The Making of Saudi Arabia, 1916-1936 Joseph Kostiner, 2023 **The Making of Saudi Arabia, 1916-1936** Joseph Kostiner, 1993 Legal and Political Reforms in Saudi Arabia Joseph A. Kechichian, 2013 The fractious relationship between the United States and Saudi Arabia has long been a central concern in Washington In the aftermath of 9 11 and amongst ongoing wars the United States confronts an acute dilemma how to cooperate with Riyadh against terrorism whilst confronting acute anti Americanism Using information gathered from extensive interviews with a plethora of officials this book aims to analyze Saudi domestic reforms It addresses the significant deficiency of information on such diverse matters as the judiciary and ongoing national dialogues but also provides an alternative understanding of what motivates Saudi policy makers How these reforms may impact on future Saudi decision making will surely generate a slew of policy concerns for the United States and this study offers a few clarifications and solutions This book will be of interest to anyone seeking a new perspective on the motivation behind legal and political reforms in Saudi Arabia and the effects of these reforms beyond the Middle East *Worldmaking in the Long Great War* Jonathan Wirtzen, 2022-08-09 Winner 2023 Robert L Jervis and Paul W Schroeder Best Book Award International History and Politics Section American Political Science Association Honorable Mention 2023 Barrington Moore Award Comparative and Historical Sociology Section American Sociological Association Honorable Mention 2023 Francesco Guicciardini Prize for Best Book in Historical International Relations Historical International Relations Section International Studies Association It is widely believed that the political problems of the Middle East date back to the era of World War I when European colonial powers unilaterally imposed artificial borders on the post Ottoman world in postwar agreements This book offers a new account of how the Great War unmade and then remade the political order of the region Ranging from Morocco to Iran and spanning the eve of the Great War into the 1930s it demonstrates that the modern Middle East was shaped through complex and violent power struggles among local and international actors Jonathan Wirtzen shows how the cataclysm of the war opened new possibilities for both European and local actors to reimagine post Ottoman futures After the 1914 1918 phase of the war violent conflicts between competing political visions continued across the region In these extended struggles the greater Middle East was reformed Wirtzen emphasizes the intersections of local and colonial projects and the entwined processes through which states were made identities transformed and boundaries drawn This book s vast scope encompasses successful state building projects such as the Turkish Republic and the Kingdom of Saudi Arabia as well as short lived political units including the Rif Republic in Morocco the Sanusi state in eastern Libya a Greater Syria and attempted Kurdish states that nonetheless left traces on the map of the region Drawing on a wide range of sources *Worldmaking in the Long Great War* retells the origin story of the modern Middle East *Saudi Arabia* Gadi Hitman, 2022-07-26 This book analyzes the process of national development in Saudi Arabia through the use of the SWOT model which examines the kingdom s strengths and weaknesses as well as the

The Politics of Truth Management in Saudi Arabia Afshin Shahi,2013-12-04 Exploring the management of truth in the Kingdom of Saudi Arabia this book aims to investigate the ways in which the official truth is constructed and institutionalised in the country The Politics of Truth Management in Saudi Arabia argues that there are two interrelated notions which articulate the ways in which truth is conceptualised in Islam One at macro level constitutes the trans historical foundational principles of the religion a set of engrained beliefs which establish the finality and oneness of Islam in relation to other competing narratives The other at a micro level takes place internally to find truth within the truth Unlike Islamic truth at the macro level which is entrenched the Islamic truth at the micro level refers to the various attempts by different agencies to claim to have found the truth within the truth Wahhabism which is the product of an eighteenth century revivalist movement is portrayed as the most authentic reading of Islam It is seen as the *raison d tre* for the prevailing political mechanism in the country and is introduced as an example of truth management at the micro level Arguing that truth is not born in a power vacuum and often its construction and institutionalisation signify domination in one way or another this book will be of interest to students of Religion Politics and Saudi Politics more specifically

Monarchies and Nations Paul Dresch,James P. Piscatori,2005-05-27 Despite their small populations the Arab states of the Gulf exercise an enormous and global influence But all too often these states are treated as if their only importance were as pawns in a global strategic board game and are simply dealt with as mere models of the intersection of oil wealth and power Here Dresch and Piscatori bring together a more nuanced picture exploring how the citizen populations of these states define themselves in a wider context The Gulf provides extreme examples of the nexus of identities not only because these polities are so dependent on transnational flows of wealth and imagery but because at home the citizen workforce is often outnumbered by migrant labour Examining the issues such as Gulf owned transnational media the role of women in the Kuwaiti state and the way Saudi Arabia manages the yearly influx of pilgrims for the Hajj Monarchies and Nations is essential reading for all those interested in the society politics and the future security of the Gulf

War, Institutions, and Social Change in the Middle East Steven Heydemann,2000-12-01 Few areas of the world have been as profoundly shaped by war as the Middle East in the twentieth century Despite the prominence of war making in this region there has been surprisingly little research investigating the effects of war as a social and political process in the Middle East To fill this gap War Institutions and Social Change in the Middle East brings together an international and interdisciplinary group of scholars who explore the role of war preparation and war making on the formation and transformation of states and societies in the contemporary Middle East Their findings pose significant challenges to widely accepted assumptions and present new theoretical starting points for the study of war and the state in the contemporary developing world Heydemann s

collaborators include political scientists historians anthropologists and sociologists from the Middle East Europe and the United States Their essays are both theoretically sophisticated and empirically rich covering topics such as the effects of World War II on state market relations in Syria and Egypt the role of war in the rise of the Palestine Liberation Organization the political economy of Lebanese militias and the effects of the 1967 war on state and social institutions in Israel The volume originated as a research planning project of the Joint Committee on the Near and Middle East of the Social Science Research Council

Saudi Arabia and Iraq as Friends and Enemies Joshua Yaphe, 2021-12-21 Saudi Arabia and Iraq have a shared history as both friends and enemies at one and the same time and their growth as modern nation states must be understood in that joint context This book establishes a new narrative and timeline for bilateral relations between the two countries while examining the work of other Arab and Western scholars in order to excavate the biases underlying so much previous work on this topic In doing so it proposes a new way of looking at state formation and boundaries in the Middle East by showing how the interactions of regional neighbors left an indelible imprint on the domestic politics of one another The two different visions for managing the border that Saudi Arabia and Iraq developed in the 1920s generated mistrust on both sides leading to a gradual process of estrangement that lasted through the 1950s and beyond Ibn Saud made strenuous efforts to preserve the socio economic ties that united the communities of southern Iraq with the Najd and in turn those efforts helped encourage a wave of Sunni Arab migrants from Iraq who helped build the Saudi state Iraqi politicians and clerics attempted to use the issue of Ikhwan raids as a rallying cry for promoting their political agendas thereby contributing to a growing sectarian discourse and undermining the nationalist rhetoric of the 1920 Revolution The two countries had a remarkable and long lasting impact on one another even as they drifted farther and farther apart

Modern Things on Trial Leor Halevi, 2019-07-30 In cities awakening to global exchange under European imperial rule Muslims encountered all sorts of strange and wonderful new things synthetic toothbrushes toilet paper telegraphs railways gramophones brimmed hats tailored pants and lottery tickets The passage of these goods across cultural frontiers spurred passionate debates Realizing that these goods were changing religious practices and values proponents and critics wondered what to outlaw and what to permit In this book Leor Halevi tells the story of the Islamic trials of technological and commercial innovations of the late nineteenth and early twentieth centuries He focuses on the communications of an entrepreneurial Syrian interpreter of the shari'a named Rashid Rida who became a renowned reformer by responding to the demand for authoritative and authentic religious advice Upon migrating to Egypt Rida founded an Islamic magazine The Lighthouse which cultivated an educated prosperous readership within and beyond the British Empire To an audience eager to know if their scriptures sanctioned particular interactions with particular objects

he preached the message that by rediscovering Islam's foundational spirit the global community of Muslims would thrive and realize modernity's religious and secular promises Through analysis of Rida's international correspondence Halevi argues that religious entanglements with new commodities and technologies were the driving forces behind local and global projects to reform the Islamic legal tradition Shedding light on culture commerce and consumption in Cairo and other colonial cities *Modern Things on Trial* is a groundbreaking account of Islam's material transformation in a globalizing era
