The Interiors Theory Primer William Mangold, 2025-07-31 In a world where life is increasingly defined by the spaces we inhabit understanding interiors is essential to understanding ourselves The Interiors Theory Primer maps the intellectual terrain of interior design and spatial experience introducing readers to key concepts that shape how people occupy interior spaces Organized into three parts this book begins with foundational concerns such as place identity materiality and atmosphere and then examines the boundaries and expertise of the discipline before turning to critical and emerging topics like biophilia virtuality and social justice Each chapter presents a focused literature review of a major theme in interiors theory supported by key design precedents and suggestions for further reading Drawing on a wide range of scholarship The Interiors Theory Primer offers a coherent framework for understanding interiors as a distinct interdisciplinary field deeply embedded in the human condition Accessible to students useful to professionals and provocative for scholars The Interiors Theory Primer argues that the designed environments in which we live work and gather deserve greater attention not only for their aesthetic and functional qualities but also for their powerful role in shaping contemporary life

History and Material Culture Karen Harvey, 2017-09-18 Sources are the raw material of History but whereas the written word has traditionally been seen as the principal source historians now recognize the value of sources beyond text In this new edition of History and Material Culture contributors consider a range of objects from an eighteenth century bed curtain to a twenty first century shopping trolley which can help historians develop new interpretations and new knowledge about the past Containing two new chapters on healing objects in East Africa and the shopping trolley in the social world this book examines a variety of material sources from around the globe and across centuries to assess how such sources can be used to study the distant and the recent past In a revised introduction Karen Harvey discusses some of the principal issues raised when historians use material culture particularly in the context of the material turn and suggests some initial steps for those unfamiliar with these kinds of sources While the sources are discussed from interdisciplinary perspectives the emphasis of the book is on what historians stand to gain from using material culture as well as what historians have to offer the broader study of material culture Clearly written and accessible this book is the ideal introduction to the opportunities and challenges of researching material culture and is essential reading for all students of historical theory and method

Food and Drink in American History Andrew F. Smith, 2013-10-28 This three volume encyclopedia on the history of American food and beverages serves as an ideal companion resource for social studies and American history courses covering topics ranging from early American Indian foods to mandatory nutrition information at fast food restaurants The expression you are what you eat certainly applies to Americans not just in terms of our physical health but also in the myriad ways that our taste preferences eating habits and food culture are intrinsically tied to our society and history This standout reference work comprises two volumes containing more than 600 alphabetically arranged historical entries on American

foods and beverages as well as dozens of historical recipes for traditional American foods and a third volume of more than 120 primary source documents Never before has there been a reference work that coalesces this diverse range of information into a single set The entries in this set provide information that will transform any American history research project into an engaging learning experience Examples include explanations of how tuna fish became a staple food product for Americans how the canning industry emerged from the Civil War the difference between Americans and people of other countries in terms of what percentage of their income is spent on food and beverages and how taxation on beverages like tea rum and whisky set off important political rebellions in U S history *Wild Things* Judy Attfield,2020-08-20 What do things mean What does the life of everyday objects reveal about people and their material worlds Has the quest for the real thing become so important because the high tech world of total virtuality threatens to engulf us This pioneering book bridges design theory and anthropology to offer a new and challenging way of understanding the changing meanings of contemporary human object relations The act of consumption is only the starting point of object s lives Thereafter they are transformed and invested with new meanings and associations that reflect and assert who we are Defining designed things as things with attitude differentiates the highly visible fashionable object from ordinary aretefacts that are too easily taken for granted Through case studies ranging from reproduction furniture to fashion and textiles to clutter the author traces the connection between objects and authenticity ephemerality and self identity Beyond this she shows the materiality of the everyday in terms of space time and the body and suggests a transition with the passing of time from embodiment to disembodiment *Routledge Handbook of Food and Cultural Heritage* Michael A. Di Giovine,Raúl Matta,2025-09-24 The Routledge Handbook of Food and Cultural Heritage explores the many varied intersections of food and cultural heritage from a robust transdisciplinary perspective Innovative in its approach this cutting edge Handbook thinks beyond traditional boundaries to present unique perspectives on the myriad ways in which food and cultural heritage are entangled in theory and practice Both are growing industries both are deeply rooted in families cultures and societies both generate controversy and are deployed for political and economic activism They also both have intellectual lives of their own and are centers of interdisciplinary fields themselves yet they also intersect in interesting and until this book under theorized ways After a comprehensive introduction that presents and challenges the state of the art in the disciplines of critical food and critical heritage studies the Handbook s chapters are divided into six themes common to both fields Ontologies and epistemologies of food and cultural heritage material culture identity placemaking and belonging politics and regulation tourism development and heritage management and contemporary issues and emerging approaches To give representation of voices not usually heard in the scholarly tradition special interviews with food and heritage practitioners complement the comprehensive chapters adding further depth to the volume through their own lived experiences With contributions from nearly 50 internationally recognized scholars social scientists dieticians practitioners and activists this book is essential reading to

scholars students researchers industry professionals and practitioners looking to understand the complex and compelling ways in which food foodways and cultural heritage overlap and impact each other providing venues for collaborations

The Birth of the English Kitchen, 1600-1850 Sara Pennell, 2016-06-30 Tracing the emergence of the domestic kitchen from the 17th to the middle of the 19th century Sara Pennell explores how the English kitchen became a space of specialised activity sociability and strife Drawing upon texts images surviving structures and objects The Birth of the English Kitchen 1600 1850 opens up the early modern English kitchen as an important historical site in the construction of domestic relations between husband and wife masters mistresses and servants and householders and outsiders and as a crucial resource in contemporary heritage landscapes

Home Alison Blunt, Robyn Dowling, 2022-05-30 *Home* articulates a critical geography of home in which home is understood as an emotive place and spatial imaginary that encompasses lived experiences of everyday domestic life alongside a wider and often contested sense of being and belonging in the world Engaging with the burgeoning cross disciplinary interest in home since the first edition was published this significantly revised and updated second edition contains new research boxes illustrations and contemporary examples throughout It also adds a new chapter on Home and the City that extends the scalar understanding of home to the urban The book develops the conceptual and methodological underpinnings of a critical geography of home drawing on key feminist postcolonial and housing thinkers as well as contemporary methodological currents in non representational thinking and performance The book's chapters consider the making and unmaking of home across the domestic scale house as home the urban city as home national nation as home and homemaking in relation to transnational migration and diaspora Each chapter includes illustrative examples from diverse geographical contexts and historical time periods Chapters also address some of the key cross cutting dimensions of home across these scales including digital connectivity art and performance more than human constructions of home and violence and dispossession The book ends with a research agenda for home in a world of COVID 19 The book provides an understanding of home that has three intersecting dimensions that material and imaginative geographies of home are closely intertwined that home power and identity are intimately linked and that geographies of home are multi scalar This framework the examples used to illustrate it and the intended audience of academics and students across the humanities and social sciences will together shape the field of home studies into the future

Eating Her Curries and Kway Nicole Tarulevicz, 2013-12-15 Discovering Singaporean identity through cooking and cuisine While eating is a universal experience for Singaporeans it carries strong national connotations The popular Singaporean English phrase Die die must try is not so much hyperbole as it is a reflection of the lengths that Singaporeans will go to find great dishes In *Eating Her Curries and Kway A Cultural History of Food in Singapore* Nicole Tarulevicz argues that in a society that has undergone substantial change in a relatively short amount of time food serves Singaporeans as a poignant connection to the past Eating has provided a unifying practice for a diverse society a metaphor for multiracialism and recognizable national symbols for a

fledgling state Covering the period from British settlement in 1819 to the present and focusing on the post 1965 postcolonial era Tarulevicz tells the story of Singapore through the production and consumption of food Analyzing a variety of sources that range from cookbooks to architectural and city plans Tarulevicz offer a thematic history of this unusual country which was colonized by the British and operated as a port within Malaya Connecting food culture to the larger history of Singapore she discusses various topics including domesticity and home economics housing and architecture advertising and the regulation of food related manners and public behavior such as hawking littering and chewing gum Moving away from the predominantly political and economic focus of other histories of Singapore Eating Her Curries and Kway provides an important alternative reading of Singaporean society

Digital Culture & Society (DCS) Tim Hector, David Waldecker, Niklas Strüver, Tanja Aal, 2023-09-01 Modern mundane life is brimming with a variety of data driven technologies that are supposed to augment the practices they are involved in As humans bring these technologies into their lives in a process of domestication they tame them and are simultaneously influenced by their presence In combining domestication research and an empirical analysis of current digital and interconnected media this issue examines the process of taming with an emphasis on practices The contributions in this issue explore the use of digitally connected media such as vacuum robots smart speakers drones and kitchen appliances with reference to the domestication paradigm from interdisciplinary perspectives including media studies sociology anthropology and human computer interaction

Modern Vintage Homes & Leisure Lives Samantha Holland, 2017-11-14 This book explores the meanings and practices of vintage lives It focuses on the non mainstream subculture of vintage clothes and lifestyle specifically that of the 1940s 1950s and 1960s and asks how those engaged in the culture place themselves within the gendered and classed contexts of these eras As a result it also identifies the tensions involved in these identities connected to a past that offered little gain for women and narrow gender roles for both women and men Modern Vintage Homes Leisure Lives is based on original empirical international data about a group of people who wear vintage clothing all of the time and whose homes are styled entirely or almost entirely vintage It aims to understand the meanings of vintage for them through their daily practices and accrued knowledge Through interviews and direct observations of vintage events it also explores questions about the acquisition display and curation of vintage clothes homes and objects about glamour and wardrobes about the history of second hand markets and emotional durability and ideas about ghosts hauntings and spectral remains It will be of particular interest to students and academics of gender and women s studies fashion and design fashion history cultural studies the body and embodiment

Swedish-American Borderlands Dag Blanck, Adam Hjorthén, 2021-08-24 Reframing Swedish American relations by focusing on contacts crossings and convergences beyond migration Studies of Swedish American history and identity have largely been confined to separate disciplines such as history literature or politics In Swedish American Borderlands this collection edited by Dag Blanck and Adam Hjorthén seeks to reconceptualize and redefine the field of Swedish American relations by reviewing more complex

cultural social and economic exchanges and interactions that take a broader approach to the international relationship ultimately offering an alternative way of studying the history of transatlantic relations Swedish American Borderlands studies connections and contacts between Sweden and the United States from the seventeenth century to today exploring how movements of people have informed the circulation of knowledge and ideas between the two countries The volume brings together scholars from a wide range of disciplines within the humanities and social sciences to investigate multiple transcultural exchanges between Sweden and the United States Rather than concentrating on one way processes or specific national contexts Swedish American Borderlands adopts the concept of borderlands to examine contacts crossings and convergences between the nations featuring specific case studies of topics like jazz architecture design genealogy and more By placing interactions entanglements and cross border relations at the center of the analysis Swedish American Borderlands seeks to bridge disciplinary divides joining a diverse set of scholars and scholarship in writing an innovative history of Swedish American relations to produce new understandings of what we perceive as Swedish American and Swedish American Contributors Philip J Anderson North Park U Jennifer Eastman Attebery Idaho State U Marie Bennedahl Linnaeus U Ulf Jonas Björk Indiana U Indianapolis Thomas J Brown U of South Carolina Margaret E Farrar John Carroll U Charlotta Forss Stockholm U Gunlög Fur Linnaeus U Karen V Hansen Brandeis U Angela Hoffman Uppsala U Adam Kaul Augustana College Maaret Koskinen Stockholm U Merja Kyt Uppsala U Svea Larson U of Wisconsin Madison Franco Minganti U of Bologna Frida Rosenberg KTH Royal Institute of Technology Stockholm Magnus Ullén Stockholm U

Three Squares Abigail Carroll, 2013-09-10 We are what we eat as the saying goes but we are also how we eat and when and where Our eating habits reveal as much about our society as the food on our plates and our national identity is written in the eating schedules we follow and the customs we observe at the table and on the go In Three Squares food historian Abigail Carroll upends the popular understanding of our most cherished mealtime traditions revealing that our eating habits have never been stable far from it in fact The eating patterns and ideals we've inherited are relatively recent inventions the products of complex social and economic forces as well as the efforts of ambitious inventors scientists and health gurus Whether we're pouring ourselves a bowl of cereal grabbing a quick sandwich or congregating for a family dinner our mealtime habits are living artifacts of our collective history and represent only the latest stage in the evolution of the American meal Our early meals Carroll explains were rustic affairs often eaten hastily without utensils and standing up Only in the nineteenth century when the Industrial Revolution upset work schedules and drastically reduced the amount of time Americans could spend on the midday meal did the shape of our modern three squares emerge quick simple and cold breakfasts and lunches and larger sit down dinners Since evening was the only part of the day when families could come together dinner became a ritual as American as apple pie But with the rise of processed foods snacking has become faster cheaper and easier than ever and many fear for the fate of the cherished family meal as a result The story of how the simple gruel of our forefathers gave way

to snack fixes and fast food Three Squares also explains how Americans eating habits may change in the years to come Only by understanding the history of the American meal can we can help determine its future

Food and Knowledge in Renaissance Italy Deborah L Krohn, 2016-04-15 Though Bartolomeo Scappi's *Opera* 1570 the first illustrated cookbook is well known to historians of food up to now there has been no study of its illustrations unique in printed books through the early seventeenth century In *Food and Knowledge in Renaissance Italy* Krohn both treats the illustrations in Scappi's cookbook as visual evidence for a lost material reality and through the illustrations including several newly discovered hand colored examples connects Scappi's *Opera* with other types of late Renaissance illustrated books What emerges from both of these approaches is a new way of thinking about the place of cookbooks in the history of knowledge Krohn argues that with the increasing professionalization of many skills and trades Scappi was at the vanguard of a new way of looking not just at the kitchen as workshop or laboratory but at the ways in which artisanal knowledge was visualized and disseminated by a range of craftsmen from engineers to architects The recipes in Scappi's *Opera* belong on the one hand to a genre of cookery books household manuals and courtesy books that was well established by the middle of the sixteenth century but the illustrations suggest connections to an entirely different and emergent world of knowledge It is through study of the illustrations that these connections are discerned explained and interpreted As one of the most important cookbooks for early modern Europe the time is ripe for a focused study of Scappi's *Opera* in the various contexts in which Krohn frames it book history antiquarianism and visual studies

Meals in Science

and Practice H L Meiselman, 2009-03-26 The meal is the key eating occasion yet professionals and researchers frequently focus on single food products rather than the combinations of foods and the context in which they are consumed Research on meals is also carried out in a wide range of fields and the different disciplines do not always benefit from each others expertise This important collection presents contributions on meals from many perspectives using different methods and focusing on the different elements involved Two introductory chapters in part one summarise the key findings in Dimensions of the Meal the first book to bring an interdisciplinary perspective to meals and introduce the current publication by reviewing the key topics discussed in the following chapters Parts two to four then consider how meals are defined studied and taught Major considerations include eating socially and eating alone the influence of gender and the different situations of home restaurant and institutional settings Part five reviews meals worldwide with chapters on Brazilian Indian Chinese and Thai meals among others The final parts discuss meals from further perspectives including those of the chef product developer and meal setting designer With its distinguished editor and international team of contributors Meals in science and practice is an informative and diverse reference for both professionals and academic researchers interested in food from disciplines such as food product development food service nutrition dietetics sociology anthropology psychology public health medicine and marketing Summarises key findings in dimensions of the meal Considers how meals are defined studied and taught including eating alone and socially and the influence of gender Reviews the meaning of meals in different cultures

Eating Culture Gillian Crowther, 2018-05-15 From ingredients and recipes to meals and menus across time and space Eating Culture is a highly engaging overview that illustrates the important role that anthropology and anthropologists have played in understanding food as well as the key role that food plays in the study of culture The new edition now with a full color interior introduces discussions about nomadism commercializing food food security and ethical consumption including treatment of animals and the long term environmental and health consequences of meat consumption Grist to the Mill sections at the end of each chapter provide further readings and Food for Thought case studies and exercises help to highlight anthropological methods and approaches By considering the concept of cuisine and public discourse this practical guide brings order and insight to our changing relationship with food
