of pollution itself, factors which resist simple redress. The purpose of *The Making of Environmental Law* is to describe these challenges, relate them to actual events which occurred during the past three decades and discuss what lessons can be gleaned from those decades to meet those same challenges today and in the future. The book is accordingly divided into three parts. Part I, consisting of three chapters, provides a theoretical overview of the challenges presented by environmental protection for lawmaking. The first two chapters describe the relevant physical features of the natural environment and its transformation by humankind with emphasis on their spatial and temporal dimensions that especially

challenge the fashioning of legal rules The third chapter analyzes in more detail how these features relate to the structure of U S lawmaking institutions in federal state and tribal sovereign authorities and within all three branches of government Part II is more explanatory in nature It relates the more theoretical analytic framework regarding the nature of environmental lawmaking Developed in Part I to the actual events surrounding modern environmental law s evolution during the 1960s 1970 1980s and 1990s Finally Part III is more critical and speculative in character than either Part I or II The first chapter of Part III considers the current state of environmental law including both how environmental protection law has evolved during the past three decades and how those evolutionary trends reflect the features of the ecological problems environmental law seeks to address The second chapter in Part III considers the ways in which environmental law is likely to continue to be challenged in the future especially by ever changing conceptions of time and space The third and final chapter of Part III considers the potential historical significance of current times given the unprecedented ascendancy to dominant positions in both the federal legislative and executive branches of government officials who favor major reforms of existing environmental laws

Decision Making in Environmental Law LeRoy Paddock, Robert L. Glicksman, Nicholas S. Bryner, 2016

Environmental issues are at the heart of some of the most complex and consequential decisions that society must face in pursuit of a more sustainable future They encompass the international national and local levels and engage all branches of government Decision Making in Environmental Law one of the constituent volumes in the Elgar Encyclopedia of Environmental Law brings together some of the leading experts in the field and provides a structured overview of the various dimensions of decision making from an environmental law perspective Topics include the use of treaties common law tools rulemaking access to information regulatory structures market based and trading mechanisms monitoring and reporting voluntary programs and private regulation environmental impact analysis public engagement and environmental justice administrative and judicial review and the role of environmental courts and tribunals

Making Environmental Laws Work

William Wilson, 1999-01-19 The book considers the political context in which environmental laws are made and the implications for long term public support of them

Making Environmental Law Nancy E. Marion, 2011-08-10 From Eisenhower to Obama this book provides a comprehensive analysis of the policies Congress and the president have proposed and passed to protect the environment over time The U S federal government first began to consider legislation to protect the environment and natural resources in 1940s Since that time Congress and the president have considered and passed numerous environmental policies laws that serve to protect the quality of the air we breathe the water we drink the natural beauty of the land and the animals that live both on land and in the water In Making Environmental Law The Politics of Protecting the Earth experienced and accomplished environmental law researcher Nancy E Marion shows what policies Congress have proposed and passed to protect the environment over time Each chapter focuses on the members of Congress s response to a different environmental concern such as ocean dumping pesticides and solid waste With green awareness

now affecting every aspect of our modern world this text serves as an invaluable reference for students and researchers who need a deeper historical background on the political aspects of these issues Environmental Law Stuart Bell,Donald McGillivray,Ole W. Pedersen,Emma Lees,Elen Stokes,2017 This edition of Environmental Law includes material on environmentalism and the law international environmental law access to environmental justice noise pollution and new legislation on pollution prevention and new case law **The Oxford Handbook of Business and the Natural Environment** Pratima Bansal,Andrew J. Hoffman,2012 This Handbook discusses the main issues research and theory on business and the natural environment and how they impact on different business functions and disciplines *Environmental Law* Elizabeth Fisher,Bettina Lange,Eloise Scotford,2019 Environmental Law Text Cases and Materials offers a comprehensive critical and case focused approach to the subject combining insightful author commentary with carefully selected extracts to fully support students *Environmental Law for The Built Environment* Jack Rostron,2013-03-04 An exposition of the relevant law and the techniques commonly used to meet the regulatory requirements concerning the built environment Each chapter deals with a discrete topic combining law policy and administrative aspects with the engineering technological and management remedies available International Environmental Law-making and Diplomacy Tuomas Kuokkanen,Ed Couzens,Tuula Honkonen,Melissa Lewis,2016-01-29 Bringing together contributions from diplomats UN agency officials lawyers and academics this book provides insight into the evolution of international environmental law diplomacy and negotiating techniques Based on first hand experiences and extensive research the chapters offer a blend of practice and theory history and analysis presenting a range of historical episodes and nuances and drawing lessons for future improvements to the processes of law making and diplomacy The book represents a synthesis of the most important messages to emerge from the annual course on Multilateral Environmental Agreements delivered to diplomats and negotiators from around the world for the last decade by the University of Eastern Finland and the United Nations Environment Programme The book will be of interest as a guide for negotiators and as a supplementary textbook and a reference volume for a wide range of students of law and environmental issues **Environmental Law and Justice in Context** Jonas Ebbesson,Phoebe N. Okowa,2009-02-19 political science and international relations Book Jacket

Improving Compliance with International Environmental Law Jacob Werksman,James Cameron,Peter Roderick,2014-01-14 Measures for regulating the behaviour of nation states in relation to the global environment have increasingly taken the form of international treaties and conventions Many have argued that this has proved to be an ineffective way of halting unsustainable development for the provisions of these agreements are either too weak or are flouted regularly by the parties concerned This volume seeks to address the crucial question of how compliance with these agreements could be encouraged effectively without damaging the fragile political consensus that is emerging on environmental issues With extensive use of case studies Improving Compliance will make stimulating reading for all students

and researchers working in this area as well as for anyone concerned about the effectiveness of international environmental measures

The Balancing of Interests in Environmental Law in Africa Willemien Du Plessis, 2011 Now that economic development is starting to pick up in many countries in Africa the question arises how such development can be balanced with the need for adequate environmental protection This crucial issue inherent in the notion of sustainable development is addressed in this innovative and path breaking volume For the first time academics from seventeen African countries have joined forces to analyse the way in which economic and environmental interests are balanced in their legal systems The authors all use a common framework to improve the comparability of the country studies The different country related chapters do not only provide insights into the formally applicable legal rules law in the books but given that the book brings together academics aware of the practice in Africa they also describe the way in which environmental policy functions in practice law in action Many case studies with conceptual analyses are provided of pollution incidents and the way in which administrative agencies or courts have on those occasions balanced the interests between the economy society and the environment A critical comparative analysis by the editors points at tendencies towards convergence and points of divergence between the African countries Suggestions for policy reform are also formulated showing African countries how they can benefit from experiences in the US and Europe This thought provoking volume is a must for anyone academic policymaker or practitioner interested in sustainable development generally and in Africa in particular P 4 of cover

Making Environmental Laws Work William Wilson, 1999

The Oxford Handbook of Comparative Environmental Law Emma Lees, Jorge E. Viñuales, 2019-05-06 This Handbook is the first comprehensive account of comparative environmental law It examines in detail the methodological foundations of the discipline as well as the substance of environmental law across countries from four vantage points country studies from all continents responses to common problems including air pollution water management nature conservation genetically modified organisms climate change and energy chemicals waste foundational components of environmental law systems including principles property rights administrative and judicial organisation command and control regulation market mechanisms informational techniques and liability mechanisms and common interactions of environmental protection with the broader public private and criminal law contexts The volume brings together the foremost authorities in this field from around the world to provide a concise self contained and technically rigorous account of environmental law as a single overall system

Time and Environmental Law Benjamin J. Richardson, 2017-08-03 Disciplined by industrial clock time modern life distances people from nature s biorhythms such as its ecological evolutionary and climatic processes The law is complicit in numerous ways It compresses time through fast track legislation and accelerated resource exploitation It suffers from temporal inertia such as grandfathering existing activities that limits the law s responsiveness to changing circumstances Insouciance about past ecological damage and neglect of its restoration are equally serious temporal flaws we cannot live sustainably while Earth

remains degraded and unrepaired Applying international and interdisciplinary perspectives on these issues Time and Environmental Law explores how to align law with the ecological timescape and enable humankind to tell nature's time Lending insight into environmental behaviour and impacts this book pioneers a new understanding of environmental law for all societies and makes recommendations for its reform Minding nature not the clock requires regenerating Earth adapting to its changes and living more slowly

Environmental Law Emmanuel Onyeabor, 2024-12-21 This book offers an overview of environmental law from both an international and regional perspective focusing on global issues while at the same time offering uniquely African insights The book addresses environmental issues principles and policies from the standpoints of law and management There is a growing need for books on environmental law that integrate environmental issues principles and policies in a single source to guide practitioners in the fields of environmental studies and environmental law This book covers the corresponding principles theories procedural rights international and regional strategies liabilities and remedies for environmental damage including in to the marine environment Topics addressed include atmospheric pollution water pollution marine pollution land use and waste management Given its scope the book will be of interest to practitioners in the fields of environmental studies and environmental law corporations policymakers judges students and all others who are concerned with environmental issues principles policies and the law

Environmental Law: Text, Cases & Materials Elizabeth Fisher, Bettina Lange, Eloise Scotford, 2013-04-25 This new title offers a compact and complete resource for students featuring extracts from leading cases and articles alongside clear explanations and insightful analysis from an experienced author team This unique approach places environmental law in context enabling you to develop a clear and sophisticated understanding of this dynamic area

Wolf and Stanley on Environmental Law Susan Wolf, Neil Stanley, 2013-10-23 Written with real clarity by authors teaching and researching in the field Wolf and Stanley on Environmental Law offers an excellent starting point for both law and non law students encountering this diverse and rapidly developing subject for the first time The focus of the book is on the regulation and control of pollution and includes chapters on environmental permitting waste management air and water pollution and contaminated land The book also includes the administration and enforcement of environmental law EU environmental law the environmental torts and the private regulation of environmental law The book is supported by a range of learning features designed to help students Consolidate your learning Chapter learning objectives and detailed summaries clarify and highlight key points Understand how the law works in practice Law in Action features demonstrate the application of pollution control law Plan your research Detailed end of chapter further reading sections outline articles books and online resources that provide next steps for your research This sixth edition has been updated and revised to take into account recent developments in the subject including coverage of the Environmental Permitting England and Wales Regulations 2010 developments in the Environment Agency enforcement and sanctions policy documents updates relating to the defence of statutory authority in the tort of private nuisance and current

issue relating to compliance with the Aarhus Convention Suitable for students of environmental law and the wider environmental studies Wolf and Stanley on Environmental Law is a valuable guide to this wide ranging subject

Environmental Law in Bosnia & Herzegovina Dragoljub Todić, Mladenka Ignjatic, Vid Vukasović†, 2025-07-22 Derived from the renowned multi volume International Encyclopaedia of Laws this book provides ready access to legislation and practice concerning the environment in Bosnia Herzegovina A general introduction covers geographic considerations political social and cultural aspects of environmental study the sources and principles of environmental law environmental legislation and the role of public authorities The main body of the book deals first with laws aimed directly at protecting the environment from pollution in specific areas such as air water waste soil noise and radiation Then a section on nature and conservation management covers protection of natural and cultural resources such as monuments landscapes parks and reserves wildlife agriculture forests fish subsoil and minerals Further treatment includes the application of zoning and land use planning rules on liability and administrative and judicial remedies to environmental issues There is also an analysis of the impact of international and regional legislation and treaties on environmental regulation Its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a valuable resource for environmental lawyers handling cases affecting Bosnia Herzegovina Academics and researchers as well as business investors and the various international organizations in the field will welcome this very useful guide and will appreciate its value in the study of comparative environmental law and policy

Making Of Environmental Law Book Review: Unveiling the Magic of Language

Making Of Environmental Law Introduction

In the digital age, access to information has become easier than ever before. The ability to download Making Of Environmental Law has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Making Of Environmental Law has opened up a world of possibilities. Downloading Making Of Environmental Law provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Making Of Environmental Law has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Making Of Environmental Law. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Making Of Environmental Law. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Making Of Environmental Law, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and

validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Making Of Environmental Law has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Making Of Environmental Law Books

1. Where can I buy Making Of Environmental Law books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
