Guyana International Monetary Fund. Western Hemisphere Dept., 2014-09-26 The economy has experienced seven consecutive years of robust growth buoyed by high commodity prices foreign direct investment and expansion of private sector credit As part of a strategy to sustain growth reduce poverty and curtail dependence on imported oil the authorities are pursuing the Amaila Falls Hydro electric Project AFHP entailing investment of about 30 percent of GDP However steps by Parliament that delayed important approvals led the private sector partner to withdraw which could delay the project while additional financing is sought Meanwhile public debt remains high around 60 percent of GDP limiting the room to finance inclusive growth      **In the Shadow of the Seawall** Summer Gray, 2023-09-12 In the Shadow of the Seawall journeys to the edge of the sea to understand the existential dilemma of seawalls alongside struggles for resilience and adaptation In coastal management debates seawalls are a deeply contested subject between those in favor of hard structures for mitigating the impacts of sea change and those who advocate measures modeled on natural processes Summer Gray argues that both approaches involve limited notions of resilience that undermine movements for social and climate justice and introduces the concept of placekeeping the struggle to resist colonizing practices of displacement as a justice oriented framework for addressing the global dangers of coastal disruption Drawing on a mix of ethnographic observation interviews and archival research Gray shows how competing logics of adaptation play out on the ground in Guyana and the Maldives to reveal how seawalls are entrenched in relationships of power and entangled in processes of making and keeping place

Guyana's Great Economic Downswing, 1977-1990 Ramesh Gampat, 2020-10-19 Much of Guyana's 20th century history was defined by the PNC dictatorship and the political and economic wreckage it left behind. In Guyana's Great Economic Downswing 1977 to 1990 Dr Ramesh Gampat presents a comprehensive study of these specific years when the national economy contracted by 27 percent annually. He explores the multiple facets of the country's political tribalism which does not value freedom, liberty and the flourishing of all people; it values only freedom, liberty and flourishing of tribes. The study reinforces the widely held belief that until and unless these adversarial groups subsume their respective selfish interests and commit to the common cause of national peace and development, the great downswing might not rest as a historical event but could well re-emerge with further economic devastation if the lessons go unheeded. Dr Gampat makes a strong case for federalism as a solution to Guyana's ethnic politics. Federalism, he posits, would ensure that all Guyanese have equal access to opportunities and resources since a system of provincial governance would be better placed to address discriminatory policies and practices at a localised level. With the country sitting on the cusp of transformative development to be propelled by new found oil wealth, there is an urgency to settle the divisive politics if every Guyanese is to benefit fairly and equitably from the economic boom. Guyana's Great Economic Downswing 1977 to 1990 offers up a studied and comprehensive analysis that should be part of that bipartisan discourse going forward. Ryhaan Shah, Novelist, Social Activist. A few piecemeal academic articles analyzing Guyana's economic evolution over the period 1977 to 1990 were written but they are scattered and lost away in various journals. What was missing is a comprehensive and rigorous exploration of the era of Cooperative Socialism. Dr Ramesh Gampat's book fills this gap. It is a superb synthesis of historical, theoretical and econometric exploration of the Great Downswing. The book not only provides estimates of important macroeconomic concepts such as Guyana's total factor productivity and long term growth but also produces the useful statistics and reviews of poverty, inequality, life expectancy, education outcomes as well as a detailed analysis of the rice sector. As if these are not enough, Gampat sets the tone by situating the exploration in the country's long standing and debilitating ethno-political dynamics. This self-contained book will be of tremendous use to policy makers, journalists and students interested in the historical context of present day outcomes. I highly recommend this book to public libraries and home reference libraries. Tarron Khemraj, William and Marie Selby Professor of Economics and International Studies, New College of Florida.

**The Making of Guyana** Frank Senauth, 2009 The Making of Guyana. Guyana's rich culture mosaic is the legacy of the British plantation economy which, after the abolition of slavery, brought many indentured workers from British India, Indonesia and China. They joined the descendants of African slaves, a large Jewish community, a European and Middle Eastern business and professional elite and the remnants of indigenous Arawak and Carib people. Dutch, Hindustani, Hakka, Mandarin and Javanese are also spoken. In Guyana, English is the medium of exchange; Hindi and Urdu are only used for religious purposes by Hindus and Muslims. His Excellency Bharrat Jagdeo, the President of Guyana, is trying his best to expand and make Guyana a better place to live.
