Musical activity is one of the most ubiquitous and highly valued forms of social interaction in North America to say nothing of world over being engaged from sporting events to political rallies concerts to churches Moreover music s use as an affective agent for political and religious programs suggests that it has ethical significance Indeed many have said as much It is surprising then that music s ethical significance remains one of the most undertheorized aspects of both moral philosophy and music scholarship Music for Others Care Justice and Relational Ethics in Christian Music fills part of this scholarly gap by focusing on the religious aspects of musical activity particularly on the practices of Christian communities Based on ethnomusicological fieldwork at three Protestant churches and a group of seminary students studying in an immersion course at South by Southwest SXSW and synthesizing theories of discourse formation and care ethics oriented towards restorative justice it first argues that relationships are ontological for both human beings and musical activity It further argues that musical meaning and emotion converge in human bodies such that music participates in personal and communal identity construction in affective ways yet these constructions are not always just Thus considering these aspects of music s ways of being in the world Music for Others finally argues that music is ethical when it preserves people in and restores people to just relationships with each other and thereby with God      Subject Guide to Books in Print ,1996      **Library of Congress Catalogs** Library of Congress,1976      National Union Catalog ,1982 Includes entries for maps and atlases      The Publishers Weekly ,1923      **The National union catalog, 1968-1972** ,1973      *The Junior College Library Collection* ,1970      *The National Union Catalogs, 1963- ,1964*      *The Bookman's Journal and Print Collector* Wilfred Partington,1919
