Geographers Geoffrey Martin, 2015-12-14 *Geographers* is an annual collection of studies on individuals who have made major contributions to the development of geography and geographical thought. Subjects are drawn from all periods and from all parts of the world and include famous names as well as those less well known including explorers, independent thinkers and scholars. Each paper describes the geographer's education, life and work and discusses their influence and spread of academic ideas. Each study includes a select bibliography and a brief chronology. The work includes a general index and a cumulative index of geographers listed in volumes published to date. Published under the auspices of the International Geographical Union.      The Historical Archaeology of the Pacific Northwest Douglas C. Wilson, 2024-12-17 In this book

Douglas Wilson uses historical documents, Indigenous oral traditions and the material record to provide a comprehensive overview of the historical archaeology of the Pacific Northwest region from the seventeenth through the twenty-first centuries.

Morey, 2013-12-12 Whether re-creating an actual event or simply being set in a bygone era, films have long taken liberties

with the truth. While some members of the audience can appreciate a movie without being distracted by historical inaccuracies, other viewers are more discerning. From revered classics like *Gone with the Wind* to recent award winners like *Argo*, Hollywood films often are taken to task for their loose adherence to the facts. But what obligation do filmmakers have to the truth when trying to create a two-hour piece of entertainment? In *Bringing History to Life through Film: The Art of Cinematic Storytelling*, Kathryn Anne Morey brings together essays that explore the controversial issue of film as a purveyor of history. Examining a range of films including highly regarded features like *The Last of the Mohicans* and *Pan's Labyrinth* as well as blockbuster franchises like *Pirates of the Caribbean*, chapters demonstrate that the debate surrounding the role of history on film is still as raw as ever. Organized in five sections, these essays discuss the myths and realities of history as they are portrayed on film, from Nostalgic Utopias to Myths and Fairy Tales. The fourteen chapters shed light on how films both convey and distort historical realities to capture the essence of the past rather than the past itself. Ultimately, they consider what role cinema plays as the quintessential historical storyteller. In addition to cinema and media studies, this book will appeal to scholars of history and fans of a wide range of cinematic genres.      University of Oregon Studies in Business, 1929
